This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). The class will use the experience of the so-called Islamic State in Iraq and Syria (ISIS) to develop a plan for countering the ways in which extremist groups use social media to instigate acts of violence. The class structure will be collaborative and multidisciplinary. Class time will focus on providing background information on, and discussion about, the problem. Students will spend additional time outside of class meeting in groups, thinking through the problem, and doing research in the service of the final class project, which they will present at the end of the semester to an expert review panel.

This is a prof pick class and is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Students may apply for the course by submitting the required application materials to the PSI registration site (<https://problemsolving.law.umich.edu/>) between February 23, 2018, and March 16, 2018.

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving

Initiative (PSI). This course will challenge students to develop creative approaches to reducing the risk of brain injury in youth and high school football. Students will work in multi-disciplinary teams, under the guidance of the instructors, to conceive and propose novel solutions that draw on insights from law, engineering, medicine, business, ethics, and other relevant fields. Each student team will address a specific sub-topic relative to the course theme. Sub-topics may include: What changes in the rules governing practices, participation, and play should be instituted? What kinds of protective and monitoring equipment should be used, and under what protocols? How should such equipment be financed and distributed?

Class time will focus on providing background information and discussion with topical experts. Students are expected to spend additional time outside of class contacting experts and researching scientific and lay materials. At the end of the term, students will present a proposal to an expert review panel.

This is a prof pick class and is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Students may apply for the course by submitting the required application materials to the PSI registration site (<https://problemsolving.law.umich.edu/>) between February 23, 2018, and March 16, 2018.

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). This problem solving course will challenge a multidisciplinary team of students to address a real-world problem in the rapidly-evolving connected and automated vehicle landscape. The Detroit Metro area and the University of Michigan are leading the world in research and deploying technological advances in vehicle connectivity and automation. The potential benefits of "driverless cars" are widely understood, but the path to getting from the current state of human driving to a world of interconnected and "self-driving" vehicles entails an overwhelming confluence of technological, societal, legal, regulatory, political, and business problems. This course will focus on one particular angle: the potential multiple problems created by the unavoidable future interactions between automated vehicles and other road users, such as non-automated, human-driven vehicles, pedestrians, and bicyclists. Classes will be run as discovery sessions with industry, governmental, and academic experts. Students working in multidisciplinary sub-teams will dive deeply into particular aspects of the problem with the course culminating in the creation of an integrated class deliverable in the form of a business or operational plan proposing concrete solutions to the problem.

This is a prof pick class and is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Students may apply for the course by submitting the required application materials to the PSI registration site (<https://problemsolving.law.umich.edu/>) between February 23, 2018, and March 16, 2018.

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). We are facing what might be described as a failure or crisis of public trust in sources of truth about matters of fact. Public actors lie and accuse each other of lying. Media outlets present competing narratives. People do not know whom to trust or believe. Misinformation and conspiracy theories spread through social media. Our aim in this course will be to identify concrete potential interventions, solutions, or avenues for future exploration that might help people identify and trust sources of truth and/or that might mitigate the spread of misinformation. We will draw in insights from a range of inter-connected fields, including (but not limited to): psychology, communications, journalism, social media, information, computer science, law, and history. At the end of the term, students will present a proposal to an expert panel.

This is a prof pick class and is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Students may apply for the course by submitting the required application materials to the PSI registration site (<https://problemsolving.law.umich.edu/>) between February 23, 2018, and March 16, 2018.

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). In India -- as in many parts of the world -- economic growth and development have been key focus areas for successive governments. However, development often generates costs that force us to address difficult tradeoffs stemming from certain policies and reforms, such as the possible advantages to enhancing economic well-being versus the potential threats to the environment and heritage preservation. For example, although India has obtained substantial economic growth in the last two decades, there has also been deterioration in several aspects of India's heritage, as only a small fraction of pre-colonial monuments in India receive federal protection and many of these (including many iconic Indian sites) face threats from demolition, desecration, decay, pollution, and other perils. In this problem solving course, we will focus on these kinds of issues in the Indian context and explore what the role of the law and other disciplines are, and could be, in mediating and balancing these concerns in concrete contexts.

We will first survey the salient features of India's Constitution and polity and gauge the state of its economy and its environment. This will involve examining laws and policies related to property, judicial process, contract,

CAT#	Course Title					CR	PREREQ	LAB FEE
Class #	CODE CMP SEC	DAYS	TIME	LOCATION	INSTRUCTOR			

tourism, historic preservation, and intellectual property amongst others. Along with this, we will examine theories and practices of historic preservation and consider the protection of, and pressures on, monuments and sites, as well as other aspects of India's heritage (e.g., traditional knowledge). Thereafter, we will focus on an imperiled landscape in western India where 500 medieval temples stand around the periphery of a reservoir. We will conceptualize solutions that might promote its holistic renewal and serve as guidelines for the preservation of other sites of historical significance.

Class time will focus on providing background information and discussion with topical experts, such as archaeologists, attorneys, top bureaucrats, environmentalists, journalists, urban planners, and other stakeholders. Students are expected to spend additional time outside class contacting experts and performing research. At the end of the term, students will present a proposal to an expert review panel.

This is a prof pick class and is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Students may apply for the course by submitting the required application materials to the PSI registration site (<https://problemsolving.law.umich.edu/>) between February 23, 2018, and March 16, 2018.

## Chemical Engineering Department

### Chemical Engineering (CHE)

--MANY COLLEGE OF ENGINEERING COURSES REQUIRE STUDENTS NOT ENROLLED IN BUSINESS ADMINISTRATION OR ENGINEERING (INCLUDING CCS MAJORS) TO PAY A \$115-207 COMPUTER USER FEE. THIS IS A SPECIAL FEE, TO BE PAID ONLY ONCE EACH TERM, AND IS IN ADDITION TO THE INFORMATION TECHNOLOGY ACCESS FEE PAID BY FULL TIME STUDENTS AS PART OF THEIR REGULAR FEE ASSESSMENT. YOU WILL BE INFORMED ON THE FIRST DAY OF CLASS WHETHER OR NOT YOUR CLASS IS SUBJECT TO THIS FEE.

<b>230</b>	<b>Mat&amp;Energy Balances</b>	<b>4.00</b>	<b>ENFORCED</b>

The goals of this course are to help students hone and enhance their problem solving, critical thinking, creative thinking, and troubleshooting skills and to ease the transition from college to the workplace. Topics include structured critical reasoning, Kepner-Tregoe analysis, Duncker Diagrams, vertical and lateral thinking and Futuring. The students will work in teams to apply the principles they learn in the course to work with a local business to find and solve problems in their operations. The graduate course (ChE 598) will also require of prospectus of a potential client for the next course offering. The course syllabus can be obtained by sending an email message to lauradb@umich.edu

Business Water Risk

Business Water Risk: Ripple Effects from Watersheds to the Capital Markets

This 7-week course presents an overview of how water has impacted risks to businesses and their supply chains, and how corporate financial managers and institutional investors are starting to incorporate risks in their accounting and asset allocations. Corporate water risk exposure is a function of three variables: 1) company/sector-specific characteristics (e.g. water intensity of production), 2) the water conditions in particular geographies (e.g. drought-prone or strictly regulated), and 3) the strength of corporate management (e.g. proactive vs. reactive) in mitigating risks. The challenge is how the information from the physical world is translated in the financial world, and vice versa. It is often perceived that the proper risk management strategy for water in a corporate context is technology-based (new supply, recycling, monitoring, etc.). The course will describe how capital commitments for technology and infrastructure are often a last resort, because they are expensive, long-term, and often their cost cannot be passed on to the consumer. Short-term, financial risk management is preferred, such as hedging and insurance strategies. This course will explore corporate water risk and financial response strategies, and discuss commercial tools available to sustainability, corporate and financial managers. This include corporate water footprinting, regional asset risk mapping (Aqueduct), corporate operational risk assessment (Water Risk

Structural Fire Engineering Structural Fire Engineering This course provides an overview of methods for the design and analysis of structures under fire hazards. Topics include: fire models for structural applications, conduction heat transfer analysis, response of materials at elevated temperatures, local and global structural responses, prescriptive and performance-based design approaches. The course will rely on finite element analysis; it must therefore be accompanied or preceded by CEE 510 (or equivalent).

Environmental Finance  
 Environmental Finance: Financial Innovations for Green Growth  
 Environmental Markets, Sustainable Investment, and Financial Technology.  
 This course will review innovations in processes, investment mandates and financial basics of the key pillars of Environmental Finance across all asset classes and investment vehicles. It will examine how established practices, procedures and tools from within the mainstream financial market are being adapted to integrate ESG criteria, in the pursuit of financial performance goals from both an investor and corporate perspective. The course will further explore how new entrepreneurial ventures are starting to disrupt the environmental finance environment.

## Electrical Engr & Computer Sci

### Electrical Engineering And Computer Science (EECS)

IT IS CRITICAL THAT STUDENTS ATTEND CLASSES FROM THE BEGINNING OF THE TERM. EVEN THOUGH STUDENTS MAY BE REGISTERED OFFICIALLY FOR A COURSE, THE ELECTRICAL ENGINEERING AND COMPUTER SCIENCE DEPARTMENT MAY GIVE AWAY A STUDENT'S PLACE IN A CLASS IF THEY DO NOT ATTEND THE FIRST WEEK OF LECTURES AND LABS/DISCUSSIONS (AS APPROPRIATE) FOR ANY EECS COURSES.

AT THE SAME TIME, THE EECS DEPARTMENT IS NOT OBLIGATED TO WITHDRAW STUDENTS OFFICIALLY FROM THE COURSE, EVEN THOUGH THE STUDENT HAS BEEN INFORMED THAT HIS/HER PLACE IN A COURSE HAS BEEN TAKEN AWAY. STUDENTS ARE RESPONSIBLE FOR THE ACCURACY OF THEIR SCHEDULES AND MUST BE SURE THAT ALL DROPS ARE PROCESSED THROUGH THE REGISTRATION SYSTEM DURING THE NORMAL DROP/ADD PERIOD.

Business Thought and Action --- This course introduces students to business. In this course we foster development of the key skill of learning via reflection on one's own experience. The course will rely heavily on examination

CAT#	Course Title					CR	PREREQ	LAB FEE
Class #	CODE CMP SEC	DAYS	TIME	LOCATION	INSTRUCTOR			

of individual organizations or industries from which generalizations can be made. Specific situations will be selected to convey the excitement of business situations, the role of business in society and the global scope of business. The primary purpose of this class is to educate students about the broad range of problems and opportunities that businesses face and the tools and skills that are necessary to face them. A secondary purpose is to show the students the richness of business activity by 'peeling back the onion' via case discussions of situations and companies they have experienced in their lives. Students will gain familiarity with different kinds of information resources: from trade magazines to mass market books to research journals.

26178 A LEC 006 M 1230-130PM 1109 FXB Shtein

Intro to Entrepreneurial Des

\* Students from ALL schools and colleges may take this course.

\* Syllabi and workload information and other ENTR courses can be found at [cfe.umich.edu/courses](http://cfe.umich.edu/courses)

\* Questions as to whether this course will count toward your degree or the Entrepreneurship minor should be directed to InnovateBlue or your home department.

\* YOU CANNOT DIRECTLY ENROLL IN THIS LECTURE. You must pick a lab first (ENTR 390.008 - 010).

====

Are you:

- \* Designing doorknobs for a Mars colony?
- \* Tired of browsing crappy university web pages?
- \* Inventing the best app ever for the Nest or the Apple Watch?
- \* Have ideas and want to prototype them before the next pitch to investors?
- \* Wondering why you aren't going to an online college instead?

Entrepreneurial Design is a cross-disciplinary course for current and aspiring designers, hackers, and makers. This gateway entrepreneurship course allows students to build foundational knowledge of entrepreneurial design with the opportunity to apply these skills in a hands-on lab (ENTR 390.008 - 010).

Learning Objectives: Students will train in patterns of thought that help them anticipate and drive innovations in technology, business, policy; train in advanced and powerful inventing / problem identification and solving methods; learn to identify and meet customer/user needs and wants (i.e.: building stuff you and others actually want to use and buy); obtain practical ?building? skills in a specific digital, physical, or combination platform (i.e.: showing how something works is more effective than just telling stories about it).

26230 P W LAB 008 F 1-4PM ARR Alexander-Adams, Shtein

Hardware/Coding, IoT

\* Students from ALL schools and colleges may take this course.

\* Syllabi and workload information and other ENTR courses can be found at [cfe.umich.edu/courses](http://cfe.umich.edu/courses)

\* Questions as to whether this course will count toward your degree or the Entrepreneurship minor should be directed to InnovateBlue or your home department.

\* STUDENTS ARE AUTO-ENROLLED IN LECTURE WHEN THEY ELECT THIS LAB.

====

In this lab, you'll design, prototype, and make Internet of Things (IoT) devices to learn the basics of micro controllers in a hands-on way. You'll also collaborate with others across disciplines to develop your own hardware- and IoT-based entrepreneurial ideas.

Learning Objectives: Students will: develop a basic understanding of coding and electronics; utilize sketching to express, develop, and communicate design ideas; create functional prototypes through engagement in the design process; employ an iterative design approach, integrating concepts from the lecture to develop their final projects; apply a variety of methods for documenting and communicating the progress of their designs.

26231 P W LAB 009 T 1-4PM ARR O'Grady, Shtein

3D Printing/Prototyping

\* Students from ALL schools and colleges may take this course.

\* Syllabi and workload information and other ENTR courses can be found at [cfe.umich.edu/courses](http://cfe.umich.edu/courses)

\* Questions as to whether this course will count toward your degree or the Entrepreneurship minor should be directed to InnovateBlue or your home department.

\* STUDENTS ARE AUTO-ENROLLED IN LECTURE WHEN THEY ELECT THIS LAB.

====

In this lab, you'll learn how to operate and design for 3D printing machines such as the PrintrBot Play and Form 2. You'll learn CAD using Autodesk Fusion 360 and how to integrate 3D scan data into your designs. You'll also learn how to use various Rapid Prototyping and Manufacturing (RP&M) applications such as slicers and inspection tools.

Learning Objectives: Students will develop the fundamental skills to operate and design for the additive manufacturing process (3d printing); learn how to operate various types of 3d printers to include the PrintrBot Play, and Form 2; learn AutoDesk Fusion 360, how to operate the Nextengine 3D Laser Scanner, and how to incorporate 3d scan data into one's design; utilize various Rapid Prototyping and Manufacturing (RP&M) applications to include slicers, and inspection tools.

Virtual Reality

\* Students from ALL schools and colleges may take this course.

\* Syllabi and workload information and other ENTR courses can be found at [cfe.umich.edu/courses](http://cfe.umich.edu/courses)

\* Questions as to whether this course will count toward your degree or the Entrepreneurship minor should be directed to InnovateBlue or your home department.

\* STUDENTS ARE AUTO-ENROLLED IN LECTURE WHEN THEY ELECT THIS LAB.

====

In this lab, you'll learn how to develop virtual reality content for the Oculus Rift and MIDEA using Unreal Engine and 3D Studio Max. You'll also be introduced to asset creation (3D modeling with 3D Studio Max) and scene assembly / functionality by bringing assets into the Unreal Engine & creating interactive experiences through Unreal's Blueprint system. At the end of the class you'll be capable of developing virtual reality experiences, simulations, and tools to address real-world problems.

Learning Objectives: Students will have an understanding of how to generate digital content for Virtual Reality platforms; be knowledgeable on versatile file formats, content pipelines, hardware platforms and industry standards; understand methods of iterative design and the creation of functional prototypes using this medium; employ what is learned in the lecture section of this course to determine what is possible, what is marketable, and what are the various distribution methods available within this platform; become familiar with documenting their design process and also pitching their ideas to others, receiving and providing quality feedback.

Digital Product Design

\* Students from ALL schools and colleges may take this course.

\* Syllabi and workload information and other ENTR courses can be found at [cfe.umich.edu/courses](http://cfe.umich.edu/courses)

\* Questions as to whether this course will count toward your degree or the Entrepreneurship minor should be directed to InnovateBlue or your home department.

====

In this course, you'll learn the total end-to-end process of discovering a digital product need, prototyping a digitized product and getting feedback to relentlessly improve it. In doing so, you'll be a part of creating the next generation of products that disrupts the economy and reinvents the ways we live - from how we learn and exercise, to how we socialize and get around.

Learning Objectives: Students will learn how to: use design thinking to discover problems worth solving, generate and prototype solutions, and test with real users; design own product(s) by creating wireframes, interactions, and visual designs; use typography, color, shape, space - and industry-standard tools like Sketch, Invision, etc - to build designs that are attractive, simple, and functional; solicit constructive feedback, critique design work, and substantiate criticism; discuss topics in the design world, including usability, user experience design, user interface design, and design research.

TechLab MCity

\* Students from ALL schools and colleges may take this course.

\* Syllabi and workload information and other ENTR courses can be found at [cfe.umich.edu/courses](http://cfe.umich.edu/courses)

\* Questions as to whether this course will count toward your degree or the Entrepreneurship minor should be directed to InnovateBlue or your home department.

====

In this course, you'll be responsible for completing an open-ended autonomous vehicle or mobility project (assigned by a company in the autonomous vehicle/mobility space), and as such gain experience in developing cutting edge technology for an early stage startup.

This course is only available to students enrolled in the TechLab at MCity Program. Only students who are selected

for the TechLab at Mcity Program will be granted permission to enroll. To apply go to <http://cfe.umich.edu/techlab-mcity/>

Learning Objectives: Students will know how to recognize ambiguity, become comfortable with it, and use project management techniques to plan for the unexpected; utilize project management tools, techniques, and skills; understand assigned company's technology and how it creates value for a customer segment; gain exposure to entrepreneurship and its role in solving big problems; align resources for effective project implementation; appreciate organizational dynamics, communication strategies and stakeholder motivations; Identify and utilize key performance metrics for project success; learn to assume responsibility for matters of great importance to assigned company; begin to make transition from student to professional engineer; engage in collaborative learning; immerse themselves in a startup that is developing cutting edge technology for the transportation industry; lead technical and strategic discussion on steps required to achieve technical milestones; discuss a Tech Lab company's work during class discussion and how it relates in the context of class.

\* Syllabi and workload information and other ENTR courses can be found at [cfe.umich.edu/courses](http://cfe.umich.edu/courses)

\* Questions as to whether this course will count toward your degree or the Entrepreneurship minor should be directed to InnovateBlue or your home department.

=====

In this course, you'll be exposed to disruptive, influential and respected entrepreneurs, venture capitalists and business leaders and learn about their personal experiences founding, financing and managing a startup venture.

This seminar series is designed to expose students to entrepreneurship through interaction with experienced entrepreneurs, business leaders, and venture capitalists as well as individuals involved in emerging business models, new venture creation, and technology commercialization. While covering a broad set of engineering disciplines, guest speakers will share their knowledge on the latest, most diverse practices on legal, financial, and other innovation issues. The lectures include leading entrepreneurs and executives, technology innovators, experts from the financial markets, and others who support the entrepreneurial infrastructure. Following these seminars, students will be able to meet the guest speakers along with other members of the entrepreneurial community.

<b>408</b>	<b>Patent Law</b>			<b>1.00</b>

\* Questions as to whether this course will count toward your degree or the Entrepreneurship minor should be directed to InnovateBlue or your home department.

=====

In this course, you'll gain an overview of intellectual property (IP) law with a focus on patent law. You'll learn the fundamentals and leave the class able to identify patentable ideas and possible infringement issues in order to create an IP strategy.

Inventors and entrepreneurs have four concerns related to patent law:

1. protecting inventions during product development
2. determining invention patentability
3. avoiding infringement
4. leveraging a patent as a business asset

This course addresses these concerns through the application of case law and business cases to an invention of a student's choice.

<b>410</b>	<b>Finding Your Venture</b>			<b>2.00</b>

=====

In this course, you'll learn how to dramatically simplify the business creation process by radical prioritization, identifying good opportunities and learning when to walk away from a bad one, and learning that it is possible, and actually very common, to be a moderately successful non-famous entrepreneur.

It's hard to start a company, but it doesn't have to be complicated. This course dramatically improves your odds of starting a viable business by providing a framework for identifying large, attractive opportunities. Every student will leave with a viable business opportunity to pursue and a set of valuable and repeatable skills that will be an

asset in any entrepreneurial setting.

====

Do people sometimes or often surprise, irritate, or enrage you? Looking back over the last year, can you think of a time you "lost control" or would like a "do over?" By building your self awareness and Emotional Intelligence, you

can gain insight, self control, and produce consistently positive results for yourself and others.

Theories of leadership will be discussed and unpacked, with the intent of more fully understanding sources of leadership power and the positive and negative aspects of various leadership styles. At the interplay of these themes is the concept of the dynamic, optimized function of a high-performing team - the creation and maintenance of which lies at the heart of most business success. Characteristics of such teams, including visionary leadership, communication, and passion will be reviewed in detail. Vital interpersonal skill sets such as questioning, providing feedback, and mentoring will be defined and developed in terms of best available research and practices. Moving beyond the initial phase of theory and interpersonal awareness, the course will also require students to apply their developed understanding to various case studies, scenarios, and projects. While not focusing explicitly on business practices and entrepreneurial activities, the entire course will be grounded in this field and will rely heavily on tying in the real world experiences of students and instructor to maximize the future applicability of what is learned.

In this course, you'll be guided through the Design Thinking process 3 times in order to develop an in-depth understanding of how to create empathy with users and create solutions that work and truly resonate. You'll also learn how to clearly communicate your ideas and give constructive feedback to each other.

Learning Objectives: The course's objectives for its students will be:

- A paradigm shift- to learn about other ways of thinking and principles that can pivot their approach to viewing and reacting to the world.
- Defining creativity- to create a working definition so that the students can achieve a clearly identified goal. ID your personal creative style via discovering what you are most enthusiastic about and what types of endeavors make you excited to create.
- Discuss methods and approaches that contribute to individual, team and organizational creativity- how you can bring down barriers to creative thinking and the importance of attitude and positive affirmations.
- Develop a skill set and program of continuing study and practice that develops creative mentors, practices and environments.
- Gain confidence in your creative talent.
- Learn the importance of consumer / audience qualitative research and understanding in the design process.
- Develop a working knowledge of the design thinking process.
- Practice problem framing and solution analysis to help with organizational design.
- Learn how to apply the design thinking process to build solutions and innovations.
- Expand creative ability and increase productivity and happiness by learning about obstacle removal in creative practice.

- Explore team building exercises and processes with the hope that there will be a resulting change in attitude--that our thoughts and actions are not in isolation. Partnership and community are critical to both creative living and design success.

Project Management

THIS COURSE HAS BEEN CHANGED TO ENTR 560.001 AND WILL MEET TUESDAYS FROM 5:30-8:30PM IN LSA 3245. GO TO ENTR 560.001 TO ENROLL.

\* Students from ALL schools and colleges may take this course.

\* Syllabi and workload information and other ENTR courses can be found at [cfe.umich.edu/courses](http://cfe.umich.edu/courses)

\* Questions as to whether this course will count toward your degree should be directed to your home department.

Successful project managers and consultants possess the skills necessary to manage their teams, clients, activities, schedules, risks, communications and resources to produce desired outcomes. This course introduces the tasks and challenges fundamental to project management, the vital function of managing complex projects; and consulting, the business of giving expert advice.

Learning Objectives: Upon completion of the course, students should be able to: understand the key elements of project management & consulting, which includes: Sell, Engage, Scope, Plan, Research, Innovate, Decide, Manage, Change Management, Close. Manage a project from beginning to end.

29042 P RW LEC 050 M 5-7PM 133 CHRYS Bailey

DE&I in Entrepreneurship

\* Students from ALL schools and colleges may take this course.

\* Syllabi and workload information and other ENTR courses can be found at [cfe.umich.edu/courses](http://cfe.umich.edu/courses)

\* Questions as to whether this course will count toward your degree should be directed to your home department.

====

In this course, you'll learn how to critically think through the process of creating a DEI plan through group work, role playing and activities.

Learning Objectives: In this course, students will: Read the College of Engineering's diversity, equity, and inclusion (DEI) plan, Perform pre-class assignments based on what student reads, Discuss students' thoughts and findings as a group and with speakers, Provide feedback to the College from students' perspective, and (most importantly), and Learn now to utilize the College's DEI principles in students' future jobs and throughout future careers.

MSE 400 is a team-based and project-based, guided-inquiry course. The first introduction to the material is NOT lecture, but rather annotated reading. Class time will consist of team-based active learning activities. There will be three team projects in this course. Homework will be graded for effort and honesty, not accuracy. Learning will be assessed using Readiness Assurance Activities were we average a closed book quiz with a team based, open book, open internet, group effort on the exact same quiz. You can find more about the costs and details of the course on the following website: http://java.engin.umich.edu/400f18

## Naval Arch & Marine Engr Dept

### Naval Architecture And Marine Engineering (NAVARCH)

--MANY COLLEGE OF ENGINEERING COURSES REQUIRE STUDENTS NOT ENROLLED IN BUSINESS ADMINISTRATION OR ENGINEERING (INCLUDING CCS MAJORS) TO PAY A \$115-207 COMPUTER USER FEE. THIS IS A SPECIAL FEE, TO BE PAID ONLY ONCE EACH TERM, AND IS IN ADDITION TO THE INFORMATION TECHNOLOGY ACCESS FEE PAID BY FULL TIME STUDENTS AS PART OF THEIR REGULAR FEE ASSESSMENT. YOU WILL BE INFORMED ON THE FIRST DAY OF CLASS WHETHER OR NOT YOUR CLASS IS SUBJECT TO THIS FEE.

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). The class will use the experience of the so-called Islamic State in Iraq and Syria (ISIS) to develop a plan for countering the ways in which extremist groups use social media to instigate acts of violence. The class structure will be collaborative and multidisciplinary. Class time will focus on providing background information on, and discussion about, the problem. Students will spend additional time outside of class meeting in groups, thinking through the problem, and doing research in the service of the final class project, which they will present at the end of the semester to an expert review panel.							
This is a prof pick class and is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.							
Students may apply for the course by submitting the required application materials to the PSI registration site ( <a href="https://problemsolving.law.umich.edu/">https://problemsolving.law.umich.edu/</a> ) between February 23, 2018, and March 16, 2018.

	P LAB 002	W	430-630PM	1070 LSSH			
This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). This course will challenge students to develop creative approaches to reducing the risk of brain injury in youth and high school football. Students will work in multi-disciplinary teams, under the guidance of the instructors, to conceive and propose novel solutions that draw on insights from law, engineering, medicine, business, ethics, and other relevant fields. Each student team will address a specific sub-topic relative to the course theme. Sub-topics may include: What changes in the rules governing practices, participation, and play should be instituted? What kinds of protective and monitoring equipment should be used, and under what protocols? How should such equipment be financed and distributed?							
Class time will focus on providing background information and discussion with topical experts. Students are expected to spend additional time outside of class contacting experts and researching scientific and lay materials. At the end of the term, students will present a proposal to an expert review panel.							
This is a prof pick class and is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.							
Students may apply for the course by submitting the required application materials to the PSI registration site ( <a href="https://problemsolving.law.umich.edu/">https://problemsolving.law.umich.edu/</a> ) between February 23, 2018, and March 16, 2018.

	P LAB 003	T	430-630PM	1060 LSSH			

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). This problem solving course will challenge a multidisciplinary team of students to address a real-world problem in the rapidly-evolving connected and automated vehicle landscape. The Detroit Metro area and the University of Michigan are leading the world in research and deploying technological advances in vehicle connectivity and automation. The potential benefits of "driverless cars" are widely understood, but the path to getting from the current state of human driving to a world of interconnected and "self-driving" vehicles entails an overwhelming confluence of technological, societal, legal, regulatory, political, and business problems. This course will focus on one particular angle: the potential multiple problems created by the unavoidable future interactions between automated vehicles and other road users, such as non-automated, human-driven vehicles, pedestrians, and bicyclists. Classes will be run as discovery sessions with industry, governmental, and academic experts. Students working in multidisciplinary sub-teams will dive deeply into particular aspects of the problem with the course culminating in the creation of an integrated class deliverable in the form of a business or operational plan proposing concrete solutions to the problem.

This is a prof pick class and is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Students may apply for the course by submitting the required application materials to the PSI registration site (<https://problemsolving.law.umich.edu/>) between February 23, 2018, and March 16, 2018.

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). We are facing what might be described as a failure or crisis of public trust in sources of truth about matters of fact. Public actors lie and accuse each other of lying. Media outlets present competing narratives. People do not know whom to trust or believe. Misinformation and conspiracy theories spread through social media. Our aim in this course will be to identify concrete potential interventions, solutions, or avenues for future exploration that might help people identify and trust sources of truth and/or that might mitigate the spread of misinformation. We will draw in insights from a range of inter-connected fields, including (but not limited to): psychology, communications, journalism, social media, information, computer science, law, and history. At the end of the term, students will present a proposal to an expert panel.

This is a prof pick class and is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Students may apply for the course by submitting the required application materials to the PSI registration site (<https://problemsolving.law.umich.edu/>) between February 23, 2018, and March 16, 2018.

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). In India -- as in many parts of the world -- economic growth and development have been key focus areas for successive governments. However, development often generates costs that force us to address difficult tradeoffs stemming from certain policies and reforms, such as the possible advantages to enhancing economic well-being versus the potential threats to the environment and heritage preservation. For example, although India has obtained substantial economic growth in the last two decades, there has also been deterioration in several aspects of India's heritage, as only a small fraction of pre-colonial monuments in India receive federal protection and many of these (including many iconic Indian sites) face threats from demolition, desecration, decay, pollution, and other perils. In this problem solving course, we will focus on these kinds of issues in the Indian context and explore what the role of the law and other disciplines are, and could be, in mediating and balancing these concerns in concrete contexts.

We will first survey the salient features of India's Constitution and polity and gauge the state of its economy and its environment. This will involve examining laws and policies related to property, judicial process, contract, tourism, historic preservation, and intellectual property amongst others. Along with this, we will examine theories and practices of historic preservation and consider the protection of, and pressures on, monuments and sites, as well as other aspects of India's heritage (e.g., traditional knowledge). Thereafter, we will focus on an imperiled landscape in western India where 500 medieval temples stand around the periphery of a reservoir. We will conceptualize solutions that might promote its holistic renewal and serve as guidelines for the preservation of other sites of historical significance.

Class time will focus on providing background information and discussion with topical experts, such as archaeologists, attorneys, top bureaucrats, environmentalists, journalists, urban planners, and other stakeholders. Students are expected to spend additional time outside class contacting experts and performing research. At the end of the term, students will present a proposal to an expert review panel.

This is a prof pick class and is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Students may apply for the course by submitting the required application materials to the PSI registration site (<https://problemsolving.law.umich.edu/>) between February 23, 2018, and March 16, 2018.

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). The class will use the experience of the so-called Islamic State in Iraq and Syria (ISIS) to develop a plan for countering the ways in which extremist groups use social media to instigate acts of violence. The class structure will be collaborative and multidisciplinary. Class time will focus on providing background information on, and discussion about, the problem. Students will spend additional time outside of class meeting in groups, thinking through the problem, and doing research in the service of the final class project, which they will present at the end of the semester to an expert review panel.							
This is a prof pick class and is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.							
Students may apply for the course by submitting the required application materials to the PSI registration site ( <a href="https://problemsolving.law.umich.edu/">https://problemsolving.law.umich.edu/</a> ) between February 23, 2018, and March 16, 2018.

CAT#	Course Title	CR	PREREQ	LAB FEE
Class #	CODE CMP SEC DAYS	TIME	LOCATION	INSTRUCTOR

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). This course will challenge students to develop creative approaches to reducing the risk of brain injury in youth and high school football. Students will work in multi-disciplinary teams, under the guidance of the instructors, to conceive and propose novel solutions that draw on insights from law, engineering, medicine, business, ethics, and other relevant fields. Each student team will address a specific sub-topic relative to the course theme. Sub-topics may include: What changes in the rules governing practices, participation, and play should be instituted? What kinds of protective and monitoring equipment should be used, and under what protocols? How should such equipment be financed and distributed?

Class time will focus on providing background information and discussion with topical experts. Students are expected to spend additional time outside of class contacting experts and researching scientific and lay materials. At the end of the term, students will present a proposal to an expert review panel.

This is a prof pick class and is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Students may apply for the course by submitting the required application materials to the PSI registration site (<https://problemsolving.law.umich.edu/>) between February 23, 2018, and March 16, 2018.

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). This problem solving course will challenge a multidisciplinary team of students to address a real-world problem in the rapidly-evolving connected and automated vehicle landscape. The Detroit Metro area and the University of Michigan are leading the world in research and deploying technological advances in vehicle connectivity and automation. The potential benefits of "driverless cars" are widely understood, but the path to getting from the current state of human driving to a world of interconnected and "self-driving" vehicles entails an overwhelming confluence of technological, societal, legal, regulatory, political, and business problems. This course will focus on one particular angle: the potential multiple problems created by the unavoidable future interactions between automated vehicles and other road users, such as non-automated, human-driven vehicles, pedestrians, and bicyclists. Classes will be run as discovery sessions with industry, governmental, and academic experts. Students working in multidisciplinary sub-teams will dive deeply into particular aspects of the problem with the course culminating in the creation of an integrated class deliverable in the form of a business or operational plan proposing concrete solutions to the problem.

This is a prof pick class and is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Students may apply for the course by submitting the required application materials to the PSI registration site (<https://problemsolving.law.umich.edu/>) between February 23, 2018, and March 16, 2018.

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). We are facing what might be described as a failure or crisis of public trust in sources of truth about matters of fact. Public actors lie and accuse each other of lying. Media outlets present competing narratives. People do not know whom to trust or believe. Misinformation and conspiracy theories spread through social media. Our aim in this course will be to identify concrete potential interventions, solutions, or avenues for future exploration that might help people identify and trust sources of truth and/or that might mitigate the spread of misinformation. We will draw in insights from a range of inter-connected fields, including (but not limited to): psychology, communications, journalism, social media, information, computer science, law, and history. At the end of the term, students will present a proposal to an expert panel.

This is a prof pick class and is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Students may apply for the course by submitting the required application materials to the PSI registration site (<https://problemsolving.law.umich.edu/>) between February 23, 2018, and March 16, 2018.

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). In India -- as in many parts of the world -- economic growth and development have been key focus areas for successive governments. However, development often generates costs that force us to address difficult tradeoffs stemming from certain policies and reforms, such as the possible advantages to enhancing economic well-being versus the potential threats to the environment and heritage preservation. For example, although India has obtained substantial economic growth in the last two decades, there has also been deterioration in several aspects of India's heritage, as only a small fraction of pre-colonial monuments in India receive federal protection and many of these (including many iconic Indian sites) face threats from demolition, desecration, decay, pollution, and other perils. In this problem solving course, we will focus on these kinds of issues in the Indian context and explore what the role of the law and other disciplines are, and could be, in mediating and balancing these concerns in concrete contexts.

We will first survey the salient features of India's Constitution and polity and gauge the state of its economy and its environment. This will involve examining laws and policies related to property, judicial process, contract, tourism, historic preservation, and intellectual property amongst others. Along with this, we will examine theories and practices of historic preservation and consider the protection of, and pressures on, monuments and sites, as well as other aspects of India's heritage (e.g., traditional knowledge). Thereafter, we will focus on an imperiled landscape in western India where 500 medieval temples stand around the periphery of a reservoir. We will conceptualize solutions that might promote its holistic renewal and serve as guidelines for the preservation of other sites of historical significance.

Class time will focus on providing background information and discussion with topical experts, such as archaeologists, attorneys, top bureaucrats, environmentalists, journalists, urban planners, and other stakeholders. Students are expected to spend additional time outside class contacting experts and performing research. At the end of the term, students will present a proposal to an expert review panel.

This is a prof pick class and is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Students may apply for the course by submitting the required application materials to the PSI registration site (<https://problemsolving.law.umich.edu/>) between February 23, 2018, and March 16, 2018.

Movement Science (MOVESCI)

NOTE - ENROLLMENT NOT GUARANTEED FOR STUDENTS OTHER THAN KINESIOLOGY MAJORS. ATTENDANCE AT FIRST CLASS IS MANDATORY TO RESERVE YOUR PLACE IN CLASS. ACTIVITY CLASSES FOR NON-MAJORS ARE LISTED IN THE UMOVE PROGRAM.

**110 Bio&Beh Bases Hu Mvt 3.00**  
 13648 P RW LEC 001 MWF 10-11AM 3735 CCRB Kern, Vesia, Hasson  
 This section is held for Kinesiology students. Non-Kinesiology students should wait list under section 011.

Because Kinesiology holds MVS 110 seats for Kinesiology summer orientation students, overrides for non-Kinesiology students are not issued until post-orientation. Students will receive an email when and if they are issued an override. If students do not receive an override before the first day of class, they are welcome to attend the first day of class and see if the instructor has seats available. As long as students stay on the waitlist, they do not need to call or email to check their status.

13649 P RW LEC 002 MWF 10-11AM 1100 OBL Hasson, Vesia, Kern  
 This section is held for Kinesiology students. Non-Kinesiology students should wait list under section 012.

Because Kinesiology holds MVS 110 seats for Kinesiology summer orientation students, overrides for non-Kinesiology students are not issued until post-orientation. Students will receive an email when and if they are issued an override. If students do not receive an override before the first day of class, they are welcome to attend the first day of class and see if the instructor has seats available. As long as students stay on the waitlist, they do not need to call or email to check their status.

13650 P RW LEC 003 MWF 10-11AM 2100 OBL Vesia, Hasson, Kern  
 This section is held for Kinesiology students. Non-Kinesiology students should wait list under section 013.

Because Kinesiology holds MVS 110 seats for Kinesiology summer orientation students, overrides for non-Kinesiology students are not issued until post-orientation. Students will receive an email when and if they are issued an override. If students do not receive an override before the first day of class, they are welcome to attend the first day of class and see if the instructor has seats available. As long as students stay on the waitlist, they do not need to call or email to check their status.

23718 P W LEC 011 MWF 10-11AM 3735 CCRB Kern, Vesia, Hasson  
 This section is intended as a waitlist for non-Kinesiology students who wish to enroll in section 001.

Because Kinesiology holds MVS 110 seats for Kinesiology summer orientation students, overrides for non-Kinesiology students are not issued until post-orientation. Students will receive an email when and if they are issued an override. If students do not receive an override before the first day of class, they are welcome to attend the first day of class and see if the instructor has seats available. As long as students stay on the waitlist, they do not need to call or email to check their status.

23719 P W LEC 012 MWF 10-11AM 1100 OBL Hasson, Vesia, Kern  
 This section is intended as a waitlist for non-Kinesiology students who wish to enroll in section 002.

Because Kinesiology holds MVS 110 seats for Kinesiology summer orientation students, overrides for non-Kinesiology students are not issued until post-orientation. Students will receive an email when and if they are issued an override. If students do not receive an override before the first day of class, they are welcome to attend the first day of class and see if the instructor has seats available. As long as students stay on the waitlist, they do not need to call or email to check their status.

23720 P W LEC 013 MWF 10-11AM 2100 OBL Vesia, Hasson, Kern  
 This section is intended as a waitlist for non-Kinesiology students who wish to enroll in section 003.

Because Kinesiology holds MVS 110 seats for Kinesiology summer orientation students, overrides for non-Kinesiology students are not issued until post-orientation. Students will receive an email when and if they are issued an override. If students do not receive an override before the first day of class, they are welcome to attend the first day of class and see if the instructor has seats available. As long as students stay on the waitlist, they do not need to call or email to check their status.

Physical Education (PHYSED)

NOTE - ENROLLMENT NOT GUARANTEED FOR STUDENTS OTHER THAN KINESIOLOGY MAJORS. ATTENDANCE AT FIRST CLASS IS MANDATORY TO RESERVE YOUR PLACE IN CLASS

NOTE - COURSES 140, 141, 142, 145, AND 349: CONTACT THE U-MOVE OFFICE (764-1342 OR U-MOVE@UMICH.EDU) FOR CLASS TIMES AND REGISTRATION INFORMATION.

**140 Beginning Swim** **1.00**  
 13669 PD W LAB 001 MW 7-8PM ARR Starling

Class will be held in the CCRB Margaret Bell Pool.  
 Students must register through the Kinesiology Community Programs (KCP) website (kines.umich.edu/community-programs) or in Rm 3064 CCRB and request an override. To drop/request override, contact kebwink@umich.edu. Little or no swim experience? This course is for you. You'll start with entering the pool and getting comfortable. You'll progress to front crawl, back crawl, elementary backstroke, breaststroke, sidestroke, and butterfly. And you'll learn jumping in, treading, and water safety. Goal: one length of the pool. Goggles recommended. Attendance in at least one of the first two classes is mandatory for evaluation or you may lose your spot in class to those on a waitlist. No enrollments are accepted after the class meets a third time.

22753 PD W LAB 002 MW 7-8PM ARR Starling

Class will be held in the CCRB Margaret Bell Pool.  
 Students must register through the Kinesiology Community Programs (KCP) website (kines.umich.edu/community-programs) or in Rm 3064 CCRB and request an override. To drop/request override, contact kebwink@umich.edu. Little or no swim experience? This course is for you. You'll start with entering the pool and getting comfortable. You'll progress to front crawl, back crawl, elementary backstroke, breaststroke, sidestroke, and butterfly. And you'll learn jumping in, treading, and water safety. Goal: one length of the pool. Goggles recommended. Attendance in at least one of the first two classes is mandatory for evaluation or you may lose your spot in class to those on a waitlist. No enrollments are accepted after the class meets a third time.

# Literature, Science & the Arts

IT IS CRITICAL THAT STUDENTS ATTEND CLASSES FROM THE BEGINNING OF THE TERM. EVEN THOUGH STUDENTS MAY BE REGISTERED OFFICIALLY FOR A COURSE, DEPARTMENTS MAY GIVE AWAY A STUDENT'S PLACE IN A CLASS IF THEY DO NOT ATTEND:

---THE FIRST MEETING OF BIOLOGY, CHEMISTRY, AND PHYSICS LABORATORIES;

---EITHER OF THE FIRST TWO MEETINGS OF ENGLISH COURSES;

---THE FIRST TWO MEETINGS OF HISTORY 396 AND 397;

---EITHER OF THE FIRST TWO MEETINGS OF ANY COURSE OFFERED BY THE DEPARTMENT OF ROMANCE LANGUAGES;

---THE FIRST TWO MEETINGS OF COURSES IN OTHER SUBJECTS.

AT THE SAME TIME, DEPARTMENTS ARE NOT OBLIGATED TO WITHDRAW STUDENTS OFFICIALLY FROM THE COURSE, EVEN THOUGH THE STUDENT HAS BEEN INFORMED THAT HIS/HER PLACE IN A COURSE HAS BEEN TAKEN AWAY. STUDENTS ARE RESPONSIBLE FOR THE ACCURACY OF THEIR SCHEDULES AND MUST BE SURE THAT ALL DROPS ARE PROCESSED THROUGH REGISTRATION SYSTEM DURING THE NORMAL DROP/ADD PERIOD.

## Chemistry Department

### Chemistry (CHEM)

--A GRADE OF C- OR BETTER MUST BE OBTAINED IN ALL CHEMISTRY COURSES PREREQUISITE TO SUBSEQUENT CHEMISTRY COURSES.  
 --ROOM A706 CHEM IS A WHEELCHAIR EQUIPPED LAB.  
 --A STUDENT WHO DOES NOT ATTEND THE FIRST MEETING OF A BIOLOGY, CHEMISTRY, OR PHYSICS LAB MAY BE DROPPED FROM THAT COURSE FOR NON-ATTENDANCE. ALL STUDENTS MUST TAKE ACTION THROUGH THE REGISTRATION PROCESS TO MAKE SURE THAT THEIR OFFICIAL COURSE SCHEDULES MATCH THE COURSES THEY ARE ATTENDING.

## English Language Institute

### English Language Institute (ELI)

ELI courses fall into three categories:

1. English for Academic Purposes courses for graduate students;
2. Language and teacher training courses for international GSIs;
3. Teacher training courses for students planning to teach ESL in local communities or abroad.

For assistance in choosing an appropriate course, please go to the ELI Academic Advising website:  
<http://bit.ly/eliadvising> or e-mail: [eliadvisor@umich.edu](mailto:eliadvisor@umich.edu) to make an appointment to speak with an advisor.

## Economics Department

### Economics (ECON)

#### 101 Principles Econ I

4.00 ADVISORY

Students will be auto-enrolled in LEC 100 when they elect DIS 101-111.

There will be three midterms for this course: Dates/times TBD.

All exams must be taken on the assigned dates and times. If you cannot take these exams as scheduled, please register for an open section in another lecture of Econ 101. No exceptions will be made to these exam dates and times.

No overrides will be issued for this class.

11111	A	LEC	100	MW	10-1130AM	140 LORCH	Caldwell Jr

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). The class will use the experience of the so-called Islamic State in Iraq and Syria (ISIS) to develop a plan for countering the ways in which extremist groups use social media to instigate acts of violence. The class structure will be collaborative and multidisciplinary. Class time will focus on providing background information on, and discussion about, the problem. Students will spend additional time outside of class meeting in groups, thinking through the problem, and doing research in the service of the final class project, which they will present at the end of the semester to an expert review panel.

This is a prof pick class and is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Students may apply for the course by submitting the required application materials to the PSI registration site (<https://problemsolving.law.umich.edu/>) between February 23, 2018, and March 16, 2018.

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). This course will challenge students to develop creative approaches to reducing the risk of brain injury in youth and high school football. Students will work in multi-disciplinary teams, under the guidance of the instructors, to conceive and propose novel solutions that draw on insights from law, engineering, medicine, business, ethics, and other relevant fields. Each student team will address a specific sub-topic relative to the course theme. Sub-topics may include: What changes in the rules governing practices, participation, and play should be instituted? What kinds of protective and monitoring equipment should be used, and under what protocols? How should such equipment be financed and distributed?

Class time will focus on providing background information and discussion with topical experts. Students are expected to spend additional time outside of class contacting experts and researching scientific and lay materials. At the end of the term, students will present a proposal to an expert review panel.

This is a prof pick class and is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Students may apply for the course by submitting the required application materials to the PSI registration site (<https://problemsolving.law.umich.edu/>) between February 23, 2018, and March 16, 2018.

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). This problem solving course will challenge a multidisciplinary team of students to address a

real-world problem in the rapidly-evolving connected and automated vehicle landscape. The Detroit Metro area and the University of Michigan are leading the world in research and deploying technological advances in vehicle connectivity and automation. The potential benefits of "driverless cars" are widely understood, but the path to getting from the current state of human driving to a world of interconnected and "self-driving" vehicles entails an overwhelming confluence of technological, societal, legal, regulatory, political, and business problems. This course will focus on one particular angle: the potential multiple problems created by the unavoidable future interactions between automated vehicles and other road users, such as non-automated, human-driven vehicles, pedestrians, and bicyclists. Classes will be run as discovery sessions with industry, governmental, and academic experts. Students working in multidisciplinary sub-teams will dive deeply into particular aspects of the problem with the course culminating in the creation of an integrated class deliverable in the form of a business or operational plan proposing concrete solutions to the problem.

This is a prof pick class and is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Students may apply for the course by submitting the required application materials to the PSI registration site (<https://problemsolving.law.umich.edu/>) between February 23, 2018, and March 16, 2018.

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). We are facing what might be described as a failure or crisis of public trust in sources of truth about matters of fact. Public actors lie and accuse each other of lying. Media outlets present competing narratives. People do not know whom to trust or believe. Misinformation and conspiracy theories spread through social media. Our aim in this course will be to identify concrete potential interventions, solutions, or avenues for future exploration that might help people identify and trust sources of truth and/or that might mitigate the spread of misinformation. We will draw in insights from a range of inter-connected fields, including (but not limited to): psychology, communications, journalism, social media, information, computer science, law, and history. At the end of the term, students will present a proposal to an expert panel.

This is a prof pick class and is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Students may apply for the course by submitting the required application materials to the PSI registration site (<https://problemsolving.law.umich.edu/>) between February 23, 2018, and March 16, 2018.

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). In India -- as in many parts of the world -- economic growth and development have been key focus areas for successive governments. However, development often generates costs that force us to address difficult tradeoffs stemming from certain policies and reforms, such as the possible advantages to enhancing economic well-being versus the potential threats to the environment and heritage preservation. For example, although India has obtained substantial economic growth in the last two decades, there has also been deterioration in several aspects of India's heritage, as only a small fraction of pre-colonial monuments in India receive federal protection and many of these (including many iconic Indian sites) face threats from demolition, desecration, decay, pollution, and other perils. In this problem solving course, we will focus on these kinds of issues in the Indian context and explore what the role of the law and other disciplines are, and could be, in mediating and balancing these concerns in concrete contexts.

We will first survey the salient features of India's Constitution and polity and gauge the state of its economy and its environment. This will involve examining laws and policies related to property, judicial process, contract, tourism, historic preservation, and intellectual property amongst others. Along with this, we will examine theories and practices of historic preservation and consider the protection of, and pressures on, monuments and sites, as well as other aspects of India's heritage (e.g., traditional knowledge). Thereafter, we will focus on an imperiled landscape in western India where 500 medieval temples stand around the periphery of a reservoir. We will conceptualize solutions that might promote its holistic renewal and serve as guidelines for the preservation of other sites of historical significance.

Class time will focus on providing background information and discussion with topical experts, such as archaeologists, attorneys, top bureaucrats, environmentalists, journalists, urban planners, and other stakeholders. Students are expected to spend additional time outside class contacting experts and performing research. At the end of the term, students will present a proposal to an expert review panel.

This is a prof pick class and is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Students may apply for the course by submitting the required application materials to the PSI registration site (<https://problemsolving.law.umich.edu/>) between February 23, 2018, and March 16, 2018.

## History Department

### History (HISTORY)

--IT IS CRITICAL THAT STUDENTS ATTEND CLASS FROM THE BEGINNING OF THE TERM. ALTHOUGH STUDENTS MAY BE OFFICIALLY REGISTERED FOR A COURSE, THE DEPARTMENT MAY DISENROLL ANY STUDENT NOT ATTENDING THE FIRST TWO COURSE MEETINGS.  
 --DISCUSSION SECTIONS DO NOT MEET UNTIL AFTER FIRST LECTURE.  
 --STUDENTS ARE ENCOURAGED TO USE THE WAITLIST FOR ANY CLOSED COURSE. STUDENTS SHOULD REGISTER ON THE WAITLIST ACCORDING TO PREFERRED SECTION AND ATTEND THE FIRST CLASS. UP TO THE FIRST DAY OF CLASS, OVERRIDES WILL BE GIVEN BY THE DEPARTMENT AS SPACE BECOMES AVAILABLE. STUDENTS ARE NOTIFIED AND GIVEN TWO DAYS TO USE THE OVERRIDE, AFTER WHICH THE SPOT MAY GO TO AN ALTERNATE STUDENT ON THE WAITLIST. ONCE CLASSES HAVE STARTED, STUDENTS (WAITLISTED OR NOT) MUST CONTACT THE INSTRUCTOR FOR AN OVERRIDE.

20452 A LEC 001 TTH 230-4PM AUD B AH Uehling

Please note that there is not a time conflict between discussion and lecture. The discussion sections for this class will meet approximately 8 times during the Fall 2018 term, instead of the Thursday lecture. On days when discussion is held, lecture will not be. Dates will be noted on the Fall 2018 syllabus. Questions regarding this class should be directed to is-advising@umich.edu.

20453 P W DIS 002 TH 4-530PM 355 WEISER

Please note that the discussion sections for this class will meet approximately 8 times during the Fall 2018 term, instead of the Thursday lecture. Dates will be noted on the Fall 2018 syllabus. Questions regarding this class should be directed to is-advising@umich.edu.

20454 P W DIS 003 TH 230-4PM 1096 EH

Please note that there is not a time conflict between discussion and lecture. The discussion sections for this class will meet approximately 8 times during the Fall 2018 term, instead of the Thursday lecture. On days when discussion is held, lecture will not be. Dates will be noted on the Fall 2018 syllabus. Questions regarding this class should be directed to is-advising@umich.edu.

20455 P W DIS 004 TH 830-10AM 355 WEISER

Please note that the discussion sections for this class will meet approximately 8 times during the Fall 2018 term, instead of the Thursday lecture. Dates will be noted on the Fall 2018 syllabus. Questions regarding this class should be directed to is-advising@umich.edu.

20456 P W DIS 005 F 230-4PM 355 WEISER

Please note that the discussion sections for this class will meet approximately 8 times during the Fall 2018 term, instead of the Thursday lecture. Dates will be noted on the Fall 2018 syllabus. Questions regarding this class should be directed to is-advising@umich.edu.

20457 P W DIS 006 TH 1-230PM 1567 CCL

Please note that the discussion sections for this class will meet approximately 8 times during the Fall 2018 term, instead of the Thursday lecture. Dates will be noted on the Fall 2018 syllabus. Questions regarding this class should be directed to is-advising@umich.edu.

20458 P W DIS 007 F 4-530PM 355 WEISER

Please note that the discussion sections for this class will meet approximately 8 times during the Fall 2018 term, instead of the Thursday lecture. Dates will be noted on the Fall 2018 syllabus. Questions regarding this class should be directed to is-advising@umich.edu.

20487 P W DIS 008 TH 230-4PM 2328 SEB

Please note that there is not a time conflict between discussion and lecture. The discussion sections for this class will meet approximately 8 times during the Fall 2018 term, instead of the Thursday lecture. On days when discussion is held, lecture will not be. Dates will be noted on the Fall 2018 syllabus. Questions regarding this class should be directed to is-advising@umich.edu.

21183 P RW DIS 009 TH 1130-1PM 355 WEISER

Please note that the discussion sections for this class will meet approximately 8 times during the Fall 2018 term, instead of the Thursday lecture. Dates will be noted on the Fall 2018 syllabus. Questions regarding this class should be directed to is-advising@umich.edu.

21184 P W DIS 010 F 1130-1PM 2024 TISCH

Please note that the discussion sections for this class will meet approximately 8 times during the Fall 2018 term, instead of the Thursday lecture. Dates will be noted on the Fall 2018 syllabus. Questions regarding this class should be directed to is-advising@umich.edu.

21185 P W DIS 011 F 10-1130AM 2271 AH

Please note that the discussion sections for this class will meet approximately 8 times during the Fall 2018 term, instead of the Thursday lecture. Dates will be noted on the Fall 2018 syllabus. Questions regarding this class should be directed to is-advising@umich.edu.

21523 P RW DIS 012 TH 10-1130AM 455 WEISER Uehling

This section is reserved for Honors students only. Also, note that the discussion sections for this class will meet approximately 8 times during the Fall 2018 term, instead of the Thursday lecture. Dates will be noted on the Fall 2018 syllabus. Questions regarding this class should be directed to is-advising@umich.edu.

## Physics Department

### Physics (PHYSICS)

--A STUDENT WHO DOES NOT ATTEND THE FIRST MEETING OF A BIOLOGY, CHEMISTRY, OR PHYSICS LAB MAY BE DROPPED FROM THAT COURSE FOR NON-ATTENDANCE. ALL STUDENTS MUST TAKE ACTION THROUGH THE REGISTRATION PROCESS TO MAKE SURE THAT THEIR OFFICIAL COURSE SCHEDULES MATCH THE COURSES THEY ARE ATTENDING.  
 --WAITLIST THROUGH WEB REGISTRATION AND THEN CHECK WITH THE PHYSICS STUDENT SERVICES OFFICE FOR PROCEDURES.  
 PHYSICS LABS 127, 128, 141, & 241 DON'T START UNTIL THE FIRST FULL WEEK OF CLASSES.

## Psychology Department

### Psychology (PSYCH)

---IT IS CRITICAL THAT STUDENTS ATTEND CLASSES FROM THE BEGINNING OF THE TERM. EVEN THOUGH STUDENTS ARE REGISTERED OFFICIALLY FOR A COURSE, THE DEPARTMENT MAY REQUEST THAT THEY BE DISENROLLED IF THEY DO NOT ATTEND INITIAL CLASSES.

<b>111</b>	<b>Intro to Psych</b>	<b>4.00</b>			
11872	A LEC 030	MW	1-230PM	1324 EH	Buvinger
Students are auto-enrolled in Lec 030 when they elect a Dis 031-042.					
17602	P RW DIS 031	W	5-6PM	142 LORCH	
All sections meet from the 1st day of class, even if they occur before the 1st lecture.					
17603	P RW DIS 032	W	6-7PM	269 WEISER	
All sections meet from the 1st day of class, even if they occur before the 1st lecture.					
17604	P RW DIS 033	TH	8-9AM	B830 EQ	
All sections meet from the 1st day of class, even if they occur before the 1st lecture.					
17605	P RW DIS 034	TH	9-10AM	3242 LSA	
All sections meet from the 1st day of class, even if they occur before the 1st lecture.					
17606	P RW DIS 035	F	2-3PM	3556 DANA	
All sections meet from the 1st day of class, even if they occur before the 1st lecture.					
17607	P RW DIS 036	TH	5-6PM	180 TAP	
All sections meet from the 1st day of class, even if they occur before the 1st lecture.					
17608	P RW DIS 037	TH	6-7PM	1372 EH	
All sections meet from the 1st day of class, even if they occur before the 1st lecture.					
17609	P RW DIS 038	F	9-10AM	1448 MH	
All sections meet from the 1st day of class, even if they occur before the 1st lecture.					
20428	P RW DIS 039	F	10-11AM	B1570 BUS	
All sections meet from the 1st day of class, even if they occur before the 1st lecture.					
20429	P RW DIS 040	F	11-12PM	1449 MH	
All sections meet from the 1st day of class, even if they occur before the 1st lecture.					
20828	P RW DIS 041	F	12-1PM	2310 SEB	
All sections meet from the 1st day of class, even if they occur before the 1st lecture.

## Italian (ITALIAN)

--A student who misses either of the first two meetings of any course offered by the Department of Romance Languages may be dropped from the course for non-attendance.

--Students with any previous study of Italian must take the Italian placement test before enrolling. Placement test dates are online at:

[www.isa.umich.edu/rll/undergraduate/languageplacement/languageplacementtests](http://www.isa.umich.edu/rll/undergraduate/languageplacement/languageplacementtests).

--All students must take action through the registration system to make sure that their official schedule of courses matches the courses they are attending.

## Sweetland Center for Writing

### Gayle Morris Sweetland Center for Writing (WRITING)

**100 Practice of Writing 3.00**

18548 P REC 001 MW 10-11AM 2062 PALM Karczynski

Writing 100 is designed to help students of all levels improve their writing, but is best suited to those who have yet to fulfill the First-Year Writing Requirement. Upper-level students should have a compelling academic reason for enrolling in Writing 100.

Normal waitlist procedures apply for students who attend the first two classes. Students who wish to join Writing 100 after the first two class sessions must email the instructor to set up a meeting to discuss enrolling. Based on this discussion, the student and instructor will then make a determination on whether or not it is appropriate for the student to enroll.

11192 P REC 002 MW 11-12PM 1423 EQ Ciccirelli

Writing 100 is designed to help students of all levels improve their writing, but is best suited to those who have yet to fulfill the First-Year Writing Requirement. Upper-level students should have a compelling academic reason for enrolling in Writing 100.

Normal waitlist procedures apply for students who attend the first two classes. Students who wish to join Writing 100 after the first two class sessions must email the instructor to set up a meeting to discuss enrolling. Based on this discussion, the student and instructor will then make a determination on whether or not it is appropriate for the student to enroll.

19958 P REC 003 TTH 2-3PM 3207 LSA McDaniel

Writing 100 is designed to help students of all levels improve their writing, but is best suited to those who have yet to fulfill the First-Year Writing Requirement. Upper-level students should have a compelling academic reason for enrolling in Writing 100.

Normal waitlist procedures apply for students who attend the first two classes. Students who wish to join Writing 100 after the first two class sessions must email the instructor to set up a meeting to discuss enrolling. Based on this discussion, the student and instructor will then make a determination on whether or not it is appropriate for the student to enroll.

11193 P REC 004 TTH 11-12PM 1155 NQ Silver

Writing 100 is designed to help students of all levels improve their writing, but is best suited to those who have yet to fulfill the First-Year Writing Requirement. Upper-level students should have a compelling academic reason for enrolling in Writing 100.

Normal waitlist procedures apply for students who attend the first two classes. Students who wish to join Writing 100 after the first two class sessions must email the instructor to set up a meeting to discuss enrolling. Based on this discussion, the student and instructor will then make a determination on whether or not it is appropriate for the student to enroll.

25921 P REC 005 MW 9-10AM 2275 NQ Sessolo

Writing 100 is designed to help students of all levels improve their writing, but is best suited to those who have yet to fulfill the First-Year Writing Requirement. Upper-level students should have a compelling academic reason for enrolling in Writing 100.

Normal waitlist procedures apply for students who attend the first two classes. Students who wish to join Writing 100 after the first two class sessions must email the instructor to set up a meeting to discuss enrolling. Based on this discussion, the student and instructor will then make a determination on whether or not it is appropriate for the student to enroll.

25922 P REC 006 MW 2-3PM 1155 NQ

Writing 100 is designed to help students of all levels improve their writing, but is best suited to those who have yet to fulfill the First-Year Writing Requirement. Upper-level students should have a compelling academic reason for enrolling in Writing 100.

Normal waitlist procedures apply for students who attend the first two classes. ## Sociology Department

### Sociology (SOC)

--IT IS CRITICAL THAT STUDENTS ATTEND CLASSES FROM THE BEGINNING OF THE TERM. EVEN THOUGH STUDENTS MAY BE REGISTERED OFFICIALLY FOR A COURSE, THE DEPARTMENT MAY GIVE AWAY PLACES IN A COURSE IF STUDENTS DO NOT ATTEND THE FIRST TWO COURSE MEETINGS.

--TO ASSIST THE STUDENT IN SELECTING COURSES, PAST COURSE SYLLABI ARE AVAILABLE AT: [www.lsa.umich.edu/soc/syllabi](http://www.lsa.umich.edu/soc/syllabi).

**100 Intro to Sociology** **4.00 ADVISORY, ENFORCED**

STUDENTS ARE AUTO-ENROLLED IN LEC 001 WHEN THEY ELECT A DIS (002-011).

## Statistics Department

### Statistics (STATS)

--IT IS CRITICAL THAT STUDENTS ATTEND CLASSES FROM THE BEGINNING OF THE TERM. EVEN THOUGH STUDENTS MAY BE REGISTERED OFFICIALLY FOR A COURSE, THE DEPARTMENT MAY GIVE AWAY PLACES IN A COURSE IF STUDENTS DO NOT ATTEND THE FIRST TWO COURSE MEETINGS.

Labs taught in 2244 USB are Bring Your Own Laptop labs.

This lab is a CSP lab. CSP sections are scheduled for more hours per week than a routine section of the same course. Some of that time is devoted to workshop activities, e.g., problem solving, practice tests, review of assignments and instruction in learning skills. There is also provision for more individual instruction in the form of additional office hours, instructor conferences, appointments with a Course Assistant, etc.

17947 P W LAB 053 T 1130-1PM B254 EH

#### Cog Neuro of Consciousness

The study of consciousness is considered a fundamental scientific and philosophical pursuit. How does information processing in the brain generate experience? How do we objectively capture what is, by definition, a subjective event? As philosopher Colin McGinn puts it, how do we get from the water of the brain to the wine of consciousness? I have recently started a Center for Consciousness Science at the UM Medical School to help address these very questions.

As an educational activity and the Center (and as a NGP faculty), I am conducting a combined reading/lecture course (NS-704) this upcoming semester on "The Cognitive Neuroscience of Consciousness." The study of consciousness is sometimes decomposed into "levels of consciousness" (awake vs. asleep vs. anesthetized vs. comatose) and "states of consciousness" (assuming I am already conscious, why do I see a blue triangle rather than a red square?). We will explore both of these dimensions and likely have some visiting lecturers/discussants to help us along the way.

The subject of consciousness motivated many of us to choose the field of neuroscience. I hope you will join me next month as we explore a fascinating question that has scientific, philosophical, clinical, and even existential implications. Even if you don't want to formally sign up for the course, you are welcomed to attend and participate.

What: NS704, The Cognitive Neuroscience of Consciousness

Who: Neuroscience and psychology students (and other interested people)

When: Fall semester, Wednesdays at Noon (pizza will be served!)

Where: Medical School, Med-Sci I, 7th floor conference room (#7433D)

Modern Dance with Latino Influ							
Bienvenidos! (Welcome)! End your Mondays and Wednesdays on a high note, at 4:10pm, dancing to the sounds of Latin American music such as Mambo, Merengue, Bolero, and Salsa; mixed with contemporary dance styles. Learn about the origins of these rich musical styles, broaden your knowledge and find new ways to identify with Central and South American music, poetry, literature and the visual arts.

## Euphonium-Baritone (EUPHBARI)

## Flute (FLUTE)

## Fortepiano (FPIANO)

## Guitar (GUITAR)

<b>111</b>	<b>Performance</b> 29024 P W REC 001	TTH	230-330PM	2038 MOORE	<b>2.00</b> Hopkins	<b>ADVISORY</b>	
------------	-----------------------------------------	-----	-----------	------------	------------------------	-----------------	--

Guitar 111 is for beginners - those who have never played guitar or who have very little experience. If you do not own a guitar one will be provided for you to use during the semester. This is not a class for intermediate or advanced guitarists with years of playing experience.

The purpose of GUITAR 111 is to help students develop their guitar skills, with a primary focus on using the guitar as an accompaniment instrument. Right Hand skills covered will include finger picking, flat picking, and a variety of strumming patterns. Left Hand skills will include open chords, barre chords, melody chords, and basic scale patterns. Introduction to reading of standard music notation, guitar tablature, and chord symbols will be covered. Other topics that will be presented include improvisation, playing by ear, and using the capo for transposition.

Rhythmic Training							
Jazz majors only. Sophomore and above. This course seeks to improve the musician's rhythmic acuity through training in three main areas: Time (ability to keep a steady beat and flow), Phrasing (how things are placed in time), and Feel (rhythmic nuance, swing, groove, pocket). Most coursework will be completed with exercises in singing and clapping, using standard Jazz repertoire.

Immersive Media							
This course offers a practice-based investigation of modern immersive media technologies, including virtual reality platforms, spatial audio systems, and game engines. Lecture sections cover methods and tools employed in the design of multimodal virtual and augmented realities. During the lab sections, students work in groups to implement interactive systems using modern immersive media platforms, such as Unity 3D, Oculus Rift, HTC Vive, and Apple ARKit. Assigned projects involve the prototyping and realization of immersive media artworks and performances. Combining critical and historical discourse with hands-on experience, the course helps students develop comprehensive skills in the use of immersive media as performing arts technologies.

The course is about the classical music traditions of North India, also known as Hindustani music. The first half of the course focuses on acquiring mastery over the basic musical materials of this idiom through singing, improvisation, and transcription exercises. The second half of the course builds on these skills to theorize about and analyze aspects of North Indian classical pitch (i.e. raga) and rhythmic (i.e. tala) structure, form, performance practice, and their connection to other musical idioms, including the classical music of South India, and the classical and popular musical traditions of the West.

Writing on Musical Form								
This course will focus on the analysis of form and how we write about it. We will seek to move beyond taxonomic description and toward a consideration of how we can capture in prose what we hear in terms of the work's dynamic.								

CAT#	Course Title					CR	PREREQ	LAB FEE
Class #	CODE CMP SEC	DAYS	TIME	LOCATION	INSTRUCTOR			

We will be guided by texts including Erwin Stein's "Form and Performance." Repertoire under examination will likely center on Bach's inventions and Beethoven's piano sonatas.

Latina/o Theatre for Social Ch meet together with RC 334.004							
Artistic practice in prisons has occurred since the inception of prisons themselves, though popular thought tends not to connect the idea of the arts with that of criminal justice systems. This course surveys the history of performance in prisons through the examination of plays written by and about prisoners as well as narratives, which chronicle the process of creating theatre in prisons. More importantly, the course also requires all enrolled students to enter an adult prison once a week throughout the semester to lead a theatre workshop with prisoners. Students will be placed in pairs to facilitate workshops, and each workshop will hold a performance at the end of the semester. Students and prisoners together create social change through their performances, both by bringing two disparate communities (i.e. undergrads and prisoners) into meaningful interaction and also by using theatre to explore significant social issues.

Image of the American Family Meets with RCHUMS 282.001							
In this four credit drama course students will explore major American plays of the 20th century through the process of text analysis through performance. We will work on plays by major writers such as Arthur Miller, Tennessee Williams, Lorraine Hansberry, Sam Shepard and Tony Kushner. For each play we will discuss dramaturgical background, script and character analysis and put scenes on their feet for constructive critique. Written assignments will center on a journal which will include a series of actor's explorations of motivations and actions. Students will also be responsible for writing critiques of two productions. The course culminates in a public performance of a cutting of a major play, most likely Tony Kushner's "Angels in America."

This course is open to students entering their final year in the BSPS program. Students will be required to attend fall term seminars offered by the Department of Clinical Pharmacy, Medicinal Chemistry, or Pharmaceutical Sciences (other program related seminars with permission). Please see Department websites for seminar schedules. This class will meet on Tuesday September 4, 2018 from 4 p.m. - 5 p.m. in room B022, College of Pharmacy. Additional information regarding the number of seminars students will be required to attend and the dates for the mandatory Tuesday class meetings will be provided at the first class meeting.

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). The class will use the experience of the so-called Islamic State in Iraq and Syria (ISIS) to develop a plan for countering the ways in which extremist groups use social media to instigate acts of violence. The class structure will be collaborative and multidisciplinary. Class time will focus on providing background information on, and discussion about, the problem. Students will spend additional time outside of class meeting in groups, thinking through the problem, and doing research in the service of the final class project, which they will present at the end of the semester to an expert review panel.

This is a prof pick class and is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Students may apply for the course by submitting the required application materials to the PSI registration site (<https://problemsolving.law.umich.edu/>) between February 23, 2018, and March 16, 2018.

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). This course will challenge students to develop creative approaches to reducing the risk of brain injury in youth and high school football. Students will work in multi-disciplinary teams, under the guidance of the instructors, to conceive and propose novel solutions that draw on insights from law, engineering, medicine, business, ethics, and other relevant fields. Each student team will address a specific sub-topic relative to the course theme. Sub-topics may include: What changes in the rules governing practices, participation, and play should be instituted? What kinds of protective and monitoring equipment should be used, and under what protocols? How should such equipment be financed and distributed?

Class time will focus on providing background information and discussion with topical experts. Students are expected to spend additional time outside of class contacting experts and researching scientific and lay materials. At the end of the term, students will present a proposal to an expert review panel.

This is a prof pick class and is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Students may apply for the course by submitting the required application materials to the PSI registration site (<https://problemsolving.law.umich.edu/>) between February 23, 2018, and March 16, 2018.

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). This problem solving course will challenge a multidisciplinary team of students to address a real-world problem in the rapidly-evolving connected and automated vehicle landscape. The Detroit Metro area and the University of Michigan are leading the world in research and deploying technological advances in vehicle connectivity and automation. The potential benefits of "driverless cars" are widely understood, but the path to getting from the current state of human driving to a world of interconnected and "self-driving" vehicles entails an overwhelming confluence of technological, societal, legal, regulatory, political, and business problems. This course will focus on one particular angle: the potential multiple problems created by the unavoidable future interactions between automated vehicles and other road users, such as non-automated, human-driven vehicles, pedestrians, and bicyclists. Classes will be run as discovery sessions with industry, governmental, and academic experts. Students working in multidisciplinary sub-teams will dive deeply into particular aspects of the problem with the course culminating in the creation of an integrated class deliverable in the form of a business or operational plan proposing concrete solutions to the problem.

This is a prof pick class and is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Students may apply for the course by submitting the required application materials to the PSI registration site (<https://problemsolving.law.umich.edu/>) between February 23, 2018, and March 16, 2018.

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). We are facing what might be described as a failure or crisis of public trust in sources of truth about matters of fact. Public actors lie and accuse each other of lying. Media outlets present competing narratives. People do not know whom to trust or believe. Misinformation and conspiracy theories spread through social media. Our aim in this course will be to identify concrete potential interventions, solutions, or avenues for future exploration that might help people identify and trust sources of truth and/or that might mitigate the spread of misinformation. We will draw in insights from a range of inter-connected fields, including (but not limited to): psychology, communications, journalism, social media, information, computer science, law, and history. At the end of the term, students will present a proposal to an expert panel.

This is a prof pick class and is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Students may apply for the course by submitting the required application materials to the PSI registration site (<https://problemsolving.law.umich.edu/>) between February 23, 2018, and March 16, 2018.

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). In India -- as in many parts of the world -- economic growth and development have been key focus areas for successive governments. However, development often generates costs that force us to address difficult tradeoffs stemming from certain policies and reforms, such as the possible advantages to enhancing economic well-being versus the potential threats to the environment and heritage preservation. For example, although India has obtained substantial economic growth in the last two decades, there has also been deterioration in several aspects of India's heritage, as only a small fraction of pre-colonial monuments in India receive federal protection and many of these (including many iconic Indian sites) face threats from demolition, desecration, decay, pollution,

CAT#	Course Title					CR	PREREQ	LAB FEE
Class #	CODE CMP SEC	DAYS	TIME	LOCATION	INSTRUCTOR			

and other perils. In this problem solving course, we will focus on these kinds of issues in the Indian context and explore what the role of the law and other disciplines are, and could be, in mediating and balancing these concerns in concrete contexts.

We will first survey the salient features of India's Constitution and polity and gauge the state of its economy and its environment. This will involve examining laws and policies related to property, judicial process, contract, tourism, historic preservation, and intellectual property amongst others. Along with this, we will examine theories and practices of historic preservation and consider the protection of, and pressures on, monuments and sites, as well as other aspects of India's heritage (e.g., traditional knowledge). Thereafter, we will focus on an imperiled landscape in western India where 500 medieval temples stand around the periphery of a reservoir. We will conceptualize solutions that might promote its holistic renewal and serve as guidelines for the preservation of other sites of historical significance.

Class time will focus on providing background information and discussion with topical experts, such as archaeologists, attorneys, top bureaucrats, environmentalists, journalists, urban planners, and other stakeholders. Students are expected to spend additional time outside class contacting experts and performing research. At the end of the term, students will present a proposal to an expert review panel.

This is a prof pick class and is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Students may apply for the course by submitting the required application materials to the PSI registration site (<https://problemsolving.law.umich.edu/>) between February 23, 2018, and March 16, 2018.

Facilitating Dialogue  
 This is a short introductory course module in facilitating complex and difficult dialogic moments of engagement in the social, professional and institutional spheres of the public arena. Its purpose is to provide the possibility for actual engagement with tense social issues and phenomena bedeviling complex societies. It will briefly explore the historical and theoretical contexts, which give rise to sometimes painful and traumatic moments that filter in and color what may otherwise be perceived as simplistic conversations and interactions. It will introduce students?regardless of perceived color, gender, class, or ethnic identity categorization?to the necessity for transcending their subject locations. In order to facilitate, mediate, and engage in trans-formative moments of learning, dialogue, leadership and communal capacity building with due regard of difference and the respect of mutuality.

Evaluating Public Policies  
 This course is restricted for Ford School Seniors enrolled in the BA Program and that have completed STATS 250 (see note below).

This 3-credit course will provide an introduction to the fundamentals of evaluation research design and methods as applied to public policies and programs. The course will cover the role of evaluation in the public policy process, and both process and summative evaluation research, including research designs for establishing causal inference between exposure to public policies/programs and outcomes. Students will gain skills in understanding and crafting research designs common in public policy evaluation, including randomized controlled trials, quasi-experimental designs and time series designs. Students will also gain skills in understanding/critiquing published public policy evaluation literature, measurement/data collection methods, and basic statistical methods for analyzing evaluation data. Class format will include lecture, discussion of case studies, and small group applied exercises.

This course will help build your research/analysis skills

Note: Stats 250 is a prerequisite so students should complete the course prior to their senior year. In exceptional circumstances, students may take Stats 250 concurrent with PubPol 479, if necessary.

This section of 510 aims to help you better understand policy analysis and the political environment within a

CAT#	Course Title					CR	PREREQ	LAB FEE
Class #	CODE CMP SEC	DAYS	TIME	LOCATION	INSTRUCTOR			

context of American domestic politics at the national level.

Policy analysis is a discipline that brings systematic thinking and social scientific evidence to bear on substantive problems. The premise of this course is that policymakers seldom value that analysis as much as we do. Many are skeptical about what social science can contribute to solving public problems, often rightly so. Others see policy analysis as material to be deployed selectively and strategically in political battles fought on other terms. In today's highly partisan, often hyperbolic politics, bringing reason and evidence to bear on public problems is more challenging than ever.

By the end of the course, you will understand the political environment in which policy specialists operate: the participants who shape policy within particular domains; the ways in which they perceive problems and solutions; the information, interests, and ideologies likely to govern their actions; the strategies they use; and the institutional arrangements and processes that shape their behavior and constrain their decisions. A final but important purpose of the course is to help you work on your writing and, to a lesser extent, your oral communication skills.

This section of 510 follows the policymaking process after legislators claim credit and the TV cameras shut down: the work of trying to implement and interpret the law. In the United States, this process is guided by the executive branch, through rulemaking, and the judicial branch, through oversight. But as we will see, neither of these two branches of government operate in isolation from each other, from Congress, or most importantly, from the democratic process. This extent to which bureaucracy and the courts are insulated or open to public influence, and the channels through which that influence occurs, explain a large part of what happens on the ground in the United States. It also serves as a key point of contrast in understanding how policymaking in other countries compares to the United States.

There is no policy without victory. More precisely, well-planned and well-executed political campaigns win elections and make governing possible. Therefore, an understanding of government must first be grounded in an understanding of campaigns and elections. This course will introduce you to the art and science of political campaigning. Topics to be covered will include crafting a message, scheduling and time management, research, issues, polling, speeches, debates, working with the press, identifying, differentiating and targeting voters, coalitions and interest groups, budgeting and fundraising, field organization, crisis management, the political environment, and Get Out The Vote efforts.

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). The class will use the experience of the so-called Islamic State in Iraq and Syria (ISIS) to develop a plan for countering the ways in which extremist groups use social media to instigate acts of violence. The class structure will be collaborative and multidisciplinary. Class time will focus on providing background information on, and discussion about, the problem. Students will spend additional time outside of class meeting in groups, thinking through the problem, and doing research in the service of the final class project, which they will present at the end of the semester to an expert review panel.							
This is a prof pick class and is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.							
Students may apply for the course by submitting the required application materials to the PSI registration site ( <a href="https://problemsolving.law.umich.edu/">https://problemsolving.law.umich.edu/</a> ) between February 23, 2018, and March 16, 2018.

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). This course will challenge students to develop creative approaches to reducing the risk of brain injury in youth and high school football. Students will work in multi-disciplinary teams, under the guidance of the instructors, to conceive and propose novel solutions that draw on insights from law, engineering, medicine, business, ethics, and other relevant fields. Each student team will address a specific sub-topic relative to the course theme. Sub-topics may include: What changes in the rules governing practices, participation, and play should be instituted? What kinds of protective and monitoring equipment should be used, and under what protocols? How should such equipment be financed and distributed?							
Class time will focus on providing background information and discussion with topical experts. Students are expected to spend additional time outside of class contacting experts and researching scientific and lay materials. At the end of the term, students will present a proposal to an expert review panel.							
This is a prof pick class and is open to all University of Michigan graduate and professional students. This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). This problem solving course will challenge a multidisciplinary team of students to address a real-world problem in the rapidly-evolving connected and automated vehicle landscape. The Detroit Metro area and the University of Michigan are leading the world in research and deploying technological advances in vehicle connectivity and automation. The potential benefits of "driverless cars" are widely understood, but the path to getting from the current state of human driving to a world of interconnected and "self-driving" vehicles entails an							

CAT#	Course Title					CR	PREREQ	LAB FEE
Class #	CODE CMP SEC	DAYS	TIME	LOCATION	INSTRUCTOR			

overwhelming confluence of technological, societal, legal, regulatory, political, and business problems. This course will focus on one particular angle: the potential multiple problems created by the unavoidable future interactions between automated vehicles and other road users, such as non-automated, human-driven vehicles, pedestrians, and bicyclists. Classes will be run as discovery sessions with industry, governmental, and academic experts. Students working in multidisciplinary sub-teams will dive deeply into particular aspects of the problem with the course culminating in the creation of an integrated class deliverable in the form of a business or operational plan proposing concrete solutions to the problem.

This is a prof pick class and is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Students may apply for the course by submitting the required application materials to the PSI registration site (<https://problemsolving.law.umich.edu/>) between February 23, 2018, and March 16, 2018.

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). We are facing what might be described as a failure or crisis of public trust in sources of truth about matters of fact. Public actors lie and accuse each other of lying. Media outlets present competing narratives. People do not know whom to trust or believe. Misinformation and conspiracy theories spread through social media. Our aim in this course will be to identify concrete potential interventions, solutions, or avenues for future exploration that might help people identify and trust sources of truth and/or that might mitigate the spread of misinformation. We will draw in insights from a range of inter-connected fields, including (but not limited to): psychology, communications, journalism, social media, information, computer science, law, and history. At the end of the term, students will present a proposal to an expert panel.

This is a prof pick class and is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Students may apply for the course by submitting the required application materials to the PSI registration site (<https://problemsolving.law.umich.edu/>) between February 23, 2018, and March 16, 2018.

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). In India -- as in many parts of the world -- economic growth and development have been key focus areas for successive governments. However, development often generates costs that force us to address difficult tradeoffs stemming from certain policies and reforms, such as the possible advantages to enhancing economic well-being versus the potential threats to the environment and heritage preservation. For example, although India has obtained substantial economic growth in the last two decades, there has also been deterioration in several aspects of India's heritage, as only a small fraction of pre-colonial monuments in India receive federal protection and many of these (including many iconic Indian sites) face threats from demolition, desecration, decay, pollution, and other perils. In this problem solving course, we will focus on these kinds of issues in the Indian context and explore what the role of the law and other disciplines are, and could be, in mediating and balancing these concerns in concrete contexts.

We will first survey the salient features of India's Constitution and polity and gauge the state of its economy and its environment. This will involve examining laws and policies related to property, judicial process, contract, tourism, historic preservation, and intellectual property amongst others. Along with this, we will examine theories and practices of historic preservation and consider the protection of, and pressures on, monuments and sites, as well as other aspects of India's heritage (e.g., traditional knowledge). Thereafter, we will focus on an imperiled landscape in western India where 500 medieval temples stand around the periphery of a reservoir. We will conceptualize solutions that might promote its holistic renewal and serve as guidelines for the preservation of other sites of historical significance.

Class time will focus on providing background information and discussion with topical experts, such as archaeologists, attorneys, top bureaucrats, environmentalists, journalists, urban planners, and other stakeholders. Students are expected to spend additional time outside class contacting experts and performing research. At the end of the term, students will present a proposal to an expert review panel.

This is a prof pick class and is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Students may apply for the course by submitting the required application materials to the PSI registration site (<https://problemsolving.law.umich.edu/>) between February 23, 2018, and March 16, 2018.

Michigan Politics & Policy  
Climate change often feels like a problem that our brains have been hardwired to ignore. Climate change is abstract and complex, making it hard for non-scientists (including policy-makers) to understand. For most Americans, it is a problem that will harm people who are far away in time and geography. And the significant political polarization surrounding climate change has turned it into a form of identity politics. Yet like so many environmental problems?from habitat destruction to overconsumption of natural resources?climate change is the result of human behavior. If we want to solve or mitigate these problems, we must first understand what is driving these beliefs and behaviors.

Most policy to address environmental issues such as climate change has focused on legal or economic tools such as prohibiting certain forms of pollution or giving subsidies for renewable energy. In this discussion-based policy seminar, we will examine an alternative framework for motivating environmentally-friendly behavior: psychological and social incentives. We will explore factors affecting climate change beliefs and related behaviors, including reactions to and support for policies. The focus will be primarily on the US, and we will discuss policy programs and private interventions that have incorporated social psychological research to promote climate change mitigation as well as potential new applications of this research. Although this class will mainly cover climate change and other environmental issues, the psychological tools we will discuss are used in other domains as well, so will be useful to students interested in a range of policy topics.

Housing America's Working Poor  
Stable and Integrated Housing for America's Working Poor

This course is one of four interdisciplinary problem solving courses offered at the Law School in fall 2017. Graduate and professional students in architecture and urban planning, business, law, sociology, public health, public policy, and social work are eligible to take this course.

Working as a group with guidance from the instructors, students will design an interdisciplinary, comprehensive plan to address the unavailability of affordable, stable, and integrated housing for working poor people in the United States. We will focus on innovative, community-based solutions to this problem. Students will work collaboratively across disciplines to create a coherent plan to present to a hypothetical client such as a local, state, or federal governmental agency or a foundation. Class sessions will focus heavily on presentations or interviews with experts. Students also will be expected to spend significant time outside of class working in teams to reach out to relevant stakeholders, conduct research, draft documents, and otherwise work toward the creation of the plan. Although students will be broken into teams and assigned different projects, the class as a whole will work as a team to create a single interdisciplinary plan. Through active participation in the course, students will learn how to solve a social problem through analysis of best practices across a variety of disciplines, work effectively with members of a team, and generate policy.

Identifying Victims of Human Trafficking within Health Care Settings

This course is one of four interdisciplinary problem solving courses offered at the Law School in fall 2017. Graduate and professional students in dentistry, law, medicine, nursing, public health, public policy, and social work are eligible to take this course.

It is estimated that up to one third of all victims of human trafficking come into contact with a health care provider during their trafficking and are unrecognized. Health care settings offer a unique opportunity to identify victims of human trafficking and connect them with services and support. In a collaborative, multidisciplinary setting, students will develop innovations to increase the identification of victims of human trafficking in health care settings.

Facilitating Dialogue  
This is a short introductory course module in facilitating complex and difficult dialogic moments of engagement in the social, professional and institutional spheres of the public arena. Its purpose is to provide the possibility for actual engagement with tense social issues and phenomena bedeviling complex societies. It will briefly explore the historical and theoretical contexts, which give rise to sometimes painful and traumatic moments that filter in and color what may otherwise be perceived as simplistic conversations and interactions. It will introduce students?regardless of perceived color, gender, class, or ethnic identity categorization?to the necessity for transcending their subject locations. In order to facilitate, mediate, and engage in trans-formative moments of learning, dialogue, leadership and communal capacity building with due regard of difference and the respect of mutuality.

	P LAB 001 W	430-630PM	1060 LSSH	
This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). The class will use the experience of the so-called Islamic State in Iraq and Syria (ISIS) to develop a plan for countering the ways in which extremist groups use social media to instigate acts of violence. The class structure will be collaborative and multidisciplinary. Class time will focus on providing background information on, and discussion about, the problem. Students will spend additional time outside of class meeting in groups, thinking through the problem, and doing research in the service of the final class project, which they will present at the end of the semester to an expert review panel.				
This is a prof pick class and is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.				
Students may apply for the course by submitting the required application materials to the PSI registration site ( <a href="https://problemsolving.law.umich.edu/">https://problemsolving.law.umich.edu/</a> ) between February 23, 2018, and March 16, 2018.

	P LAB 002 W	430-630PM	1070 LSSH	
This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). This course will challenge students to develop creative approaches to reducing the risk of brain injury in youth and high school football. Students will work in multi-disciplinary teams, under the guidance of the instructors, to conceive and propose novel solutions that draw on insights from law, engineering, medicine, business, ethics, and other relevant fields. Each student team will address a specific sub-topic relative to the course theme. Sub-topics may include: What changes in the rules governing practices, participation, and play should be instituted? What kinds of protective and monitoring equipment should be used, and under what protocols? How should such equipment be financed and distributed?				
Class time will focus on providing background information and discussion with topical experts. Students are expected to spend additional time outside of class contacting experts and researching scientific and lay materials. At the end of the term, students will present a proposal to an expert review panel.				
This is a prof pick class and is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.				
Students may apply for the course by submitting the required application materials to the PSI registration site ( <a href="https://problemsolving.law.umich.edu/">https://problemsolving.law.umich.edu/</a> ) between February 23, 2018, and March 16, 2018.

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). This problem solving course will challenge a multidisciplinary team of students to address a				

real-world problem in the rapidly-evolving connected and automated vehicle landscape. The Detroit Metro area and the University of Michigan are leading the world in research and deploying technological advances in vehicle connectivity and automation. The potential benefits of "driverless cars" are widely understood, but the path to getting from the current state of human driving to a world of interconnected and "self-driving" vehicles entails an overwhelming confluence of technological, societal, legal, regulatory, political, and business problems. This course will focus on one particular angle: the potential multiple problems created by the unavoidable future interactions between automated vehicles and other road users, such as non-automated, human-driven vehicles, pedestrians, and bicyclists. Classes will be run as discovery sessions with industry, governmental, and academic experts. Students working in multidisciplinary sub-teams will dive deeply into particular aspects of the problem with the course culminating in the creation of an integrated class deliverable in the form of a business or operational plan proposing concrete solutions to the problem.

This is a prof pick class and is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Students may apply for the course by submitting the required application materials to the PSI registration site (<https://problemsolving.law.umich.edu/>) between February 23, 2018, and March 16, 2018.

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). We are facing what might be described as a failure or crisis of public trust in sources of truth about matters of fact. Public actors lie and accuse each other of lying. Media outlets present competing narratives. People do not know whom to trust or believe. Misinformation and conspiracy theories spread through social media. Our aim in this course will be to identify concrete potential interventions, solutions, or avenues for future exploration that might help people identify and trust sources of truth and/or that might mitigate the spread of misinformation. We will draw in insights from a range of inter-connected fields, including (but not limited to): psychology, communications, journalism, social media, information, computer science, law, and history. At the end of the term, students will present a proposal to an expert panel.

This is a prof pick class and is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Students may apply for the course by submitting the required application materials to the PSI registration site (<https://problemsolving.law.umich.edu/>) between February 23, 2018, and March 16, 2018.

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). In India -- as in many parts of the world -- economic growth and development have been key focus areas for successive governments. However, development often generates costs that force us to address difficult tradeoffs stemming from certain policies and reforms, such as the possible advantages to enhancing economic well-being versus the potential threats to the environment and heritage preservation. For example, although India has obtained substantial economic growth in the last two decades, there has also been deterioration in several aspects of India's heritage, as only a small fraction of pre-colonial monuments in India receive federal protection and many of these (including many iconic Indian sites) face threats from demolition, desecration, decay, pollution, and other perils. In this problem solving course, we will focus on these kinds of issues in the Indian context and explore what the role of the law and other disciplines are, and could be, in mediating and balancing these concerns in concrete contexts.

We will first survey the salient features of India's Constitution and polity and gauge the state of its economy and its environment. This will involve examining laws and policies related to property, judicial process, contract, tourism, historic preservation, and intellectual property amongst others. Along with this, we will examine theories and practices of historic preservation and consider the protection of, and pressures on, monuments and sites, as well as other aspects of India's heritage (e.g., traditional knowledge). Thereafter, we will focus on an imperiled landscape in western India where 500 medieval temples stand around the periphery of a reservoir. We will conceptualize solutions that might promote its holistic renewal and serve as guidelines for the preservation of other sites of historical significance.

Class time will focus on providing background information and discussion with topical experts, such as archaeologists, attorneys, top bureaucrats, environmentalists, journalists, urban planners, and other stakeholders. Students are expected to spend additional time outside class contacting experts and performing research. At the end of the term, students will present a proposal to an expert review panel.

This is a prof pick class and is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Students may apply for the course by submitting the required application materials to the PSI registration site (<https://problemsolving.law.umich.edu/>) between February 23, 2018, and March 16, 2018.
