Computer-Aided Proj Scheduling Computer-Aided Project Scheduling								

Introduction to the application of modern computer systems, including Primavera Project Management Professional P6 and Microsoft Project, to construction project planning, scheduling and control. This course must be preceded by CEE 536.

31534 P W LEC 040 TTH 10-1130AM 1005 EECS Ivanov

Plant Hydraulics and Water Rel

Water in the soil-plant-atmosphere continuum. Water in tissues and cells. Water uptake and flow in roots. Transport and storage of water. Stomatal responses, water loss and CO2 assimilation.

Mathematical models of plant water transport and loss and plant water relations. Diversity of hydraulic traits.

31533 P W LEC 049 TTH 10-1130AM 185 EWRE Woods

Appl of Geophysics in CEE

The geophysical methods most commonly used in Geotechnical and Geoenvironmental Engineering are described and their theories developed. Examples of applications of the methods developed will be described. Demonstrations of methods will be performed in an "inside" sand bin during the winter months and, weather permitting, in the strip of

Electrical Engr & Computer Sci

Electrical Engineering And Computer Science (EECS)

IT IS CRITICAL THAT STUDENTS ATTEND CLASSES FROM THE BEGINNING OF THE TERM. EVEN THOUGH STUDENTS MAY BE REGISTERED OFFICIALLY FOR A COURSE, THE ELECTRICAL ENGINEERING AND COMPUTER SCIENCE DEPARTMENT MAY GIVE AWAY A STUDENT'S PLACE IN A CLASS IF THEY DO NOT ATTEND THE FIRST WEEK OF LECTURES AND LABS/DISCUSSIONS (AS APPROPRIATE) FOR ANY EECS COURSES.

AT THE SAME TIME, THE EECS DEPARTMENT IS NOT OBLIGATED TO WITHDRAW STUDENTS OFFICIALLY FROM THE COURSE, EVEN THOUGH THE STUDENT HAS BEEN INFORMED THAT HIS/HER PLACE IN A COURSE HAS BEEN TAKEN AWAY. STUDENTS ARE RESPONSIBLE FOR THE ACCURACY OF THEIR SCHEDULES AND MUST BE SURE THAT ALL DROPS ARE PROCESSED THROUGH THE REGISTRATION SYSTEM DURING THE NORMAL DROP/ADD PERIOD.

31107	S RW LEC 005	MW	9-1030AM	G906 COOL	Olson, Khan
STUDENTS MUST ELECT DISCUSSION AND LECTURE SECTIONS. LEC 005 is an experimental version of 280 that describes how C and C++ are implemented, with additional in-class programming practice problems that sample broadly from computer science topics. LEC005 could be a good fit for students with previous programming experience, or for beginners who would prefer a "bottom-up" presentation of the material.

Entrepreneurship (ENTR)

390	Spec Topics Entr					1.00-3.00
28684	P LEC 006	M	1230-130PM	AUD CHRYS	Shtein	

Intro to Entrepreneurial Des

Entrepreneurial Design is a cross-disciplinary course (2 cr) and hands-on lab (1 cr) for current and potential entrepreneurs, designers, hackers, makers, founders, and doers. The focus is on learning to hack things together and experience the fun of building, with minimal technical mumbo-jumbo.

NOTE: All students must enroll in the main lecture (006) (Monday 12:30-1:30) AND hands-on section (.007 - .010) listed below:

In these sections, you will dive in and gain hands-on, direct experience in designing and building physical and digital prototypes, expanding on lessons learned in the lecture part of the course. You must take one of these sections in addition to the lecture (390.006) to get full credit for the course.

Section 7: Machining/Metal Working at the Wilson Center, ENTR 390.007

Section 8: Hardware/Coding Internet of Things in the Duderstadt Center, ENTR 390.008

Section 9: 3D Printing/Prototyping in the Duderstadt Center, ENTR 390.009

Section 10: Web/App Development Internet of Things in the Beyster Bldg, ENTR 390.010

E-Commerce Entrepreneurship

This E-Commerce Entrepreneurship course is designed to introduce students to the online world of business, retail, and commerce. With the increasing popularity of shows like "Shark Tank" and the ease of setting up an online business, people are more than ever interested in setting up their own e-business. The class will address the expected challenges and help students gain the knowledge they would need to start their own online business upon completion of the course.

Topics covered:

Estimating Startup Costs

Case Studies of Other Businesses

Website Development / SEO

Presentation Style

Product Photos/Videos

Investigating Trends

Fulfillment /Shipping

Small Business Accounting

Advertising Streams

Social Media

Sourcing (Domestic & Intl.)

Crowd Funding

While students are able to learn the more technical aspects of entrepreneurship in the other classes that are

CAT#	Course Title	CR	PREREQ	LAB FEE
Class #	CODE CMP SEC	INSTRUCTOR		
DAYS	TIME	LOCATION		

offered, this class hopes to engage the students in a hands-on environment where they will not only learn the skills necessary to start an online business, but also apply them first hand. By the end of this class, students will be required to present a turn-key business with a functioning website, product photos/videos, sourcing plan, shipping/fulfillment plan, and advertising plan to the class.

34849 PI LEC 012 ARR ARR Frank, Sick

TechLab MCity/AutoAnl/Zendriv

The undergraduate students enrolled in this program will be participating in projects to collect vehicle data such as OBD and other high fidelity sensor (cameras, radars etc) in parallel with the Zendrive's phone sensor data collection app under different weather and driving conditions. The project is broken into roadmap milestones that will over time increase in both scope of sensor data collected and scale of the data collection (in numbers of vehicles). We will deploy to the three vehicle groups (UMTRI vehicles, DAQ equipped vehicles, and Connected Car vehicles) in a staged rollout with unique project goals for each vehicle group.

Entrepreneurship Practicum

This section of 411 is focused on Engineering Technology. Pre-requisite: Sophomore standing or above.

Engineers are accustomed to applying technology to the design of a new product. This course will give engineers and others the skills needed to develop a technology company. Specifically, students will apply the scientific method and lean startup principles to design a business (i.e., create a business model) that is sustainable, scalable, and repeatable. The following is a sampling of the topics the course will address:

*Opportunity scoping and validation

*Tech startup business models

*Tech business life cycles

*Techniques for gathering marketplace intelligence

*Competitive positioning and strategy

*Rapid, effective prototyping

*Pitching business opportunities to potential investors, colleagues, and employees

32274 P W LEC 012 W 630-930PM 1123 LBME Tarver

Urban Entrepreneurship

Topic: Urban Entrepreneurship

The Urban Entrepreneurship course is designed for students who want to learn how to make lasting improvements in urban quality-of-life through the creation of for-profit businesses. Urban communities can be vibrant, exciting, and highly productive places, but residents and visitors are often faced with an array of unique challenges. Governments, foundations, and not-for-profit companies have long been associated with efforts to make improvements, but in spite of those efforts, significant urban needs persist. Students in Urban Entrepreneurship course will explore the creation of sustainable, scalable, for-profit companies that address the needs of urban communities.

Entrepreneurs have a long history of service to urban communities, and rapidly accelerating technology and knowledge in a variety of fields give rise to new business models for solving previously intractable problems.

By instructor permission for ELPs only.

32277 P W LEC 014 M 3-5PM 1680 IOE Frank

Organizational Mgmt in Startup

Organizational Mgmt Startups

This course is designed to teach the fundamentals of identifying and prioritizing the "who" (human resource capital) and the "what" (skill sets) needed for your venture to grow and thrive. Building and managing a world-class team is one of the most critical factors determining the success of a company. You will learn the fundamentals of establishing and protecting a corporate culture, and best practices in recruiting, interviewing, and managing your organization. You will learn how to keep employees motivated, accountable, and happy. Students will also study what to do in failure mode to resolve internal conflicts and terminate team relationships when necessary. Course work includes selected readings in organizational structure and development, case study review, and in-class discussion and active role play exercises designed to demonstrate skill proficiencies. The Instructor has been the CEO and President of both public and private companies, including on-going corporations and start-ups that were both successes and failures.

599 Spec Topics Entr 1.00-4.00
24024 P RW LEC 009 M 5-8PM 1014 DOW Crumm

Compensation/Funding/Ownership

Most people don't know how to negotiate their salary or how stock options or non disclosure agreements (NDAs) work, and making uninformed decisions now about your personal finances can have drastic outcomes later. This course will help you explore the world of compensation BEFORE you're forced to make stressful compensation-related decisions during the hiring process.

28140 P RW LEC 014 T 430-630PM 133 CHRYS Crumm

Intro to Innovation Careers

The course exposes students to a wide range of concepts and skills required to successfully navigate innovation-focused careers in small, medium, or large businesses or institutions. Areas of study include intellectual property, market and industry analysis, product-market fit, equity and stock options, program and project management, communication, and securing investment and funding.

30632 P RW LEC 018 M 430-730PM 1012 FXB Pasick

Interpersonal Skills

Do you know how to give your best interview? Or talk to and lead people? In this class you will learn the Emotional Intelligence framework to better understand and manage yourself and others, and build strong relationships and lead teams. You will also develop your own Personal Leadership Plan to help you "level up" as a graduate professional.

30626 P RW LEC 020 W 4-7PM 133 CHRYS Cell

Consulting and Project Mgmt.

Successful project managers and consultants possess the skills necessary to manage their teams, clients, activities, schedules, risks, communications and resources to produce desired outcomes. This course introduces the tasks and challenges fundamental to project management, the vital function of managing complex projects; and consulting, the business of giving expert advice.

30628 P RW LEC 021 TH 5-8PM 133 CHRYS Tharp

Behind Design Curtain

Engineers and scientists will cross paths with designers in the product development process. Rather than allow these interactions to be left to chance, trial and error, naïve presumptions, or hard knocks, students will learn the language and needs of designers to avoid missteps, improve team performance, and accelerate product development.

Creative Process & Engineering								
In this course sponsored by ArtsEngine, students explore the creative process through a structured sequence of exercises in four studio modules: sound, motion, visual images/objects, and verbal/symbolic language. Faculty from Art & Design (Andrew Thompson); Music, Theatre & Dance (Amy Chavasse); Architecture (Gregory Saldana); and Engineering (Jeremy Bond) introduce a variety of creative strategies for generating problem solving ideas through hands-on projects. Weekly colloquia (Stephen Rush), discussions, and readings supplement projects. Grading is based upon attendance, class participation, a journal, four mini-projects, evidence of intellectual and creative process development, and a final culminating project. This course is appropriate for UM undergraduate students at all levels and in all disciplines. It is a fast paced, information-rich educational experience, offering insights that will make creativity and innovation an integral part of life and work.								
STUDENTS ELECTING LAB (102-105) WILL BE AUTO-ENROLLED IN LEC 100 & DIS 101 (meditation session, which is optional).

Battery Systems and Controls							
Pre-requisites: ME360, Matlab/Simulink							
Co-requisites: ME461 or equivalent							

This course covers battery modeling, control and diagnostic methodologies associated with battery electric and

battery hybrid electric vehicles. Emphasis is placed upon system-level modeling, model order reduction from micro-scale to macro-scale and surrogate models for load control, estimation, on-board identification and diagnostics for Lithium Ion batteries. The electrochemical and thermal behaviors of Li batteries are received. Spatiotemporal models of coupled concentration, potential, and thermal phenomena are introduced. Simulation of the resulting partial differential equations using software tools will be introduced with selected topics on numerical issues. Model order reduction techniques, parameter estimation, filtering, and control theory will be covered and applied to state of charge estimation. Additionally, electric-circuit battery models, DC/DC converters, cooling, and other vehicle implementation issues of battery management will be introduced.

The course does NOT require extensive background in battery chemistry and materials, but does require a basic background (undergraduate level) in signals and systems or control (Laplace transforms, time/frequency analysis, state space and control design tools).

Introduction to Musculoskeletal Imaging --- Diagnostic Medical Imaging is an integral part of all aspects of patient care, ranging from initial diagnosis to rehabilitation. The course leverages state-of-the-art visualization software to introduce students to the fundamentals of interpreting X-ray, CT, ultrasound, and MRI scans. The course emphasizes the presentation of common musculoskeletal injuries.

Introduction to Musculoskeletal Imaging --- Diagnostic Medical Imaging is an integral part of all aspects of patient care, ranging from initial diagnosis to rehabilitation. The course leverages state-of-the-art visualization software to introduce students to the fundamentals of interpreting X-ray, CT, ultrasound, and MRI scans. The course emphasizes the presentation of common musculoskeletal injuries.

SportsMarketingAnalyticsGIS					
Advisory Prerequisite: SM 346 Marketing; GIS (Geographical Information Systems) usage, previously centered on urban and environmental studies, is rapidly growing in fields such as business and health as spatial analytics have become an integral part of marketing and business strategies. The purpose of this course will be to teach sports management students the significance of these analytics in the context of professional sports focusing on marketing, and business development such as sports facilities and market assessment. GIS software will provide the platform for this. Exploring the benefits of this software will provide students the basic skills to perform spatial analytics and the ability to independently explore other uses of GIS. Throughout the course I will be teaching the fundamentals of GIS centered on the sports management under the assumption that these skills are beneficial both for academic purposes and professional ones, such as visualizing development projects or identifying fan clustering for marketing or development purposes. Students enrolled in more than five upper division SM courses will be disenrolled from one of the excess courses.

Literature, Science & the Arts

NOTE--IT IS CRITICAL THAT STUDENTS ATTEND CLASSES FROM THE BEGINNING OF THE TERM. EVEN THOUGH STUDENTS MAY BE REGISTERED OFFICIALLY FOR A COURSE, DEPARTMENTS MAY GIVE AWAY STUDENT'S PLACES IN A COURSE IF THEY DO NOT ATTEND:
 ---THE FIRST MEETING OF BIOLOGY, CHEMISTRY, AND PHYSICS LABORATORIES;
 ---THE FIRST MEETINGS OF HISTORY 396 AND 397;
 ---EITHER OF THE FIRST TWO MEETINGS OF ENGLISH COURSES;
 ---EITHER OF THE FIRST TWO MEETINGS OF ANY COURSE OFFERED BY THE DEPARTMENT OF ROMANCE LANGUAGES;
 ---THE FIRST TWO MEETINGS OF COURSES IN OTHER DEPARTMENTS.

AT THE SAME TIME, DEPARTMENTS ARE NOT OBLIGATED TO WITHDRAW STUDENTS OFFICIALLY FROM THE COURSE, EVEN THOUGH THE STUDENT HAS BEEN INFORMED THAT HIS/HER PLACE IN A COURSE HAS BEEN TAKEN AWAY. STUDENTS ARE RESPONSIBLE FOR THE ACCURACY OF THEIR SCHEDULES AND MUST BE SURE THAT ALL DROPS ARE PROCESSED THROUGH THE REGISTRATION SYSTEM DURING THE NORMAL DROP/ADD PERIOD.

This course represents American Culture's long-standing commitment to Ojibwe language instruction and preservation. We will make every effort to offer a four-semester sequence so that students can use it to satisfy their LSA language distribution. Students should be aware, however, that remarkable circumstances might not make it possible for the department to do so. If you have questions or concerns, please contact ac.ug.services@umich.edu.

This course represents American Culture's long-standing commitment to Ojibwe language instruction and preservation. We will make every effort to offer a four-semester sequence so that students can use it to satisfy their LSA language distribution. Students should be aware, however, that remarkable circumstances might not make it possible for the department to do so. If you have questions or concerns, please contact ac.ug.services@umich.edu.

Biology Department

Biology (BIOLOGY)

--A STUDENT WHO DOES NOT ATTEND THE FIRST MEETING OF A BIOLOGY, CHEMISTRY, OR PHYSICS LABORATORY MAY BE DROPPED FROM THE COURSE FOR NON-ATTENDANCE.
 --ALL STUDENTS MUST TAKE ACTION THROUGH THE REGISTRATION SYSTEM TO MAKE SURE THAT THEIR OFFICIAL SCHEDULE MATCHES THE COURSES THEY ARE ATTENDING.

--FOR ADDITIONAL COURSES, PREVIOUSLY LISTED UNDER BIOLOGY, PLEASE CHECK THE LISTINGS FOR EEB (ECOLOGY AND EVOLUTIONARY BIOLOGY) AND MCDB (MOLECULAR, CELLULAR AND DEVELOPMENTAL BIOLOGY).

English Language Institute

English Language Institute (ELI)

ELI courses fall into three categories:

1. English for Academic Purposes courses for graduate students;
2. Language and teacher training courses for international GSIs;
3. Teacher training courses for students planning to teach ESL in local communities or abroad.

For assistance in choosing an appropriate course, please go to the ELI Academic Advising website:
<http://bit.ly/eliadvising> or e-mail: eliadvisor@umich.edu to make an appointment to speak with an advisor.

History Department

History (HISTORY)

--IT IS CRITICAL THAT STUDENTS ATTEND CLASSES FROM THE BEGINNING OF THE TERM. EVEN THOUGH STUDENTS MAY BE REGISTERED OFFICIALLY FOR A COURSE, THE DEPARTMENT MAY GIVE AWAY PLACES IN A COURSE IF STUDENTS DO NOT ATTEND THE FIRST TWO COURSE MEETINGS.

--ALL STUDENTS MUST TAKE ACTION THROUGH THE REGISTRATION PROCESS TO MAKE SURE THAT THEIR OFFICIAL COURSE SCHEDULES MATCH THE COURSES THEY ARE ATTENDING.

--100 THRU 500 LEVEL 4 CREDIT HOUR COURSES ARE 4 CREDIT HOURS FOR UNDERGRADUATES ONLY.

--SURVEY AND INTRODUCTORY COURSES ARE FOR FRESHMEN AND SOPHOMORES.

--SURVEY COURSES REQUIRE BOTH LECTURE AND DISCUSSION SECTIONS. DISCUSSION SECTIONS DO NOT MEET UNTIL AFTER FIRST LECTURE.

Mathematics Department

Mathematics (MATH)

---MATH DEPARTMENT POLICY REQUIRES THAT STUDENTS ATTEND BOTH OF THE FIRST TWO CLASS MEETINGS (OR NOTIFY THE INSTRUCTOR IN ADVANCE OF THEIR ABSENCE) OR THEY MAY BE DROPPED FROM THE CLASS.
 ---ALL STUDENTS MUST TAKE ACTION THROUGH THE REGISTRATION SYSTEM TO MAKE SURE THAT THEIR OFFICIAL SCHEDULE OF COURSES MATCHES THE COURSES THEY ARE ATTENDING.
 ---MATHEMATICS DEPARTMENT POLICY LIMITS STUDENTS TO A MAXIMUM OF 4 CREDITS FOR COURSES NUMBERED BELOW 112.

Romance Languages Department

French (FRENCH)

--DROP POLICY: A student who misses either of the first two meetings of any course offered by the Department of Romance Languages may be dropped from the course for non-attendance.
 --PLACEMENT TEST: Students with any previous study of French must take the French placement test before enrolling. Placement test dates are online at:
www.lsa.umich.edu/rll/undergraduate/languageplacement/languageplacementtests.
 This does not apply to students enrolling in French graduate-level courses.

DOCTORAL CANDIDATE.						

Statistics Department

Statistics (STATS)

---IT IS CRITICAL THAT STUDENTS ATTEND CLASSES FROM THE BEGINNING OF THE TERM. EVEN THOUGH STUDENTS MAY BE REGISTERED OFFICIALLY FOR A COURSE, THE DEPARTMENT MAY GIVE AWAY PLACES IN A COURSE IF STUDENTS DO NOT ATTEND THE FIRST TWO COURSE MEETINGS.

---ALL STUDENTS MUST TAKE ACTION THROUGH THE REGISTRATION SYSTEM TO MAKE SURE THAT THEIR OFFICIAL SCHEDULE OF COURSES MATCHES THE COURSES THEY ARE ATTENDING.

12154	P RW LAB 009 T 1-3PM G444A MH Romero

This lab is a CSP lab. CSP sections are scheduled for more hours per week than a routine section of the same course. Some of that time is devoted to workshop activities, e.g., problem solving, practice tests, review of assignments and instruction in learning skills. There is also provision for more individual instruction in the form of additional office hours, instructor conferences, appointments with a Course Assistant, etc.

Human Neuroanatomy --- This course focuses on key structural aspects of the human brain with an emphasis on function. We will make heavy use of clinical case studies largely in small working groups to uncover how and why symptoms linked to neurological disorders exist. For these case studies, 3-dimensional visualization tools and hands-on examination and limited dissections of human brains will be used to highlight the elegant anatomical relationships of sensory, motor, emotional, and cognitive systems.

Performance Making							
This class is for beginning students to experience modern dance through the craft of choreography. We will explore the elements of dance composition--space, time, dynamic, and motivation-- through movement studies, improvisations, readings, discussions, performance viewings, and brief written assignments. The course will culminate in an informal concert for which the students will prepare final studies to perform for their peers. Students must currently have dance (Modern, Ballet, Jazz) experiences.

Learn to play the dynamic, subtle, transcendent music of the Javanese Gamelan! These classes are for people who want to experience a musical tradition totally different from western folk, rock or classical music. The gamelan is an ensemble of gongs, metallophones, drums, xylophone, a few stringed instruments, and singers. No previous knowledge of Indonesia or of music is expected. These courses are open to all students, undergraduate and graduate in all departments of the university. For information contact Megan Hill (hillmeg@umich.edu)

Inside Mus & VidTech Industry							
Inside the Music & Video Technology Industry explores how leading audio and music technology companies, such as Pandora, Adobe, Smule, Dolby, iZotope, Line 6, and Avid, bring products from idea to market. We examine best practices, roles, day-to-day responsibilities, desired skillsets, and department/team function. This online seminar is intended for all students considering full-time positions or internships in the music, audio, and video tech industry. No prior engineering background required. Topics include: software development in large organizations, UX/UI design, marketing, hardware development, product management, advanced technology and research, project management, sales, data and analytics, executive teams, and operations (HR, IP/patents). Online lectures available. Class will meet twice during 8 weeks. Online office hours include discussion and meetings with leading industry professionals.							
In partnership with dozens of companies and industry mentors, we are breaking down how some of the greatest products were made, how these companies operate, and the roles and skills involved. Join us on this adventure - meet and interact with the leading companies in the music industry.

Indian Music							
The course will focus on the classical music traditions of North India, i.e. Hindustani raga-based music. The first half of the course focuses on acquiring mastery over the basic musical materials of this idiom through singing, improvisation, and transcription exercises. The second half of the course builds on these skills to theorize about and analyze aspects of North Indian classical pitch and rhythmic structure, form, performance practice, and their connection to other musical idioms, including Indian folk traditions, the classical music of South India, and the classical and popular musical traditions of the West. This will lead to a final research or composition project, which will be the main assignment on which the course grade will be based

Music in Political Film							
How does music affect our perception of political film? How does music manipulate our feelings for or against the subject matter? In this course we will survey some of the major films in this genre, beginning with Battle of the Somme (1916), and ending with Songs of War (2012) as well as more recent political films. In addition to readings on the political/historical topic, we will learn basic terminology and analytical techniques for film music.

Advanced Harmony							
This course surveys tonal and post-tonal harmonic topics: irregular resolutions, suspended tonality, dissonant "tonics," chord regions, transformational tonality, motivic harmony, harmonic fluctuation, voice-leading routines, chord networks, source harmonies, generated harmony, group actions, harmonic systems, compositional designs, cross-domain applications. Written work will consist of composition and analysis exercises culminating in a final project

Indian Music

The course will focus on the classical music traditions of North India, i.e. Hindustani raga-based music. The first half of the course focuses on acquiring mastery over the basic musical materials of this idiom through singing, improvisation, and transcription exercises. The second half of the course builds on these skills to theorize about and analyze aspects of North Indian classical pitch and rhythmic structure, form, performance practice, and their connection to other musical idioms, including Indian folk traditions, the classical music of South India, and the classical and popular musical traditions of the West. This will lead to a final research or composition project, which will be the main assignment on which the course grade will be based

27599 P LEC 001 F 2-5PM B222 WDC

Modern Rituals/Traditional pra
Modern Rituals/Traditional practices

Trains students in performance techniques grounded in various cultural traditions: choral singing, masking, poetry, vocal call and responses, dance, martial arts, and mimicry. Embodied studio practice emphasizes aesthetics of diverse cultural communities. Guest artists and instructors interact with students in the instructional space. Students learn how practice emerges from culturally specific contexts, how to embody culturally specific aesthetics and practices, and they train in the vocal, physical and theatrical expression skills.

240 Intro to Design 3.00 ADVISORY

14610 P REC 001 MW 1-3PM 2239 WDC Murphy

TOPSY-TURVY: THE VICTORIAN WORLD OF GILBERT AND SULLIVAN

Created in London between 1871 and 1896, the comic operas of W. S. Gilbert (librettist) and Arthur Sullivan (composer) have been widely performed for more than a century. This course introduces students to the late nineteenth-century context of Gilbert and Sullivan's theatrical collaboration, focusing in particular on aspects of Victorian culture that they parodied through words and music.

Each week we will read and discuss one of the 'Savoy' operas, mostly in chronological order, combining selected historical readings with analysis of literary, theatrical, and musical elements. We will also consider the award-winning film, 'Topsy-Turvy,' and attend a live performance presented by the University of Michigan Gilbert and Sullivan Society. Throughout the semester we will reflect on the critical and creative possibilities of parody.

This course fulfills the Poetry requirement for English majors. It is open to students across all departments. Previous experience with performance is welcome, but not required. Course requirements include regular attendance and active participation in class, weekly short response papers, a longer critical essay (written in several drafts), a creative response, and a reflection on the final writing portfolio. No mid-term, no final exam.

Performing History

Central to this course will be an investigation into the making and documenting of live performance. How can scholars create a history for an ephemeral art? Is it an embodied experience? Is it a collection of the two and three-dimensional remnants of the process? How important is the text or score? Given the challenges of documenting pre 20th century performance acts, how important are the residues of history for new performance makers? This course is for students interested in the process of writing histories of theatre, dance, music or performance art. After focused research on three stage performers, Ira Aldridge, Jenny Lind, and Edwin Booth, the class provides a chance for each student to construct a meaningful history of an artist of their choosing

Nursing

School Of Nursing

Health Sciences (HS)

404 GenderBased Violence **2.00-3.00**
 27728 P SEM 001 TH 1-3PM 1000 SNB Munro-Kramer

This course is open to all undergraduate students. Students will be required to participate in experiential learning hours outside of class. Registering for 2 credits will require 10 hours of attendance at campus events related to gender-based violence. Registering for 3 credits will require 30 hours of training held at the Sexual Assault Prevention and Awareness Center (SAPAC) on campus or at the SafeHouse in Ann Arbor.

505 Team-Based Decisions **2.00**
 27937 P W REC 001 W 3-5PM 1000 SNB Pardee, Arslanian-Engoren

Registration is limited to Pharmacy, Social Work, Dentistry, Medical, and Nursing students who are eligible to enroll. Students will be assigned to an interdisciplinary group that will rotate between different building across campus. An email notifying students about their the group and room assignments for the first class meeting will be sent from the School of Pharmacy before class begins.

610 Socio Comp of HIT **3.00 ENFORCED**

Leadership in Publ&Priv Markets								
Participants in this four-part lecture course will be challenged to think critically about various dimensions of leadership in a dynamic and changing health care landscape. The series will be facilitated by Steve Nelson. In this class students will learn first-hand from Steve's experience as a leader in a publically held company as well as gain insights through the use of UnitedHealth Group as a living case study.								
34644	P SEM 004 F		9-11AM	ARR			Romney	
Course Objective: 1) Teach graduate students the fundamentals of physician economics as applied in both physician practices, groups and hospital settings. 2) Teach students the fundamentals of analytical thinking and application through the use of large healthcare financial data sets in practice, group and hospital settings. 3) Train analysts to convert data to answers for executives.

Soc Justice & Poli Conflicts

This is a course for students interested in social justice and equality, social justice movements, anti-democratic movements and the intersections of public leadership, public policy, and the rule of law in the context of the temporal evolution of the democratic state. It will seek to provide a comparative and global understanding of how social movements have shaped understandings and discourses of human rights over time. It will address the role of civic movements and leaders in transforming social understandings and meanings of the concepts human rights (social, political, economic and environmental rights) over the last two centuries. It will explore the relations between individual action, collective processes and outcomes as these affect and are shaped by the contexts of system, institution, law and public policy. It will address how inherent and intersecting relations of power, systems and structures of dominance are related to the experience of peace, violence, oppression and social resistance. As these are often textured into the context of politics, economics and the environment. It will explore the relationship between public policy, the law, institutional structure, social norms, social conditioning, ideologies, strategic communicative interaction, group engagement and imperial behaviors in the public spheres. It will pay special attention to the consequences social movements, social actors and leaders produce for politics, the economy, the environment, justice, equality, human rights and human lives. This course will introduce students to the intellectual and technical rigors of democratic, non-violent and effective leadership in the spheres of policy, the law and society. It will explore the social and political endeavors of such leaders and movements to address the difficult questions facing our world today. In this way it will provide an overview of how such leaders negotiate, manage and resolve conflicts in organizational and intra-organizational settings. Importantly it will provide students with a theoretical understanding of how trans-generational and social trauma comes to bear on successful institutional, systemic, and programmatic intervention at the nexus of social justice work and public policy.

Economics of Energy & Environ

This course focuses on the economics of energy and environmental regulations in the United States. It is designed to give students practical experience in making connections between intermediate microeconomic concepts and real-world regulatory policy issues. The emphasis will be on critical thinking to answer questions like the following:

- How do energy markets work?
- What are the effects of energy markets on the environment?
- When should the government intervene to regulate a market?
- What is the appropriate form of government intervention in a market?
- What is the role of energy policy in mitigating environmental damage?

Identity & Bias

This course is a seminar on how our identities shape and are shaped by political institutions, with a particular emphasis placed on how this interplay affects the distribution of social, political and economic resources. Over the course of the semester we will explore: how identities become important constructs in political spaces, and how they shape public opinion and political behavior, and theories on how to disrupt harmful patterns of prejudice. Drawing from these materials, students will develop and test their own theory about how to reduce the identity-based biases that impede the achievement of ideal policy and political outcomes.

Oil & Gas Policy in the US

This course will examine how federal, state, and local politics have affected production and consumption over time. We will look at key energy policy questions facing the country, including: how oil and gas development is regulated, subsidized, and taxed; the environmental risks and economic benefits related to fracking; whether the United States is on track to become "energy independent"; the role of oil and gas production and consumption in climate change; and the potential for increased oil and gas exports from the United States. Students will need to understand the fundamentals of microeconomics, but no previous experience in energy or oil is required.

Facilitating Dialogue

This is a short introductory course module in facilitating complex and difficult dialogic moments of engagement in

CAT#	Course Title					CR	PREREQ	LAB FEE
Class #	CODE CMP SEC	DAYS	TIME	LOCATION	INSTRUCTOR			

the social, professional and institutional spheres of the public arena. Its purpose is to provide the possibility for actual engagement with tense social issues and phenomena bedeviling complex societies. It will briefly explore the historical and theoretical contexts, which give rise to sometimes painful and traumatic moments that filter in and color what may otherwise be perceived as simplistic conversations and interactions. It will introduce students?regardless of perceived color, gender, class, or ethnic identity categorization to the necessity for transcending their subject locations. In order to facilitate, mediate, and engage in trans-formative moments of learning, dialogue, leadership and communal capacity building with due regard of difference and the respect of mutuality.

Students enrolled in PubPol 578 must also enroll in PubPol 778.								

Advisory pre-requisite: at least second year graduate standing in the Public Policy graduate program.

NOTE: The APS requires weekly team meetings with the instructor and the client, scheduled at mutually convenient times. Therefore this class will NOT conflict with other courses in the TTH 4-5:30 block. The only class scheduled in this time slot is the first class session, on Thursday Jan 7 at 4 pm. Students will choose projects and arrange for future meetings at that session. Please contact the instructor, Ann Lin, with any additional questions.

Diplomacy & Economic Influence				
A semester-long course based on simulations and discussions to practice the skills of diplomacy in the modern world by analyzing events and their players. Each class should involve about 45 minutes of role playing or presentations, with the remaining time reserved for a discussion of the readings, interactions, and topics. We will examine diplomatic events from Ben Franklin in Paris to modern day situations like the Arab Spring and the Rise of China. We will focus on the interacting of the people and interests involved, particularly on the economic factors behind them, and see how some of these themes play through to the modern day.				
27405	P RW LEC 003 TH	6-8PM	1230 WEILL	Henry
Facilitating Dialogue				
This is a short introductory course module in facilitating complex and difficult dialogic moments of engagement in the social, professional and institutional spheres of the public arena. Its purpose is to provide the possibility for actual engagement with tense social issues and phenomena bedeviling complex societies. It will briefly explore the historical and theoretical contexts, which give rise to sometimes painful and traumatic moments that filter in and color what may otherwise be perceived as simplistic conversations and interactions. It will introduce students regardless of perceived color, gender, class, or ethnic identity categorization?to the necessity for transcending their subject locations. In order to facilitate, mediate, and engage in trans-formative moments of learning, dialogue, leadership and communal capacity building with due regard of difference and the respect of mutuality.				
30379	P RW LEC 004 T	530-730PM	1220 WEILL	Hajra
Policy & Mgmt in the Nonprofit				
The nonprofit sector has emerged as one of the cornerstones of American society, and yet remains very much a work in progress. The ?third sector? faces unique and evolving pressures in areas such as social enterprise, philanthropy, mission focus, performance measurement, sector blur, and more. In our class we will examine how some of these broad issues intersect with the day to day operation of nonprofit organizations. By considering sector tensions from a management perspective, ultimately we will each develop our own informed view on the appropriate role and function of the nonprofit sector within society. Future policy makers and nonprofit managers alike will enhance their ability to formulate positions on policy issues that impact the sector.

Identity & Bias				
This course is a seminar on how our identities shape and are shaped by political institutions, with a particular emphasis placed on how this interplay affects the distribution of social, political and economic resources. Over				

CAT#	Course Title					CR	PREREQ	LAB FEE
Class #	CODE CMP SEC	DAYS	TIME	LOCATION	INSTRUCTOR			

the course of the semester we will explore: how identities become important constructs in political spaces, and how they shape public opinion and political behavior, and theories on how to disrupt harmful patterns of prejudice. Drawing from these materials, students will develop and test their own theory about how to reduce the identity-based biases that impede the achievement of ideal policy and political outcomes.

Economics of Energy & Environ

This course focuses on the economics of energy and environmental regulations in the United States. It is designed to give students practical experience in making connections between intermediate microeconomic concepts and real-world regulatory policy issues. The emphasis will be on critical thinking to answer questions like the following:

- How do energy markets work?
- What are the effects of energy markets on the environment?
- When should the government intervene to regulate a market?
- What is the appropriate form of government intervention in a market?
- What is the role of energy policy in mitigating environmental damage?

ATTN: MSW STUDENTS - You must attend additional sessions to meet the 3 credit hour requirement for SW students. In addition to Wednesdays 3-5 p.m. you will be meeting Wed 2-5 the first week of the term on January 6 and also on the following Tuesday evenings from 6-8 p.m.: 1/26, 2/9, 2/23, 3/15, 3/29, 4/12.							
Registration is limited to Pharmacy, Social Work, Dentistry, Medical, and Nursing students who are eligible to enroll. Students will be assigned to an interdisciplinary group that will rotate between Couzen's Hall, Kellogg Auditorium, 5915 BUHL, 1000 SNB, and 1840 SSWB. An email notifying students about the group and room assignments for the first class meeting will be sent from Pharmacy before class begins on 1/13/16.

311	Eco Explorers Prep				1.00
24099	PDR LAB 001 F		1-1AM	ARR	Trumpey

Course Description

Traditional cooking methods in Sub-Saharan Africa are typically inefficient. Basic, hand built cook stoves can reduce firewood use by 50% improving forest health and reducing girl chores. Eco-Explorers will meet once a week during winter term in preparation for a 3 week June Design Build trip in Tanzania. Language and cultural preparation, test stove design build and design process documentation will be completed prior to the field component. The June trip will include a study tour to major wildlife park areas of Tanzania, a project site visit to a Peace Corps Volunteer and 2 weeks living with Masai families during the design / build process. Enrollment by application / permission of instructor.

Art for Social Change: Japan

Course Description

This course will explore the nature and perception of physical and mental disability in our society and the role that art can play in improving the lives of individuals. We will examine numerous issues through classroom lectures and workshops, and will gain greater understanding of work and education opportunities for people with disabilities through fieldtrips (Detroit, Ann Arbor Center for Independent Living, Work Skills Corporation). The early part of this course during the winter term in Ann Arbor will lay the groundwork for the second part of the course, a one-month trip to Japan for field studies.

	Course Description						
	Through intensive studio sessions, this course focuses on drawing from the live model, both clothed and unclothed. Students investigate ways the figure is used and referenced in the work of contemporary artists and explore strategies for using the figure in drawings that are creative and expressive in nature. The goals of this course include gaining a better understanding of the figure and its significant role in the history of art, improving figure drawing skills, and pursuing unique methods of personal expression through the use of the figure in drawing.
