Engineering Astrophysics Engineering Solutions to Astrophysical Problems							
<p>The space age has transformed our understanding of the Universe. Just within the last few decades we have measured the age of the Universe and shown that the rate of expansion is accelerating, seen ten million degree solar flares rip through our Sun's atmosphere, discovered liquid water oceans on icy moons of Jupiter and Saturn, and detected thousands of planets orbiting other stars. These advances are all made possible through ever more capable spacecraft, either orbiting Earth as remote observatories, or directly exploring objects in our solar system and beyond. This class is for anyone interested in the intersection between the scientific problems we address with large space missions and the engineering solutions that are needed make these technical marvels possible. The course is geared to advanced undergraduates with exposure to thermodynamics, statistics, and simple differential equations. Material covered will include the Voyager interstellar mission, Hubble and the expansion of the Universe, planet hunting with Kepler, the Solar Probe Plus mission to the atmosphere of our Sun, and the exploration of the water oceans of the Jovian moon Europa. Coursework consists of homework assignments, short reading assignments before lectures, and a semester long project to design a new mission.</p>

## Chemical Engineering Department

### Chemical Engineering (CHE)

--MANY COLLEGE OF ENGINEERING COURSES REQUIRE STUDENTS NOT ENROLLED IN BUSINESS ADMINISTRATION OR ENGINEERING (INCLUDING CCS MAJORS) TO PAY A \$115-207 COMPUTER USER FEE. THIS IS A SPECIAL FEE, TO BE PAID ONLY ONCE EACH TERM, AND IS IN ADDITION TO THE INFORMATION TECHNOLOGY ACCESS FEE PAID BY FULL TIME STUDENTS AS PART OF THEIR REGULAR FEE ASSESSMENT. YOU WILL BE INFORMED ON THE FIRST DAY OF CLASS WHETHER OR NOT YOUR CLASS IS SUBJECT TO THIS FEE.

The goals of this course are to help students hone and enhance their problem solving, critical thinking, creative thinking, and troubleshooting skills and to ease the transition from college to the workplace. Topics include structured critical reasoning, Kepner-Tregoe analysis, Duncker Diagrams, vertical and lateral thinking and Futuring. The students will work in teams to apply the principles they learn in the course to work with a local business to find and solve problems in their operations. The graduate course (ChE 598) will also require of prospectus of a potential client for the next course offering. The course syllabus can be obtained by sending an email message to lauradb@umich.edu

Water Supply, Hygiene, Sanitat Decentralized water supply, hygiene and sanitation This course provides an introduction to decentralized approaches to water access and treatment that results in providing access to drinking water and sanitation. The class will cover the risks associated with poor water quality (waterborne pathogens and chemicals); appropriate physical, chemical, and biological process technologies for decentralized deployment; social factors; and consideration for resource recovery, sustainability, public policies and environmental justice, and economic models including privatization.							
27562	P W LEC 063	MW	9-1030AM	104 EWRE	Liu		
Infrastructure Systems Optimiz Infrastructure Systems Optimization This class is to prepare students with the systems-level approach to the analysis and design of civil infrastructure systems. The fundamental concepts associated with the course are taught through a series of examples drawn from the various aspects of civil infrastructure systems applications. The examples build upon each other to provide a comprehensive overview of practical approaches to goal-oriented problem formulation and solution while giving the student a fundamental understanding of principles that can be used to facilitate decision making. Optimization techniques that will be discussed in this class include linear programming formulations and solution algorithms, multi-objective optimization, integer optimization, network models, and nonlinear programming.

## Electrical Engr & Computer Sci

### Electrical Engineering And Computer Science (EECS)

IT IS CRITICAL THAT STUDENTS ATTEND CLASSES FROM THE BEGINNING OF THE TERM. EVEN THOUGH STUDENTS MAY BE REGISTERED OFFICIALLY FOR A COURSE, THE ELECTRICAL ENGINEERING AND COMPUTER SCIENCE DEPARTMENT MAY GIVE AWAY A STUDENT'S PLACE IN A CLASS IF THEY DO NOT ATTEND THE FIRST WEEK OF LECTURES AND LABS/DISCUSSIONS (AS APPROPRIATE) FOR ANY EECS COURSES.

AT THE SAME TIME, THE EECS DEPARTMENT IS NOT OBLIGATED TO WITHDRAW STUDENTS OFFICIALLY FROM THE COURSE, EVEN THOUGH THE STUDENT HAS BEEN INFORMED THAT HIS/HER PLACE IN A COURSE HAS BEEN TAKEN AWAY. STUDENTS ARE RESPONSIBLE FOR THE ACCURACY OF THEIR SCHEDULES AND MUST BE SURE THAT ALL DROPS ARE PROCESSED THROUGH THE REGISTRATION SYSTEM DURING THE NORMAL DROP/ADD PERIOD.

Intro to Entrepreneurial Des  
Entrepreneurial Design is a cross-disciplinary course and lab for current and potential entrepreneurs, designers, hackers, makers, founders, and doers. The focus is on learning to hack things together and experience the fun of building, with minimal technical mumbo-jumbo.

This class covers topics in 3D modeling and 3D printing, machining and metal working, embedded systems and microelectronics, apps and web development as it relates to design and entrepreneurship.

Intro to Entrepreneurial Design has four discussion sections. In these sections, you will dive in and gain hands-on, direct experience in designing and building physical and digital prototypes, expanding on lessons learned in the lecture part of the course. You MUST take one of these sections in addition to the main lecture to get full credit for the course.

Section 7: Hardware/Coding Internet of Things, ENTR 390.007

Section 8: Hardware/Coding Internet of Things, ENTR 390.008

Section 9: 3D Printing/Prototyping, ENTR 390.009

Section 10: Web/App Development Internet of Things, ENTR 390.010

NOTE: Students must enroll in one lab (007-010). When you enroll in the lab, you will be auto-enrolled in the lecture (006).

30530 P W LAB 007 W 1130-230PM ARR Alexander-Adams, Shtein  
Hardware/Coding, IoT  
ENTR 390.007 will now meet in Design Lab 1 on the first floor of the Duderstadt Center.

The section will focus on the Internet of Things, however, students will have the option to go through basic training at the Wilson Center if your project should require machining/metal-working technology.

E-Commerce Entrepreneurship

The E-Commerce Entrepreneurship course is designed to introduce students to the online world of business, retail, and commerce. With the increasing popularity of shows like Shark Tank and the ease of setting up an online business, people are more than ever interested in setting up their own online business. The class will address the expected challenges and help students gain the knowledge they would need to start their own online business upon completion of the course.

Digital Product Design

Digital Product Design is an introduction to the fundamentals of designing products for digital platforms. This course was created by UM students and will be taught by practicing designers working at FarmLogs.

In this course, students will learn how to:

- Use design thinking to discover problems worth solving, generate and prototype solutions, and test them with real users
- Design your own products by creating wireframes, interactions, and visual designs
- Use typography, color, shape, space--and industry-standard tools like Sketch, Invision, etc--to build designs that are attractive, simple, and functional
- Solicit constructive feedback, critique design work, and substantiate your criticism
- Discuss topics in the design world, including usability, user experience design, user interface design, and design research

Intended Audience:

This is an introductory course for students studying engineering, art and design, and liberal arts--or anyone interested in making effective digital products.

CAT#	Course Title					CR	PREREQ	LAB FEE
Class #	CODE CMP SEC	DAYS	TIME	LOCATION	INSTRUCTOR			

Format:

-Weekly lectures with optional work sessions where students can hang out and work with instructors, classmates, and others in the Ann Arbor design community.

-Weekly small design assignments with a final product project at the end of the semester.

**407 Entrepreneurship Hr 1.00**

20690 P W SEM 001 F 1130-1230PM STAMPS Frank

IMPORTANT -- ONE DAY Class Schedule Change -- ENTR 407 will meet on Thursday, October 13, 2016, 7:00 - 8:00 PM in STAMPS. No class will be held on Friday, October 14, 2016. Regular Friday class meetings remain in effect all other Fridays Fall '16.

---  
This seminar series is designed to expose students to entrepreneurship through interaction with experienced entrepreneurs, business leaders, and venture capitalists as well as individuals involved in emerging business models, new venture creation, and technology commercialization. While covering a broad set of engineering disciplines, guest speakers will share their knowledge on the latest, most diverse practices on legal, financial, and other innovation issues. The lectures include leading entrepreneurs and executives, technology innovators, experts from the financial markets, and others who support the entrepreneurial infrastructure. Following these seminars, students will be able to meet the guest speakers along with other members of the entrepreneurial community.

**408 Patent Law 1.00**

20687 P W SEM 001 M 6-8PM 1303 EECS Buchanan

Prereq: Sophomore standing or above

Inventors and entrepreneurs have four concerns related to patent law:

1. protecting inventions during product development
2. determining invention patentability
3. avoiding infringement
4. leveraging a patent as a business asset

This course addresses these concerns through the application of case law and business cases to an invention of a student's choice.

**411 Entr Practicum 3.00 ADVISORY**

Greenhouse Gas Control

Greenhouse Gas Control

This course presents a review of strategies for the reduction of greenhouse gas (GHG) emissions in power generation, transportation, and the built environment. Sources, discharges, and physical properties of GHGs are surveyed, and technologies for GHG elimination or sequestration are discussed. Policy options for GHG control are considered.

28249 PD LEC 004 TH 12-2PM ARR Winter

Verification and Validation

Develp & Verify Systems Reqmts

Data collection and analysis techniques for developing and verifying system design requirements are studied: identifying, quantifying and prioritizing stakeholder objectives, minimizing test procedures cost, validation vs. verification, and limited vs. mass production strategies. Course work includes a term project. Knowledge of introductory statistics is required.

<p>This section of MSE 220 is a team based and project based version of the class where the first introduction to the material is NOT lecture, but rather annotated reading. Class time will consist of a 20 minute lecture followed by active learning activities. There will be two group projects in this class. Students will be required to purchase an electronic textbook on Perusall.com (~\$70 perpetual, ~\$55 rental) and will also be required to purchase a subscription to Learning Catalytics (\$12). There are no other fees for the course. Homework is graded for effort and honesty - not accuracy. Exams are graded by averaging a closed book, closed notes, individual effort, with an open book, open internet, group effort. You will be rewarded for hard work and honesty on homework and exams without the angst of 100% summative assessment. Do not purchase the book at this time. More information will be available on the following website: <a href="http://java.engin.umich.edu/220f16">http://java.engin.umich.edu/220f16</a></p>

Advanced Ceramics. This course will survey the status of a series of high profile topics including recent progress in the use of ceramics in energy production and storage including lithium batteries, thermoelectric materials, fuel cells, photovoltaic and related electronic devices, ceramic composites for new GE jet engines, prosthetic devices (knee and hip implants). It will also cover bottom up processing or atomic level assembly using gas and liquid phase processing and the use of nanopowders in processing in the above subject areas. Guest lectures from specialists in the fields will be included.

## Naval Arch & Marine Engr Dept

### Naval Architecture And Marine Engineering (NAVARCH)

--MANY COLLEGE OF ENGINEERING COURSES REQUIRE STUDENTS NOT ENROLLED IN BUSINESS ADMINISTRATION OR ENGINEERING (INCLUDING CCS MAJORS) TO PAY A \$115-207 COMPUTER USER FEE. THIS IS A SPECIAL FEE, TO BE PAID ONLY ONCE EACH TERM, AND IS IN ADDITION TO THE INFORMATION TECHNOLOGY ACCESS FEE PAID BY FULL TIME STUDENTS AS PART OF THEIR REGULAR FEE ASSESSMENT. YOU WILL BE INFORMED ON THE FIRST DAY OF CLASS WHETHER OR NOT YOUR CLASS IS SUBJECT TO THIS FEE.

Clinical Gait Analysis

Advisory Prereq: MOVESCI 330

31896	P RW LEC 006	T	9-11AM	ARR	Robinson			
-------	--------------	---	--------	-----	----------	--	--	--

F16- this section is not open to enrollment.

This course section meets in room 3745D CCRB. Advisory Prerequisite: MOVESCI 320. HF students will need an override. All students must obtain the following criminal and medical clearances prior to visits to Towsley Children's House: 1. Department of Human Services Central Registry Clearance (no cost); 2. Criminal History Certification (no cost); 3. Michigan State Police ICHAT (Internet Criminal History Access Tool) (no cost); 4. Criminal background screening (by GIS) (no cost to student); 5. TB test (approx.. \$20, depending on student's medical insurance.) There will be a mandatory orientation session to discuss the criminal background and medical clearance process for all enrolled students on December 15 from 11:00a.m.-12:00p.m. in CCRB 3040. Please bring an enlarged copy of your driver's license (or if you do not have a driver's license, your U-M ID) and your social security number.

## Movement Science (MOVESCI)

NOTE - ENROLLMENT NOT GUARANTEED FOR STUDENTS OTHER THAN KINESIOLOGY MAJORS. ATTENDANCE AT FIRST CLASS IS MANDATORY TO RESERVE YOUR PLACE IN CLASS. ACTIVITY CLASSES FOR NON-MAJORS ARE LISTED IN THE UMOVE PROGRAM.

<b>110</b>	<b>Bio&amp;Beh Bases Hu Mvt</b>				<b>3.00</b>		
13841	P RW LEC 001	MWF	10-11AM	3735 CCRB	Ferris, Bodary, Palmer		

This section is held for Kinesiology students. Non-Kinesiology students should wait list under section 011.

Because Kinesiology holds MVS 110 seats for Kinesiology summer orientation students, overrides for non-Kinesiology students are not issued until post-orientation. Students will receive an email when and if they are issued an override. If students do not receive an override before the first day of class, they are welcome to attend the first day of class and see if the instructor has seats available. As long as students stay on the waitlist, they do not need to call or email to check their status.

13842	P RW LEC 002	MWF	10-11AM	1100 OBL	Bodary, Ferris, Palmer

-------	--------------	-----	---------	----------	------------------------	--	--

This section is held for Kinesiology students. Non-Kinesiology students should wait list under section 013.

Because Kinesiology holds MVS 110 seats for Kinesiology summer orientation students, overrides for non-Kinesiology students are not issued until post-orientation. Students will receive an email when and if they are issued an override. If students do not receive an override before the first day of class, they are welcome to attend the first day of class and see if the instructor has seats available. As long as students stay on the waitlist, they do not need to call or email to check their status.

25370	P W LEC 011	MWF	10-11AM	3735 CCRB	Ferris, Palmer, Bodary		
-------	-------------	-----	---------	-----------	------------------------	--	--

This section is intended as a waitlist for non-Kinesiology students who wish to enroll in section 001.

Because Kinesiology holds MVS 110 seats for Kinesiology summer orientation students, overrides for non-Kinesiology students are not issued until post-orientation. Students will receive an email when and if they are issued an override. If students do not receive an override before the first day of class, they are welcome to attend the first day of class and see if the instructor has seats available. As long as students stay on the waitlist, they do not need to call or email to check their status.

25371	P W LEC 012	MWF	10-11AM	1100 OBL	Bodary, Palmer, Ferris		
-------	-------------	-----	---------	----------	------------------------	--	--

This section is intended as a waitlist for non-Kinesiology students who wish to enroll in section 002.

Because Kinesiology holds MVS 110 seats for Kinesiology summer orientation students, overrides for non-Kinesiology students are not issued until post-orientation. Students will receive an email when and if they are issued an override. If students do not receive an override before the first day of class, they are welcome to attend the first day of class and see if the instructor has seats available. As long as students stay on the waitlist, they do not need to call or email to check their status.

## Physical Education (PHYSED)

NOTE - ENROLLMENT NOT GUARANTEED FOR STUDENTS OTHER THAN KINESIOLOGY MAJORS. ATTENDANCE AT FIRST CLASS IS MANDATORY TO RESERVE YOUR PLACE IN CLASS

NOTE - COURSES 140, 141, 142, 145, AND 349: CONTACT THE U-MOVE OFFICE (764-1342 OR U-MOVE@UMICH.EDU) FOR CLASS TIMES AND REGISTRATION INFORMATION.

**140 Beginning Swim** **1.00**

13862 PD W LAB 001 MW 6-7PM BELL POOL Starling  
Students must register through the Kinesiology Community Programs (KCP) website (kines.umich.edu/community-programs) or in Rm 3064 CCRB and request an override. To drop/request override, contact kebwink@umich.edu. Little or no swim experience? This course is for you. You'll start with entering the pool and getting comfortable. You'll progress to front crawl, back crawl, elementary backstroke, breaststroke, sidestroke, and butterfly. And you'll learn jumping in, treading, and water safety. Goal: one length of the pool. Goggles recommended. Attendance in at least one of the first two classes is mandatory for evaluation or you may lose your spot in class to those on a waitlist. No enrollments are accepted after the class meets a third time.

24001 PD W LAB 002 TTH 3-4PM ARR Starling  
Students must register through the Kinesiology Community Programs (KCP) website (kines.umich.edu/community-programs) or in Rm 3064 CCRB and request an override. To drop/request override, contact kebwink@umich.edu. Little or no swim experience? This course is for you. You'll start with entering the pool and getting comfortable. **141 Begin Swim II** **1.00** **ADVISORY**

13864 PD W LAB 001 MW 7-8PM BELL POOL Starling  
Students must register through the Kinesiology Community Programs (KCP) website (kines.umich.edu/community-programs) or in Rm 3064 CCRB and request an override. To drop/request override, contact kebwink@umich.edu. Beginning Swim II is for students who are already comfortable in the water and who can swim across the pool (the short way). The course works on building endurance and improving technique in freestyle, backstroke, elementary backstroke, breaststroke, sidestroke, butterfly, diving and treading water as well as water safety. Flip turns and other activities will be offered as skills advance. Goggles recommended. Attendance in at least one of the first two classes is mandatory for evaluation or you may lose your spot in class to those on a waitlist. No enrollments are accepted after the class meets a third time.

24002 PD W LAB 002 TTH 7-8PM ARR Starling

## Sport Management (SM)

<b>101</b>	<b>Pub&amp;Small Grp Comm</b>					<b>3.00</b>		
13876	P RW LEC 001 MW		830-10AM	3733 CCRB	LaRoche			
This section is held for Kinesiology students. Non-Kinesiology students should wait list under section 011.								

Because Kinesiology holds SM 101 seats for Kinesiology summer orientation students, overrides for non-Kinesiology students are not issued until post-orientation. Students will receive an email when and if they are issued an override. If students do not receive an override before the first day of class, they are welcome to attend the first day of class and see if the instructor has seats available. As long as students stay on the waitlist, they do not need to call or email to check their status.

Career Planning  
This course will meet at 555 S. Forest in the large conference room. This course is intended to prepare SM students to conduct their job search. The following topics would be covered:

- ? Starting the Job Search: defining your search, researching the industry, & exploring your network
- ? Assembling Job Search Materials: updating resumes, writing cover letters, writing application email messages, preparing writing samples or other portfolio materials, updating electronic portfolios
- ? Networking Tips: making the most of your social network, navigating career fairs, conferences, and capitalizing on impromptu opportunities
- ? Conducting Informational Interviews: gathering information about organizations, entry-level position requirements, salary expectations, etc.
- ? Making Initial Contact: reestablishing connections, contacting those you have met via networking events, contacting professionals with whom you have not previously had contact
- ? Preparing for Interviews/Conducting Interviews: preparing your elevator pitch, preparing for behavioral interview questions, establishing connections during interviews, meal etiquette, etc.
- ? Following Up After Interviews: sending a thank you to reaffirm your skills and your interest, keeping the door open even after no offer has been extended
- ? Benchmarking Starting Salaries & Accepting and Declining Job Offers

# Literature, Science & the Arts

IT IS CRITICAL THAT STUDENTS ATTEND CLASSES FROM THE BEGINNING OF THE TERM. EVEN THOUGH STUDENTS MAY BE REGISTERED OFFICIALLY FOR A COURSE, DEPARTMENTS MAY GIVE AWAY A STUDENT'S PLACE IN A CLASS IF THEY DO NOT ATTEND:

- THE FIRST MEETING OF BIOLOGY, CHEMISTRY, AND PHYSICS LABORATORIES;
- EITHER OF THE FIRST TWO MEETINGS OF ENGLISH COURSES;
- THE FIRST TWO MEETINGS OF HISTORY 396 AND 397;
- EITHER OF THE FIRST TWO MEETINGS OF ANY COURSE OFFERED BY THE DEPARTMENT OF ROMANCE LANGUAGES;
- THE FIRST TWO MEETINGS OF COURSES IN OTHER SUBJECTS.

AT THE SAME TIME, DEPARTMENTS ARE NOT OBLIGATED TO WITHDRAW STUDENTS OFFICIALLY FROM THE COURSE, EVEN THOUGH THE STUDENT HAS BEEN INFORMED THAT HIS/HER PLACE IN A COURSE HAS BEEN TAKEN AWAY. STUDENTS ARE RESPONSIBLE FOR THE ACCURACY OF THEIR SCHEDULES AND MUST BE SURE THAT ALL DROPS ARE PROCESSED THROUGH REGISTRATION SYSTEM DURING THE NORMAL DROP/ADD PERIOD.

## Chemistry Department

### Chemistry (CHEM)

--A GRADE OF C- OR BETTER MUST BE OBTAINED IN ALL CHEMISTRY COURSES PREREQUISITE TO SUBSEQUENT CHEMISTRY COURSES.  
 --ROOM A706 CHEM IS A WHEELCHAIR EQUIPPED LAB.  
 --A STUDENT WHO DOES NOT ATTEND THE FIRST MEETING OF A BIOLOGY, CHEMISTRY, OR PHYSICS LAB MAY BE DROPPED FROM THAT COURSE FOR NON-ATTENDANCE. ALL STUDENTS MUST TAKE ACTION THROUGH THE REGISTRATION PROCESS TO MAKE SURE THAT THEIR OFFICIAL COURSE SCHEDULES MATCH THE COURSES THEY ARE ATTENDING.

-------	--------------	---	-------	-----------	--------	--	--	--

This new section (Section 600) will use individualized, small group discussions of the laboratory experiments led by a graduate student instructor and eliminate the large, theater-like classroom lectures. Students will not solely be learning chemistry concepts, but will be performing experiments and interpreting data as it's collected, in an effort to teach students how to conduct research in ways that scientists conduct their research in professional laboratories

Please contact Samuel Esarey if you have questions: slesarey@umich.edu

## English Language Institute

### English Language Institute (ELI)

ELI courses fall into three categories:

1. English for Academic Purposes courses for graduate students;
2. Language and teacher training courses for international GSIs;
3. Teacher training courses for students planning to teach ESL in local communities or abroad.

For assistance in choosing an appropriate course, please go to the ELI Academic Advising website: <http://bit.ly/eliadvising> or e-mail: [eliadvisor@umich.edu](mailto:eliadvisor@umich.edu) to make an appointment to speak with an advisor.

## Economics Department

### Economics (ECON)

#### 101 Principles Econ I

4.00 ADVISORY

Students will be auto-enrolled in LEC 100 when they elect DIS 101-111.

There will be three midterms for this course: Wednesday October 12, 8-10PM; Wednesday November 9, 8-10PM; and Wednesday December 7, 8-10PM. All exams must be taken on the assigned dates and times. If you cannot take these exams as scheduled, please register for an open section in another lecture of Econ 101. No exceptions will be made to these exam dates and times.

No overrides will be issued for this class.

## History Department

### History (HISTORY)

--IT IS CRITICAL THAT STUDENTS ATTEND CLASS FROM THE BEGINNING OF THE TERM. ALTHOUGH STUDENTS MAY BE OFFICIALLY REGISTERED FOR A COURSE, THE DEPARTMENT MAY DISENROLL ANY STUDENT NOT ATTENDING THE FIRST TWO COURSE MEETINGS.  
 --DISCUSSION SECTIONS DO NOT MEET UNTIL AFTER FIRST LECTURE.  
 --STUDENTS ARE ENCOURAGED TO USE THE WAITLIST FOR ANY CLOSED COURSE. STUDENTS SHOULD REGISTER ON THE WAITLIST ACCORDING TO PREFERRED SECTION AND ATTEND THE FIRST CLASS. UP TO THE FIRST DAY OF CLASS, OVERRIDES WILL BE GIVEN BY THE DEPARTMENT AS SPACE BECOMES AVAILABLE. STUDENTS ARE NOTIFIED AND GIVEN TWO DAYS TO USE THE OVERRIDE, AFTER WHICH THE SPOT MAY GO TO AN ALTERNATE STUDENT ON THE WAITLIST. ONCE CLASSES HAVE STARTED, STUDENTS (WAITLISTED OR NOT) MUST CONTACT THE INSTRUCTOR FOR AN OVERRIDE.

## Physics Department

### Physics (PHYSICS)

--A STUDENT WHO DOES NOT ATTEND THE FIRST MEETING OF A BIOLOGY, CHEMISTRY, OR PHYSICS LAB MAY BE DROPPED FROM THAT COURSE FOR NON-ATTENDANCE. ALL STUDENTS MUST TAKE ACTION THROUGH THE REGISTRATION PROCESS TO MAKE SURE THAT THEIR OFFICIAL COURSE SCHEDULES MATCH THE COURSES THEY ARE ATTENDING.  
 --WAITLIST THROUGH WEB REGISTRATION AND THEN CHECK WITH THE PHYSICS STUDENT SERVICES OFFICE FOR PROCEDURES.  
 PHYSICS LABS 127, 128, 141, & 241 DON'T START UNTIL THE FIRST FULL WEEK OF CLASSES.

## Romance Languages Department

### French (FRENCH)

--A student who misses either of the first two meetings of any course offered by the Department of Romance Languages may be dropped from the course for non-attendance.  
 --Students with any previous study of French must take the French placement test before enrolling. Placement test dates are online at:

[www.lsa.umich.edu/rll/undergraduate/languageplacement/languageplacementtests](http://www.lsa.umich.edu/rll/undergraduate/languageplacement/languageplacementtests).

--All students must take action through the registration system to make sure that their official schedule of courses matches the courses they are attending.

## Italian (ITALIAN)

--A student who misses either of the first two meetings of any course offered by the Department of Romance Languages may be dropped from the course for non-attendance.

--Students with any previous study of Italian must take the Italian placement test before enrolling. Placement test dates are online at:

[www.lsa.umich.edu/rll/undergraduate/languageplacement/languageplacementtests](http://www.lsa.umich.edu/rll/undergraduate/languageplacement/languageplacementtests).

--All students must take action through the registration system to make sure that their official schedule of courses matches the courses they are attending.

## Sociology Department

### Sociology (SOC)

--IT IS CRITICAL THAT STUDENTS ATTEND CLASSES FROM THE BEGINNING OF THE TERM. EVEN THOUGH STUDENTS MAY BE REGISTERED OFFICIALLY FOR A COURSE, THE DEPARTMENT MAY GIVE AWAY PLACES IN A COURSE IF STUDENTS DO NOT ATTEND THE FIRST TWO COURSE MEETINGS.

--TO ASSIST THE STUDENT IN SELECTING COURSES, PAST COURSE SYLLABI ARE AVAILABLE AT: [www.lsa.umich.edu/soc/syllabi](http://www.lsa.umich.edu/soc/syllabi).

#### 100 Intro to Sociology 4.00 ADVISORY, ENFORCED

STUDENTS ARE AUTO-ENROLLED IN LEC 001 WHEN THEY ELECT A DIS (002-011).

Labs taught in 2244 USB are Bring Your Own Laptop labs.

This lab is a CSP lab. CSP sections are scheduled for more hours per week than a routine section of the same course. Some of that time is devoted to workshop activities, e.g., problem solving, practice tests, review of assignments and instruction in learning skills. There is also provision for more individual instruction in the form

12283	P RW LEC 001	TTH	10-1130AM	ARR	Duckett		
-------	--------------	-----	-----------	-----	---------	--	--

This is a course designed primarily for PIBS students. Undergraduate students are not eligible, and although we welcome masters and graduate students from other colleges (e.g. Engineering, Chemistry, Pharmacy, Dentistry, School of Public Health), there are expectations that students have a basic understanding of key biochemical/molecular biological concepts. Students from non-PIBS programs must contact the course director prior to registering in order to determine their eligibility.

#### Cog Neuro of Consciousness

The study of consciousness is considered a fundamental scientific and philosophical pursuit. How does information processing in the brain generate experience? How do we objectively capture what is, by definition, a subjective event? As philosopher Colin McGinn puts it, how do we get from the water of the brain to the wine of consciousness? I have recently started a Center for Consciousness Science at the UM Medical School to help address these very questions.

As an educational activity and the Center (and as a NGP faculty), I am conducting a combined reading/lecture course (NS-704) this upcoming semester on "The Cognitive Neuroscience of Consciousness." The study of consciousness is sometimes decomposed into "levels of consciousness" (awake vs. asleep vs. anesthetized vs. comatose) and "states of consciousness" (assuming I am already conscious, why do I see a blue triangle rather than a red square?). We will explore both of these dimensions and likely have some visiting lecturers/discussants to help us along the way.

The subject of consciousness motivated many of us to choose the field of neuroscience. I hope you will join me next month as we explore a fascinating question that has scientific, philosophical, clinical, and even existential implications. Even if you don't want to formally sign up for the course, you are welcomed to attend and participate.

What: NS704, The Cognitive Neuroscience of Consciousness

Who: Neuroscience and psychology students (and other interested people)

When: Fall semester, Wednesdays at Noon (pizza will be served!)

Where: Medical School, Med-Sci I, 7th floor conference room (#7433D)

<b>406</b>	<b>Special Topics</b>		<b>1.00</b>		
27780	P W LEC 001	W	630-830PM	2044 SM	Kuuskoski, Clague
Money Smarts for Artists					
28052	P W LEC 002	M	630-830PM	2044 SM	Billmann, Kuuskoski, Clague
Marketing and Social Media					
DIY Marketing and Social Media: Sara Billman (UMS director of marketing)					

The Internet presents an array of low- to no-cost tools from email, websites and blogs to Facebook fanpages, Twitter feeds, and online survey tools that individuals can use to share their stories and promote their own career opportunities. Yet such democratization has also fragmented the mass media, in an era where public arts coverage is also dwindling. This course addresses both marketing theory and best practices that will allow enterprising individuals to create a professional virtual toolkit that showcases their strongest assets. Students will learn which self-marketing strategies serve what purpose and how to prioritize the development of various materials and resources, as well as develop a customized plan based on individual goals. Classes will include a look into the backend analytics of the various tools to gain a full understanding of how to assess success. The course will be led by veteran arts marketer Sara Billmann, who has worked with hundreds of different artists of all kinds for the past 19 years as marketing director for UMS. Coursework will include in-class activities and several short papers designed to help students apply their learning to their own professional goals. At course's end, participants will be on their way to developing a promotional tool, polished through peer and professional feedback.

28054	P W LEC 003	T	630-830PM	2038 SM	Peters, Kuuskoski, Clague
The Recording Industry					
The Recording Industry: Selling Your Music to the World. Taught by Jeremy Peters (director of Ghostly International and owner of Quite Scientific Records).					

How do I sell my music on iTunes? Do I need a commercial recording label? Can I release an album on my own? What rules and laws do I need to think about? How hard is it to get an album on Spotify?? Musicians of all stripes face these questions when considering how to release and promote the music they've created in audio or video format. This class will answer these questions (and more), focusing on the real-world application of entrepreneurial, legal, business, and artistic considerations required to promote and sell music digitally today. You'll learn basic music industry standards and the necessary legal considerations that come into play when releasing music online. We'll delve into the process of preparing recordings for release in digital formats, how to decide which service providers are most effective for your goals, and ultimately release your recordings online! You'll also learn about promoting your work and how to track your business efforts. Finally, we'll explore current trends and future directions in the music business. Active engagement and participation is vital to success in this hands-on, experiential class. Come prepared to participate and bring your recordings and videos!

30451	P REC 002	W	930-11AM	2026 SM	Schoenfeld		
Music and Math Music and Mathematics: From wherever we turn from the Greeks to the present, mathematics and music seem to bear a strong intellectual and aesthetic relationship. This course will explore not only methodological similarities (geometric symmetry, fractals in Bach, well-tempered tuning), but also will examine aesthetic parallels that have fascinated mathematicians such as Newton, Euler, and Riemann. (Why should the equation $+1=0$ give one the sense of awe that is experienced by a late Beethoven string quartet, for example?)							
Other topics such as Kepler's "Song of the Earth", "Newton and the mystery of the Major Sixth", and Euler's "The Mathematics of Musical Sadness," will be discussed. Regarding mathematics as a method of composition, we include music by chance, music and group theory, and how not to mix mathematics and music.							
A student with a solid understanding of high school mathematics (through pre-calculus) will have no problems understanding the material; and other than the ability to read music, no music theory will be required.

	Learn to play the dynamic, subtle, transcendent music of the Javanese Gamelan! These classes are for people who want to experience a musical tradition totally different from western folk, rock or classical music. The gamelan is an ensemble of gongs, metallophones, drums, xylophone, a few stringed instruments, and singers. No previous knowledge of Indonesia or of music is expected. These courses are open to all students, undergraduate and graduate in all departments of the university. For information contact Susan Walton swalton@walton

## Euphonium-Baritone (EUPHBARI)

## Flute (FLUTE)

## Fortepiano (FPIANO)

## Guitar (GUITAR)

<b>111</b>	<b>Performance</b>				<b>2.00</b>	<b>ADVISORY</b>	
30114	PI REC 001	TTH	1230-130PM	202 STRNS	Hopkins		

Beginning Guitar

The course is for beginners with no previous experience playing guitar. If you do not own a guitar one will be provided for you to use during the semester.

The purpose of GUITAR 111 is to help students develop their guitar skills, with a primary focus on using the guitar as an accompaniment instrument. Right Hand skills covered will include finger picking, flat picking, and a variety of strumming patterns. Left Hand skills will include open chords, barre chords, melody chords, and basic scale patterns. Introduction to reading of standard music notation, guitar tablature, and chord symbols will be covered. Other topics that will be presented include improvisation, playing by ear, and using the capo for transposition.

Aesthetics of Rock Music

Aesthetics has traditionally comprised the study of beauty. However, contemporary artists work from diverse perspectives in which defining, sharing, and understanding the self is more relevant. Similarly, rock has traditionally signified a specific music genre, yet is interpreted widely among listeners who differ in age, race, gender, and experience. We will investigate how popular music performers and listeners situate themselves in relation to their music and each other, and examine our own listening habits and preferences.

Teach Mus to Underserved Stu

Teaching Music to Underserved Students: Teaching Music to Underserved Students will explore the complexities of teaching music in underserved contexts. The course is open to all music majors who wish to learn more about teaching music in diverse settings. Topics will include the complex constructs of race, ethnicity, socioeconomic status, culturally responsive pedagogy, and reciprocal community engagement, and a focus will be placed on practical application of these important issues within the process of music teaching and learning.

Songwriting							
Song Language: Singer-songwriting Workshop. This course is designed to nurture student songwriting in a supportive workshop environment. New work will be shared as we strive to develop the connection between experience and song through performance, discussion and an increased understanding of songwriting fundamentals.

Stu Ptrnship in Tech Perf Arts							
Student Partnerships in Technology and Performing Arts: To be a 21st-century performing artist inevitably requires engagement with technology; digital technologies have become integral at every level and stage of artmaking?creation, production, documentation, and distribution. This project-based course will provide performing artists and technologists with the opportunity to engage meaningfully with media technologies through the collaborative creation of a substantial piece of the work. Performing artists of any discipline (including instrumental and vocal musicians, dancers, actors, composers, directors, designers) will team up with Performing Arts Technology students and work on semester-long projects at the intersection of technology and the arts. Projects are devised by each student team, and may include performances with digitally-augmented instruments, music videos, album recordings, interactive dance systems, performances of electronic music repertoire, artist websites, mobile apps, and more. Weekly meetings are workshop-style forums for peer feedback and consultation with faculty. Projects will be presented in a public showcase at the end of the semester.							
30631	P W LEC 007	MW	430-6PM	506 BMT	Burns		
Sample & Hold: Art of Elec Mus							
Sample and Hold: The Art of Electronic Music: Explore the sounds and textures of rock, new wave, hip-hop, R&B, techno, ambient, EDM, and experimental music, ranging across a variety of artists and producers including John Cage, J Dilla, Brian Eno, Jlin, and Pauline Oliveros. Study the tools and techniques of splices, samples, morphs, beats, and loops, and investigate the dialogue between artistic and technological innovations in electronic music.

Analysis ChamberMus. 1780-1980							
The primary focus of this class is to define analytical approaches to a small, but diverse body of frequently performed works, with analytical emphasis on chromatic harmony and flexing form. Conceptual framework for individual analyses is established in relation to ideas of common versus individual practice. Repertoire includes entire works such as Mozart's String Quartet K.387, Messiaen's Quartet for the End of Time, and Ligeti's Trio for Horn, Violin, and Piano. Individual movements are drawn from Schubert's Cello Quintet, Brahms' Piano Quartet Op.60, Stravinsky's Three Pieces for String Quartet, and others. In addition to close exploration of works under scrutiny in class, students will engage in a semester-long analytical inquiry into a work from their own repertoire. Prerequisite MT 250 or permission of the instructor.

CAT#	Course Title	CR	PREREQ	LAB FEE
Class #	CODE CMP SEC DAYS	TIME	LOCATION	INSTRUCTOR

This course builds on the age-old interest in understanding the connection between music and language. It does so from a heavily interdisciplinary perspective, exploring, for example, how music and language function in different cultural contexts, how they evolved, and how they allow us to think, express and be creative, and in the process, we will explore things as diverse as birdsongs and Beethoven symphonies, fractals and Neanderthal flutes, and grunge rhythms and the music of New Guinea. To help us ground our comparison of music and language, we will learn some linguistics too, within a framework known as generative linguistics, and we will see how this perspective suggests the intriguing possibility that music and language might actually be identical.

Postmodernism and Performance							
In order to obtain a simple and truthful, honest performance we approach the craft of acting exploring two parallel tracks. 1. Reexamining the individual's approach to acting, to ensure that the acting process allows availability and does not initiate habitual patterns of tension. 2. Having an available body that allows and does not block the acting process. In short, you need body that is available to the acting process and an acting process that does not block the availability of the body.

Theories of Drama: Tragedy meets with ENGLISH 346.002							
An introduction to the field of performance studies, its theoretical framings and traditions, exploring questions of performance in everyday life, in art-framed practices, and in textual work.							
Course Requirements: Writing assignments include 2-page response papers, one 5-6 page essay (30%) and one 9-10 page essay (40%). Student presentation (20% group grade). Other graded requirements include a site review, bibliography, and observation tasks (10%). Regular attendance and active participation are essential.							
Intended Audience: Sophomores-Seniors

Latina/o Theatre for Social Change meet together with RC 334.004							
Artistic practice in prisons has occurred since the inception of prisons themselves, though popular thought tends not to connect the idea of the arts with that of criminal justice systems. This course surveys the history of performance in prisons through the examination of plays written by and about prisoners as well as narratives, which chronicle the process of creating theatre in prisons. More importantly, the course also requires all enrolled students to enter an adult prison once a week throughout the semester to lead a theatre workshop with prisoners. Students will be placed in pairs to facilitate workshops, and each workshop will hold a performance at the end of the semester. Students and prisoners together create social change through their performances, both by bringing two disparate communities (i.e. undergrads and prisoners) into meaningful interaction and also by using theatre to explore significant social issues.							
18822	P W REC 004	TTH	9-1030AM	2239 WDC	Myers		
Costume Design for Non-Majors							
Explore the foundations of theatrical costume design. Through script analysis and visual inspiration, students will discover character, metaphor and period style. Projects will immerse students in the narrative of clothing, develop an understanding of how the design informs a production, and understand why we wear the clothes we wear. No drawing or sewing skills needed.

Image of the American Family Meets with RCHUMS 282.001							
In this four credit drama course students will explore major American plays of the 20th century through the process of text analysis through performance. We will work on plays by major writers such as Arthur Miller, Tennessee Williams, Lorraine Hansberry, Sam Shepard and Tony Kushner. For each play we will discuss dramaturgical background, script and character analysis and put scenes on their feet for constructive critique. Written assignments will center on a journal which will include a series of actor's explorations of motivations and actions. Students will also be responsible for writing critiques of two productions. The course culminates in a public performance of a cutting of a major play, most likely Tony Kushner's "Angels in America."

Creating Original Theatre								
This seminar explores the political and social ramifications of documentary theatre in the U.S. from the 1990s to the present. We will spend the first half of the semester studying interview techniques and reading examples of documentary theatre by playwrights such as Anna Deavere Smith, Heather Raffo, and Moises Kaufman and the Tectonic Theatre Project. In the second half of the semester, the students will investigate a local community of their choosing and create an interview-based performance as a final project. The class will perform this play for an invited audience at the end of the semester.

Contemp PubPol Formations

The class deals with the political, practical and substantive facets of policy making. We do this by analyzing the passage - and sometimes failure - of signature pieces of federal legislation that imposed massive change on the country. We study LBJ's civil rights act, GW Bush's no child left behind act and Clinton's welfare reform. We study the similarities and differences politically and substantively of how each was passed and then look at how that President and Congress and subsequent ones confronted continued enforcement of the law and policy changes. We don't confine our study to just these 3 men and their policy changes, but will often bring in other big political/policy moments/changes to underscore points.

Policy Implications Detroit

Taught by editorial page editor of The Detroit News Nolan Finley

A look at the unique deal that settled Detroit's municipal bankruptcy. Foundations, corporations, foundations and governments stepped out of their normal operating boundaries to craft an \$800 million agreement that allowed Detroit to move out of Chapter 9 without a fire sale of its assets or sacrificing its pensioners. The class will examine the part played by each of the principles, and how the experience in Detroit changed the way collaborations between government, foundations and the business community will work in the future. Class will feature guest appearances by and video-taped interviews with many of those involved in the Grand Bargain. It is taught by Nolan Finley, editorial page editor of The Detroit News, who covered bankruptcy.

Class will be held on the following dates: Oct 31, Nov 14, 21, 28, Dec 5 and 12

US Higher Ed System

Taught by outgoing White House Deputy Director James Kvaal

This course will delve into policy issues and controversies in the US Higher Education system. Topics will include: affordability issues and student debt, scholarships, and "free tuition"; efforts to encourage access and diversity in higher education including affirmative action in light of Supreme Court decisions; graduation rates; and technology, MOOCs, and the future of higher education.

The University of Michigan

In 2017-2018, the University of Michigan will celebrate its Bicentennial, two hundred years of leadership in American higher education. The study of Michigan's history its current challenges, opportunities, and responsibilities, and its future possibilities illustrates not only many of the key policy issues that have shaped American higher education but also suggests those that will challenge both the University and the nation in the years ahead. This course will consider the University as an exemplar both of the evolution of higher education and the forces that will shape it in the future. Included will be subjects such as the cost, price, and value of a college education (e.g., who benefits, who pays), the ability to serve an increasingly diverse population, and the critical role of university research in determining the prosperity, security, and public welfare of the nation. Current issues such as student activism, diversity, faculty tenure, the financing of higher education, college sports, and the political environment characterizing higher education will be considered. Of particular importance will be a consideration of the future of the university, considering issues such as changing demographics, globalization, and the rapid evolution of key technologies such as cyber infrastructure, artificial intelligence, and gene editing, again using the University of Michigan as a case study.

Michigan Politics & Policy

This course is designed to familiarize students with the Michigan political system and learn about current policy issues at play both statewide and in local communities. We'll have an overview of Michigan government and political institutions, an examination of the responsibilities of and relationships between state and local units of government in Michigan, and discussion about specific issues and challenges currently facing Michigan policymakers.

On top of that, this course includes an introduction to and hands-on use of survey research data provided by one the Ford School's core research centers: the Center for Local, State, and Urban Policy (CLOSUP). Twice each year, CLOSUP's Michigan Public Policy Survey (MPPS) program asks Michigan local government leaders about a wide variety of public policy issues. We'll use this data to supplement our discussions of the topics we cover each week, as well as include it in students' final papers. There is no prior knowledge of survey research, its methodology, or statistical software required.

Psychology of Climate Change

Climate change often feels like a problem that our brains have been hardwired to ignore. Climate change is abstract and complex, making it hard for non-scientists (including policy-makers) to understand. For most Americans, it is a problem that will harm people who are far away in time and geography. And the significant political polarization surrounding climate change has turned it into a form of identity politics. Yet like so many environmental problems?from habitat destruction to overconsumption of natural resources?climate change is the result of human behavior. If we want to solve or mitigate these problems, we must first understand what is driving these beliefs and behaviors.

Most policy to address environmental issues such as climate change has focused on legal or economic tools such as prohibiting certain forms of pollution or giving subsidies for renewable energy. In this discussion-based policy

seminar, we will examine an alternative framework for motivating environmentally-friendly behavior: psychological and social incentives. We will explore factors affecting climate change beliefs and related behaviors, including reactions to and support for policies. The focus will be primarily on the US, and we will discuss policy programs and private interventions that have incorporated social psychological research to promote climate change mitigation as well as potential new applications of this research. Although this class will mainly cover climate change and other environmental issues, the psychological tools we will discuss are used in other domains as well, so will be useful to students interested in a range of policy topics.

-------	--------------	----	---------	------------	-----------

Poverty & Inequality

This course examines the nature, extent and causes of poverty and inequality in the US relying on a multidisciplinary literature from sociology, political science, economics, and psychology. The large number of anti-poverty programs that have been tried in the last 30 years underscores the extent of disagreement about the causes of poverty, the situation of the poor, and the role of the government in encouraging income redistribution and social change. This course will explore the problem of poverty, theories of poverty and the implications that these theories have for public policies targeting poverty. We will study issues related to topics such as housing and neighborhoods, structural economic changes like wages and inequality, families and social norms, and mass incarceration to consider how these issues generate and reproduce poverty, lack of opportunity, and inequality.

-------	-------------	----	-----------	------------	-----------

Global Fin Mrkts, Crisis & Pol

Global financial markets provide both opportunities and risks for macroeconomic policymakers. In this course we will explore the role of financial markets in economic development, the causes and consequences of financial crises, whether and how policies and institutions can be used to stabilize markets and help countries recover from crises, and what lessons we can learn from recent experiences which might help prevent future crises. There will be heavy emphasis on understanding and using data to study country experiences -- with examples drawn from developing and industrial economies.

-------	-------------	----	-----------	------------	----------

Imagining the Global Environm

What is a "global" environmental problem, and how do we "know" when we have one? How have societies conceived of the environment in the past, and how might we re-imagine our relationship to the environment today to ensure a sustainable future? How have innovations in science and technology shaped our current approaches to managing planet Earth?

In this course, we'll draw on insights from political science, anthropology, history, and science and technology studies to explore how people's views on what the global environment is and how it should be managed have changed over time. In particular, we'll consider the various political and ethical dilemmas that often arise when those views differ. Climate change and biodiversity conservation will be key topics in the course. Students will learn how to write policy memos and develop oral presentations for a general audience.

Facilitating Dialogue

This is a short introductory course module in facilitating complex and difficult dialogic moments of engagement in the social, professional and institutional spheres of the public arena. Its purpose is to provide the possibility for actual engagement with tense social issues and phenomena bedeviling complex societies. It will briefly explore the historical and theoretical contexts, which give rise to sometimes painful and traumatic moments that filter in and color what may otherwise be perceived as simplistic conversations and interactions. It will introduce students?regardless of perceived color, gender, class, or ethnic identity categorization?to the necessity for transcending their subject locations. In order to facilitate, mediate, and engage in trans-formative moments of learning, dialogue, leadership and communal capacity building with due regard of difference and the respect of mutuality.

Health Care Reform

Taught by outgoing White House Deputy Director James Kvaal

This course will focus on the role of different actors perspectives in the policy process. The emphasis will be on understanding the different goals, tools, and constraints facing different actors in policymaking. The policy application will be health care reform: we will trace how it got on the policy agenda and its role in the 2008 campaign, the legislative process and subsequent regulations, the legal challenges, and efforts to implement the law including enrollment campaigns and healthcare.gov.

Apology, Reconcile, Reparation

PubPol 495 is open to students in the Public Policy BA program, by permission only.

How do nations founded through political conflict and extreme social traumas come to systemic terms with the evolution of discourses on human rights after 1948? What has been the role of transitional justice mechanisms such as truth commissions and public apologies in shaping reparative frameworks as part of the post conflict nation?s quest for greater social cohesion after the legal recognition of such historical conflicts? What are the psycho-social, socio-cultural, political and economic challenges faced by democratic nations who have previously experienced colonization and extended periods of administrative violence?

This comparative public policy seminar will explore the currency of transitional justice mechanisms, reparative processes and public apologies that have come about through long, complex and ongoing civic struggles for indigenous rights in South Africa, New Zealand, Australia, Canada and the USA. The questions of equality, justice

and rights so central to democratic nationhood are not so easily settled once a nation has been officially inaugurated. Such questions are a constant part of what is at stake in the political, social, economic, and moral context of public policy during the post conflict phases of democratic consolidation. This course will address how our ability as future leaders, policy analysts and policymakers may be improved by developing a deeper understanding of the complex nature and discourse on human rights and the politics of nationhood. It will be informed by an ongoing reflection of our proximity as leaders to violence and our responsibility as policy makers to the ongoing public engagement with the 'unfinished business' of history making.

20008 PDR SEM 002 MW 830-10AM 1210 WEILL Lin

Election Reform

PubPol 495 is open to students in the Public Policy BA program, by permission only.

Most American government textbooks and a wide array of democracy-promoting organizations would agree that the 'free and fair election' is the hallmark of a representative democracy. But what is a 'free and fair' election? Are elections fair when a minority of the eligible voting population routinely selects local and state representatives? Are elections free when running and campaigning requires an investment of time, money, or networks that the average citizen cannot command? In this seminar, we will examine the various forms that elections take throughout the world, and explore how different reforms favor specific groups or specific opinions. We'll consider reforms that affect who votes (mandatory voting, non-citizen voting, age, language, and literacy tests); who or what you vote for (lottery voting, list voting by party or identity group, issue voting); how many votes you get (ranked choice and cumulative voting); how you vote (voter registration, vote by mail/online, absentee voting); and what you can do besides voting (deliberative democracy). We'll also look at candidate selection and the rules that influence who runs and how they finance their campaigns. The races and issues on the November 2016 ballot will be explored throughout the class, and students will have the opportunity to participate in a wide variety of election-related activities.

20009 PDR SEM 003 TTH 230-4PM 1220 WEILL Raimi

Psych Approach to Decision Mak

PubPol 495 is open to students in the Public Policy BA program, by permission only.

Classic economics is based on the idea of rational actors - people making decisions that maximize their own utility based on their preferences. However, most psychological models of behavior don't assume that people are particularly rational. Some even claim that the vast majority of our decisions are not based on conscious preferences and deliberate choices, but are instead influenced by factors that are invisible to us. For example, why is that people who are desperately trying to save money end up splurging on unnecessary purchases? How is that people who don't think of themselves as racist? and even go out of their way to reject racist beliefs? can still act in biased ways against racial minorities? Why is it so often the case that the arguments we remember best are the ones that happen to fit with our existing beliefs?

Many psychological and behavioral economic models have been created to explain the myriad ways that people act irrationally. In this policy seminar, we will examine some of the ways in which people are 'predictably irrational' and the implications of this irrationality for policy. We will review research from behavioral economics and psychology to explore how factors such as heuristics, implicit attitudes, social norms, self-serving biases, and emotions can shape our decisions - often in ways we're not even aware of.

28129 PDR SEM 004 MW 1-230PM 1230 WEILL Leiser

Current Issues in Tax Policy

PubPol 495 is open to students in the Public Policy BA program, by permission only.

Oliver Wendell Holmes famously said that "Taxes are what we pay for civilized society," but who should pay and how much? In this course, we will develop the tools of policy analysis and economics to engage in several current debates in tax policy at the local, state, federal, and international levels. Examples include:

- Carbon taxes, soda/sugar taxes and other sin taxes--What are the pros and cons?
- "Economic development wars"--Should states and local governments use big tax breaks to lure businesses?
- "Amazon tax"--Should Amazon and other online retailers have to collect state and local sales taxes? States are losing hundreds of millions of dollars and brick and mortar stores argue that online retailers have an unfair advantage.
- The "Buffet Rule"--How much do the rich pay in taxes and how much should they pay?
- The "Double Irish Dutch Sandwich" and other strategies to use international tax havens--What is being done? What should be done?

Students will prepare short writing assignments and engage in mock debates on policy issues. The major project in the class will be the development of a white paper on a topic of choice.

**499 Capstone** 30711 P RW SEM 001 M 4-6PM ARR **4.00** Weiss

Senior Seminar in Applied Pol

This course offers senior public policy students an opportunity to conduct a policy analysis project in an area of their interest. Each student will identify a policy outcome of personal interest, and analyze strategies to advance that outcome. The student will complete a major project that makes informed recommendations to real world policy organizations and actors about how to make progress toward the desired policy outcome.

This course is designed for senior Public Policy majors. Others may enroll only with the permission of the instructor.

Topics to be covered:

Identifying a policy outcome and question of interest; Constructing a range of sensible policy options; Understanding what works under various circumstances; Identifying the key policy actors who can contribute toward better outcomes; Evaluating different kinds of evidence about the effectiveness of policy options; Assessing potential barriers to improving policy outcomes; Ethical issues that arise in policy analysis; Communicating recommendations to a policy audience.

This section helps students understand the political context of the policy process in both domestic and comparative contexts. Students will be introduced to the aspects of the process from problem definition and framing to implementation, and analyze how aspects of the political context, such as interest groups and social movements, political parties and cycles, media, and institutions influence different aspects of the policy process. Students will also develop strategies for responding to the political environment. Substantive examples used in the course will often draw from the law. In addition, this course will help students develop and improve both analytical and communications skills.

22364 PIRW REC 002 TTH 830-10AM 1230 WEILL Parthasarathy, Emam  
Comparative Politics

This is a core course restricted to Ford School students only

This section of 510 focuses on political strategy and policy processes in comparative perspective. Students will learn how national and regional contexts shape governing institutions, political cultures, stakeholders and strategies, and develop tools to inform and influence policymaking given these differences. Overall, the course trains students:

To analyze critically and in-depth the political dimensions of pressing policy issues; To engage in issue advocacy?from grassroots mobilization to lobbying?across national contexts; To develop a nuanced understanding of different?including opposing?interests in the policy process; To improve written and oral communication skills; To work in teams; And to understand the policymaking environments of countries in Europe, Asia, and Africa, in comparative perspective with the United States.

25166 PIRW REC 003 TTH 1-230PM 1230 WEILL Waltz, Cirhigiri  
International Politics

This is a core course restricted to Ford School students only

This section of 510 focuses on international policy issues and introduces students to the dynamics of global politics and international relations.

Students will learn about international institutions and political options open to various state and non-state actors. The course emphasizes:

- ? Concepts and perspectives commonly used in the study and practice of international relations and foreign policy
- ? Values and interests of a range of international actors
- ? Workings of global institutions that comprise the political environment of international policy-making
- ? The policy process and the importance of political considerations
- ? Analytical skills ? Technical writing skills.

The course also provides students an opportunity to learn about several substantive issues currently on the international agenda.

17512 P RW LEC 001 MW 830-10AM 1220 WEILL Deardorff

The aim of this course is to teach you a lot about the economics -- and a little about the institutions -- of international trade and trade policy. The course is companion to SPP/Econ 542, International Finance Policy, which deals with international macroeconomic topics such as the balance of trade and balance of payments, determination of exchange rates, and international macroeconomic policies. Each course will also include the bare essentials of

CAT#	Course Title					CR	PREREQ	LAB FEE
Class #	CODE CMP SEC	DAYS	TIME	LOCATION	INSTRUCTOR			

the other course so that if you take only one of them, you won't be lost in the world economy. The course is mainly about trade policy. You will learn what trade policies are, how they are used by the United States and other countries, and how their use is restricted by international agreements. More importantly you will learn how to use economic modeling to understand the effects of trade policies and to quantify these effects. Along the way you will also learn about the institutions of the world economy, especially those that have to do with trade. And you will learn a little bit about the economic theories of why nations trade, and why they gain from trade.

30712	P RW LEC 001	MW	830-10AM	1230 WEILL	Lantz, Down			
This is a core course restricted to Ford School students only								

This course seeks to make students sensitive to and articulate about the ways in which moral and political values come into play in the American policy process, particularly as they affect non-elected public officials who work in a world shaped by politics. Topics covered include the tensions between ethics and politics, an introduction to various moral theories that figure in contemporary policy debates, a consideration of the principal values that animate American politics, and issues and dilemmas in professional ethics. The course addresses issues that affect international as well as U.S. policy and politics.

There is no policy without victory. More precisely, well-planned and well-executed political campaigns win elections and make governing possible. Therefore, an understanding of government must first be grounded in an understanding of campaigns and elections. This course will introduce you to the art and science of political campaigning. Topics to be covered will include crafting a message, scheduling and time management, research, issues, polling, speeches, debates, working with the press, identifying, differentiating and targeting voters, coalitions and interest groups, budgeting and fundraising, field organization, crisis management, the political environment, and Get Out The Vote efforts.

This course examines the nature, extent and causes of poverty and inequality in the US relying on a multidisciplinary literature from sociology, political science, economics, and psychology. The large number of anti-poverty programs that have been tried in the last 30 years underscores the extent of disagreement about the causes of poverty, the situation of the poor, and the role of the government in encouraging income redistribution and social change. This course will explore the problem of poverty, theories of poverty and the implications that these theories have for public policies targeting poverty. We will study issues related to topics such as housing and neighborhoods, structural economic changes like wages and inequality, families and social norms, and mass incarceration to consider how these issues generate and reproduce poverty, lack of opportunity, and inequality.

Contemp PubPol Formations

The class deals with the political, practical and substantive facets of policy making. We do this by analyzing the

passage - and sometimes failure - of signature pieces of federal legislation that imposed massive change on the country. We study LBJ's civil rights act, GW Bush's no child left behind act and Clinton's welfare reform. We study the similarities and differences politically and substantively of how each was passed and then look at how that President and Congress and subsequent ones confronted continued enforcement of the law and policy changes. We don't confine our study to just these 3 men and their policy changes, but will often bring in other big political/policy moments/changes to underscore points.

27484 P RW LEC 103 M 6-8PM 1230 WEILL Finley

Policy Implications Detroit

Taught by editorial page editor of The Detroit News Nolan Finley

A look at the unique deal that settled Detroit's municipal bankruptcy. Foundations, corporations, foundations and governments stepped out of their normal operating boundaries to craft an \$800 million agreement that allowed Detroit to move out of Chapter 9 without a fire sale of its assets or sacrificing its pensioners. The class will examine the part played by each of the principles, and how the experience in Detroit changed the way collaborations between government, foundations and the business community will work in the future. Class will feature guest appearances by and video-taped interviews with many of those involved in the Grand Bargain. It is taught by Nolan Finley, editorial page editor of The Detroit News, who covered bankruptcy.

Class will be held on the following dates: Oct 31, Nov 14, 21, 28, Dec 5 and 12

US Higher Ed System

Taught by outgoing White House Deputy Director James Kvaal

This course will delve into policy issues and controversies in the US Higher Education system. Topics will include: affordability issues and student debt, scholarships, and "free tuition"; efforts to encourage access and diversity in higher education including affirmative action in light of Supreme Court decisions; graduation rates; and technology, MOOCs, and the future of higher education.

27327 P RW LEC 305 TTH 230-4PM 1230 WEILL Duderstadt, Yocky

The University of Michigan

In 2017-2018, the University of Michigan will celebrate its Bicentennial, two hundred years of leadership in American higher education. The study of Michigan's history its current challenges, opportunities, and responsibilities, and its future possibilities illustrates not only many of the key policy issues that have shaped American higher education but also suggests those that will challenge both the University and the nation in the years ahead. This course will consider the University as an exemplar both of the evolution of higher education and the forces that will shape it in the future. Included will be subjects such as the cost, price, and value of a college education (e.g., who benefits, who pays), the ability to serve an increasingly diverse population, and the critical role of university research in determining the prosperity, security, and public welfare of the nation. Current issues such as student activism, diversity, faculty tenure, the financing of higher education, college sports, and the political environment characterizing higher education will be considered. Of particular importance will be a consideration of the future of the university, considering issues such as changing demographics, globalization, and the rapid evolution of key technologies such as cyber infrastructure, artificial intelligence, and gene editing, again using the University of Michigan as a case study.

27998 P RW LEC 308 TTH 10-1130AM 1210 WEILL Raimi

Psychology of Climate Change

Climate change often feels like a problem that our brains have been hardwired to ignore. Climate change is abstract and complex, making it hard for non-scientists (including policy-makers) to understand. For most Americans, it is a problem that will harm people who are far away in time and geography. And the significant political polarization surrounding climate change has turned it into a form of identity politics. Yet like so many environmental problems?from habitat destruction to overconsumption of natural resources?climate change is the result of human behavior. If we want to solve or mitigate these problems, we must first understand what is driving these beliefs and behaviors.

Most policy to address environmental issues such as climate change has focused on legal or economic tools such as prohibiting certain forms of pollution or giving subsidies for renewable energy. In this discussion-based policy seminar, we will examine an alternative framework for motivating environmentally-friendly behavior: psychological and social incentives. We will explore factors affecting climate change beliefs and related behaviors, including reactions to and support for policies. The focus will be primarily on the US, and we will discuss policy programs and private interventions that have incorporated social psychological research to promote climate change mitigation as well as potential new applications of this research. Although this class will mainly cover climate change and other environmental issues, the psychological tools we will discuss are used in other domains as well, so will be useful to students interested in a range of policy topics.

33046 P W LEC 309 MW 10-1130AM 1220 WEILL Dominguez

Global Fin Mrkts, Crisis & Pol

Global financial markets provide both opportunities and risks for macroeconomic policymakers. In this course we will explore the role of financial markets in economic development, the causes and consequences of financial crises, whether and how policies and institutions can be used to stabilize markets and help countries recover from crises, and what lessons we can learn from recent experiences which might help prevent future crises. There will be heavy emphasis on understanding and using data to study country experiences -- with examples drawn from developing and industrial economies.

33416 P W LEC 310 MW 10-1130AM 1210 WEILL Monfreda

Imagining the Global Environm

What is a "global" environmental problem, and how do we "know" when we have one? How have societies conceived of

CAT#	Course Title					CR	PREREQ	LAB FEE
Class #	CODE CMP SEC	DAYS	TIME	LOCATION	INSTRUCTOR			

the environment in the past, and how might we re-imagine our relationship to the environment today to ensure a sustainable future? How have innovations in science and technology shaped our current approaches to managing planet Earth?

In this course, we'll draw on insights from political science, anthropology, history, and science and technology studies to explore how people's views on what the global environment is and how it should be managed have changed over time. In particular, we'll consider the various political and ethical dilemmas that often arise when those views differ. Climate change and biodiversity conservation will be key topics in the course. Students will learn how to write policy memos and develop oral presentations for a general audience.

**Facilitating Dialogue**

This is a short introductory course module in facilitating complex and difficult dialogic moments of engagement in the social, professional and institutional spheres of the public arena. Its purpose is to provide the possibility for actual engagement with tense social issues and phenomena bedeviling complex societies. It will briefly explore the historical and theoretical contexts, which give rise to sometimes painful and traumatic moments that filter in and color what may otherwise be perceived as simplistic conversations and interactions. It will introduce students?regardless of perceived color, gender, class, or ethnic identity categorization?to the necessity for transcending their subject locations. In order to facilitate, mediate, and engage in trans-formative moments of learning, dialogue, leadership and communal capacity building with due regard of difference and the respect of mutuality.
