After the class is full, we will not be taking students off the wait list until the class starts in the fall, based on attendance and lottery. Thus, your place on the wait list has no bearing on your chances of getting in. Students should be certain to show up to first class day or won't be allowed to register/stay in class, or remain on the wait list.

31493	P LEC 066 TTH	10-1130AM	1025 GGBL	Bills			15	Y	
Travel Behavior Analysis Frcast									
This course provides an introduction to analysis and forecasting of passenger travel behavior. Topics range from the fundamentals of utility theory and discrete choice modeling to basic forecasting and scenario analysis. The course includes lectures and group projects using real world datasets.									
31478	P LEC 068 TTH	1-230PM	1045 GGBL	Masoud			9	Y	
Transportation Data Analytics									
The course covers topics in predictive data analytics where computers are enabled to learn hidden structures from data without being explicitly programmed. Topics include supervised (classification and regression), unsupervised, reinforcement, and probabilistic learning. Examples are drawn from the field of transportation systems.									
30924	P LEC 120 T	5-8PM	1012 FXB	Kamat			26	Y	
Building Information Modeling									
Fundamentals of Building Information Modeling (BIM) methods and their significance in project management and collaboration; Application of BIM in primary construction management functions such as coordination, design clash detection, sequencing, safety, logistics, and communication; BIM-based Integrated Project Delivery (IPD) approach and the project lifecycle; Reality capture methods for as-built documentation in BIM; BIM in facility and asset management; BIM standards and interoperability.

## Electrical Engr & Computer Sci

### Electrical Engineering And Computer Science (EECS) Open Sections

IT IS CRITICAL THAT STUDENTS ATTEND CLASSES FROM THE BEGINNING OF THE TERM. EVEN THOUGH STUDENTS MAY BE REGISTERED OFFICIALLY FOR A COURSE, THE ELECTRICAL ENGINEERING AND COMPUTER SCIENCE DEPARTMENT MAY GIVE AWAY A STUDENT'S PLACE IN A CLASS IF THEY DO NOT ATTEND THE FIRST WEEK OF LECTURES AND LABS/DISCUSSIONS (AS APPROPRIATE) FOR ANY EECS COURSES.

AT THE SAME TIME, THE EECS DEPARTMENT IS NOT OBLIGATED TO WITHDRAW STUDENTS OFFICIALLY FROM THE COURSE, EVEN THOUGH THE STUDENT HAS BEEN INFORMED THAT HIS/HER PLACE IN A COURSE HAS BEEN TAKEN AWAY. STUDENTS ARE RESPONSIBLE FOR THE ACCURACY OF THEIR SCHEDULES AND MUST BE SURE THAT ALL DROPS ARE PROCESSED THROUGH THE REGISTRATION SYSTEM DURING THE NORMAL DROP/ADD PERIOD.

## Entrepreneurship (ENTR) Open Sections

<b>390</b>	<b>Spec Topics Entr</b>		<b>2.00-3.00</b>						
28723	P LAB 007	W	130-430PM	ARR					Vitale, Shtein
Machining/Metal Working									
Entrepreneurial Design is a cross-disciplinary course and lab for current and potential entrepreneurs, designers, hackers, makers, founders, and doers. The focus is on learning to hack things together and experience the fun of building, with minimal technical mumbo-jumbo.									
This class covers topics in machining and metal working as they relate to design and entrepreneurship. This class meets in the conference room of the Wilson (Student and Team Project) Center, 2603 Draper, N. Campus									
28724	P LAB 008	F	1-4PM	1321 DC					Alexander-Adams, Shtein
Hardware/Coding, IoT									
Entrepreneurial Design is a cross-disciplinary course and lab for current and potential entrepreneurs, designers, hackers, makers, founders, and doers. The focus is on learning to hack things together and experience the fun of building, with minimal technical mumbo-jumbo.									
This class covers topics in embedded systems and microelectronics they relate to design and entrepreneurship. (Hardware/Coding, Internet of Things)									
28725	P LAB 009	T	1-4PM	1401 DC					O'Grady, Shtein
3D Printing/Prototyping									
Entrepreneurial Design is a cross-disciplinary course and lab for current and potential entrepreneurs, designers, hackers, makers, founders, and doers. The focus is on learning to hack things together and experience the fun of building, with minimal technical mumbo-jumbo.									
This class covers topics in 3D modeling and 3D printing as they relate to design and entrepreneurship.									
28726	P LAB 010	M	12-3PM	1401 DC					O'Malley, Shtein
Virtual Reality									
Students would develop virtual reality content (for the Oculus Rift or MIDEN) using the Unreal Engine and 3D Studio Max. The skill building phase of the class would involve an introduction to asset creation (3d modeling with 3D Studio Max) and scene assembly/functionality (Bringing developed assets into the Unreal Engine & creating interactive experiences through Unreal's Blueprint system). Using these skills students would be capable of developing virtual reality experiences, simulations, or tools to address real-world problems.

-------	-----------	---	-------	----------	---------	--	--	---	---

E-Commerce Entrepreneurship  
The E-Commerce Entrepreneurship course is designed to introduce students to the online world of business, retail, and commerce. With the increasing popularity of shows like Shark Tank and the ease of setting up an online business, people are more than ever interested in setting up their own online business. The class will address the expected challenges and help students gain the knowledge they would need to start their own online business upon completion of the course.

<b>407</b>	<b>Entrepreneurship Hr</b>				<b>1.00</b>				
20774	P SEM 001	F	1230-130PM	STAMPS	Gibson, Gordon			141	Y

Entrepreneurship Hour  
This seminar series is designed to expose students to entrepreneurship through interaction with experienced entrepreneurs, business leaders, and venture capitalists as well as individuals involved in emerging business models, new venture creation, and technology commercialization. While covering a broad set of engineering disciplines, guest speakers will share their knowledge on the latest, most diverse practices on legal, financial, and other innovation issues. The lectures include leading entrepreneurs and executives, technology innovators, experts from the financial markets, and others who support the entrepreneurial infrastructure. Following these seminars, students will be able to meet the guest speakers along with other members of the entrepreneurial community.

<b>408</b>	<b>Patent Law</b>				<b>1.00</b>				
24352	P LEC 001	T	6-8PM	1024 FXB	Fidler			16	Y

Patent Law  
Prereq: Sophomore standing or above

\*\*The FIRST meeting date is 1/31/17.\*\*

Inventors and entrepreneurs have four concerns related to patent law:

1. protecting inventions during product development
2. determining invention patentability
3. avoiding infringement
4. leveraging a patent as a business asset

This course addresses these concerns through the application of case law and business cases to an invention of a student's choice.

Finding Your Venture  
It's hard to start a company, but doesn't have to be complicated. This course dramatically improves your odds of starting a viable business by providing a framework for identifying large, attractive opportunities. Every student will leave with a viable business opportunity to pursue and a set of valuable and repeatable skills that will be an asset in any entrepreneurial setting.

Entrepreneurship Practicum  
This section of 411 is focused on Engineering Technology. Pre-requisite: Sophomore standing or above.

Engineers are accustomed to applying technology to the design of a new product. This course will give engineers and others the skills needed to develop a technology company. Specifically, students will apply the scientific method and lean startup principles to design a business (i.e., create a business model) that is sustainable, scalable, and repeatable. The following is a sampling of the topics the course will address:

- \*Opportunity scoping and validation
- \*Tech startup business models
- \*Tech business life cycles
- \*Techniques for gathering marketplace intelligence
- \*Competitive positioning and strategy
- \*Rapid, effective prototyping
- \*Pitching business opportunities to potential investors, colleagues, and employees

Organizational Mgmt in Startup  
 Organizational Mgmt Startups - Winter 17 will meet Fridays from 9:00am-11:00am, in R2310 BUS on Central Campus.

This course is designed to teach the fundamentals of identifying and prioritizing the "who" (human resource capital) and the "what" (skill sets) needed for your venture to grow and thrive. Building and managing a world-class team is one of the most critical factors determining the success of a company. You will learn the fundamentals of establishing and protecting a corporate culture, and best practices in recruiting, interviewing, and managing your organization. You will learn how to keep employees motivated, accountable, and happy. Students will also study what to do in failure mode to resolve internal conflicts and terminate team relationships when necessary. Course work includes selected readings in organizational structure and development, case study review, and in-class discussion and active role play exercises designed to demonstrate skill proficiencies. The Instructor has been the CEO and President of both public and private companies, including on-going corporations and start-ups that were both successes and failures.

Creativity & Design Innov  
Students from ALL schools and colleges may take this course.

If you place yourself on the waitlist, it is highly likely you will be allowed in the course.

=====

**Creativity & Design - Strategies for Innovation**

The course is a hands-on, interactive, immersion into personal creativity and the design thinking process. Using tools for self-awareness, discovery and curiosity, the course will explore how people, places and practices foster human creativity. Students will discuss: What is creativity? How can a person become more creative? In order to become more creative, students must be willing to look within themselves and share what they find. The design thinking portion of the course will include a team assignment exploring problem framing and solution analysis, as well as storytelling practices via presentations at the end of the semester.

The course's objectives for its students will be:

- A paradigm shift- to learn about other ways of thinking and principles that can pivot their approach to viewing and reacting to the world.
- Defining creativity- to create a working definition so that the students can achieve a clearly identified goal.
- ID your personal creative style via discovering what you are most enthusiastic about and what types of endeavors make you excited to create.
- Discuss methods and approaches that contribute to individual, team and organizational creativity- how you can bring down barriers to creative thinking and the importance of attitude and positive affirmations.
- Develop a skill set and program of continuing study and practice that develops creative mentors, practices and environments..
- Gain confidence in your creative talent.
- Learn the importance of consumer / audience qualitative research and understanding in the design process.
- Develop a working knowledge of the ?design thinking? process.
- Practice problem framing and solution analysis to help with with organizational design.
- Learn how to apply the design thinking process to build solutions and innovations.
- Expand creative ability and increase productivity and happiness by learning about obstacle removal in creative practice.
- Explore team building exercises and processes with the hope that there will be a resulting change in attitude--that our thoughts and actions are not in isolation. Partnership and community are critical to both creative living and design success.

Autonomous Vehicle Data  
Enrollment is by instructor consent. Students must send a resume and one-page statement of interest to cfidh@umich.edu. If admitted, the instructor/Law School will then notify CFE so an electronic permission can be entered to allow the enrollment.

**Autonomous Vehicle Data: Privacy, Regulatory, and Business Issues**

CAT#	Course Title					CR	PREREQ	LAB FEE		
Class #	CODE CMP SEC	DAYS	TIME	LOCATION		INSTRUCTOR		OPEN SEATS	WL	

This course is one of two new interdisciplinary problem solving pilot courses offered at the Law School in winter 2017. Graduate and professional students in business, engineering, law, and public policy are eligible to take this course.

Working as a group, students will create an operational plan and supporting documents for a hypothetical client that obtains data on autonomous vehicle activities in the course of administering an autonomous vehicle network. The client might be a municipality that operates a connected vehicle infrastructure or a commercial firm that provides technological or network services and obtains activity data as a byproduct. The project deliverable will include an analysis of opportunities and risks associated with usage of the data and various documents necessary to implement an operational plan in this space (e.g., a data privacy policy, user licenses or releases, insurance riders, or indemnification agreements). Class sessions will focus heavily on presentations or interviews with industry or academic experts. Students will also be expected to spend significant time outside of class working in teams to reach out to industry players, conduct research, draft documents, and otherwise work toward course deliverables. Although students will be broken into teams and assigned different projects, the class as a whole will work as a team to create a single deliverable.

#### Creative Process & Engineering

In this course sponsored by ArtsEngine, students explore the creative process through a structured sequence of exercises in four studio modules: sound, motion, visual images/objects, and verbal/symbolic language. Faculty from Art & Design (Andrew Thompson); Music, Theatre & Dance (Amy Chavasse); Architecture (Gregory Saldana); and Engineering (Jeremy Bond) introduce a variety of creative strategies for generating problem solving ideas through hands-on projects. Weekly colloquia (Stephen Rush), discussions, and readings supplement projects. Grading is based upon attendance, class participation, a journal, four mini-projects, evidence of intellectual and creative process development, and a final culminating project. This course is appropriate for UM undergraduate students at all levels and in all disciplines. It is a fast paced, information-rich educational experience, offering insights that will make creativity and innovation an integral part of life and work.

STUDENTS ELECTING LAB (102-105) WILL BE AUTO-ENROLLED IN LEC 100 & DIS 101 (meditation session, which is optional).

Design for Global Health								
Design for Global Health: Medical device usability testing and iterative design								
Human factors methods and extensive end user engagement during the product development process have been shown to improve product quality, tailor design features to the real needs of end users, improve product uptake, and reduce training prior to use. This project-based course will focus on the front and middle phases of the product design process, specifically the application of human factors and usability engineering to improve product design. Emphasis will be placed on medical devices for low- and middle-income countries, using methods that are generalizable to non-medical devices and high-income countries. Additional topics include user- and context-centered design processes, formative and summative evaluation techniques, medical device use error, and regulatory practices. Students will work in teams to apply these techniques to medical device prototypes in use or development for global health applications, apply for IRB approval to conduct usability testing, and perform iterative design informed by usability testing results. Students will also explore the current state of global health technologies and analyze successfully commercialized technologies, identifying common design attributes across commercialized technologies. Class meetings will consist of lectures that introduce concepts, design methods, and tools; active learning exercises (e.g., group discussions, case studies, critical reviews of literature); and group work / lab time. Senior undergraduate engineering students may take the course with permission from the instructor.

Research in Sponsorship								
Research in Sponsorship, Sport Management								
This course will meet in CCRB 3745D.								
This course is an elective graduate course in sport management. The main goal of this course is to provide students with both a theoretical and an applied understanding of the values and limits to sponsorship-linked marketing. The course takes an interdisciplinary approach and treats sponsorship as a contributor to an overall communications platform. Most importantly, throughout this course, students will develop and conduct a sponsorship research that can address ongoing issues in the sponsorship industry.

### Physical Education (PHYSED) Open Sections

<b>140</b>	<b>Beginning Swim</b>				<b>1.00</b>					
13730	PD LAB 001	MW	7-8PM	ARR	Starling			10		Y
<p>Class will be held at CCRB in the Bell Pool. Students must register through the Kinesiology Community Programs (KCP) website (kines.umich.edu/community-programs) or in Rm 3064 CCRB and request an override. To drop/request override, contact kebwink@umich.edu. Little or no swim experience? This course is for you. You'll start with entering the pool and getting comfortable. You'll progress to front crawl, back crawl, elementary backstroke, breaststroke, sidestroke, and butterfly. And you'll learn jumping in, treading, and water safety. Goal: one length of the pool. Goggles recommended. Attendance in at least one of the first two classes is mandatory for evaluation or you may lose your spot in class to those on a waitlist. No enrollments are accepted after the class meets a third time.</p>										
23978	PD LAB 002	TTH	8-9PM	ARR	Starling			10		Y

<b>141</b>	<b>Begin Swim II</b>				<b>1.00</b>	<b>ADVISORY</b>				
14899	PD LAB 001	MW	8-9PM	ARR	Starling			7		Y
<p>Class will be held at CCRB in the Bell Pool. Students must register through the Kinesiology Community Programs (KCP) website (kines.umich.edu/community-programs) or in Rm 3064 CCRB and request an override. To drop/request override, contact kebwink@umich.edu. Beginning Swim II is for students who are already comfortable in the water and who can swim across the pool (the short way). The course works on building endurance and improving technique in freestyle, backstroke, elementary backstroke, breaststroke, sidestroke, butterfly, diving and treading water as well as water safety. Flip turns and other activities will be offered as skills advance. Goggles recommended. Attendance in at least one of the first two classes is mandatory for evaluation or you may lose your spot in class to those on a waitlist. No enrollments are accepted after the class meets a third time.</p>

# Literature, Science & the Arts

NOTE--IT IS CRITICAL THAT STUDENTS ATTEND CLASSES FROM THE BEGINNING OF THE TERM. EVEN THOUGH STUDENTS MAY BE REGISTERED OFFICIALLY FOR A COURSE, DEPARTMENTS MAY GIVE AWAY STUDENT'S PLACES IN A COURSE IF THEY DO NOT ATTEND:  
 ---THE FIRST MEETING OF BIOLOGY, CHEMISTRY, AND PHYSICS LABORATORIES;  
 ---THE FIRST MEETINGS OF HISTORY 396 AND 397;  
 ---EITHER OF THE FIRST TWO MEETINGS OF ENGLISH COURSES;  
 ---EITHER OF THE FIRST TWO MEETINGS OF ANY COURSE OFFERED BY THE DEPARTMENT OF ROMANCE LANGUAGES;  
 ---THE FIRST TWO MEETINGS OF COURSES IN OTHER DEPARTMENTS.

AT THE SAME TIME, DEPARTMENTS ARE NOT OBLIGATED TO WITHDRAW STUDENTS OFFICIALLY FROM THE COURSE, EVEN THOUGH THE STUDENT HAS BEEN INFORMED THAT HIS/HER PLACE IN A COURSE HAS BEEN TAKEN AWAY. STUDENTS ARE RESPONSIBLE FOR THE ACCURACY OF THEIR SCHEDULES AND MUST BE SURE THAT ALL DROPS ARE PROCESSED THROUGH THE REGISTRATION SYSTEM DURING THE NORMAL DROP/ADD PERIOD.

32295	P DIS 301	M	1-2PM	A742 CHEM	Esarey	1	Y

This section (Section 300) will use individualized, small group discussions of the laboratory experiments led by a graduate student instructor and eliminate the large, theater-like classroom lectures. Students will not solely be learning chemistry concepts, but will be performing experiments and interpreting data as its collected, in an effort to teach students how to conduct research in ways that scientists conduct their research in professional laboratories

Please contact Samuel Esarey if you have questions: slesarey@umich.edu

## English Language Institute

### English Language Institute (ELI) Open Sections

ELI courses fall into three categories:

1. English for Academic Purposes courses for graduate students;
2. Language and teacher training courses for international GSIs;
3. Teacher training courses for students planning to teach ESL in local communities or abroad.

For assistance in choosing an appropriate course, please go to the ELI Academic Advising website:  
<http://bit.ly/eliadvising> or e-mail: [eliadvisor@umich.edu](mailto:eliadvisor@umich.edu) to make an appointment to speak with an advisor.

## Economics Department

### Economics (ECON) Open Sections

CAT#	Course Title	CR	PREREQ	LAB FEE	WL
Class #	CODE CMP SEC DAYS	TIME	LOCATION	INSTRUCTOR	OPEN SEATS
101	Principles Econ I	4.00	ADVISORY		
11259	P DIS 104 T	830-10AM	B856 EQ	Ferrero	14 Y
Rooms are still being assigned to Econ 101 discussion sections. Although some sections are larger than others during registration, no section will have more than 34 students once rooms are assigned. Your section number may change after we receive confirmation about the rooms, but the time and the day of your section and lecture will not change.					
11261	P DIS 106 M	4-530PM	1084 EH	Sun	3 Y
Rooms are still being assigned to Econ 101 discussion sections. Although some sections are larger than others during registration, no section will have more than 34 students once rooms are assigned. Your section number may change after we receive confirmation about the rooms, but the time and the day of your section and lecture will not change.					
30788	P DIS 109 T	4-530PM	373 LORCH	Wang	2 Y
Rooms are still being assigned to Econ 101 discussion sections. Although some sections are larger than others during registration, no section will have more than 34 students once rooms are assigned. Your section number may change after we receive confirmation about the rooms, but the time and the day of your section and lecture will not change.					
11255	A LEC 100 MW	10-1130AM	140 LORCH	Kossoudji	
Students will be auto-enrolled in Section 100 when they elect Sections 101-111. This class has a scheduled evening midterm on Wednesday, February 22nd. If you will be unavailable to take this exam, you should not register for this section of Econ 101.					
Rooms are still being assigned to Econ 101 discussion sections. Although some sections are larger than others during registration, no section will have more than 34 students once rooms are assigned. Your section number may change after we receive confirmation about the rooms, but the time and the day of your section and lecture will not change.					
11272	P DIS 207 T	4-530PM	173 LORCH	Hillard	1 Y
Rooms are still being assigned to Econ 101 discussion sections. Although some sections are larger than others during registration, no section will have more than 34 students once rooms are assigned. Your section number may change after we receive confirmation about the rooms, but the time and the day of your section and lecture will not change.					
11273	P DIS 208 M	4-530PM	B856 EQ	Fenton	1 Y
Rooms are still being assigned to Econ 101 discussion sections. Although some sections are larger than others during registration, no section will have more than 34 students once rooms are assigned. Your section number may change after we receive confirmation about the rooms, but the time and the day of your section and lecture will not change.					
11265	A LEC 200 MW	1130-1PM	140 LORCH	Caldwell Jr	
Students will be auto-enrolled in section 200 when they elect sections 201-211.					
Rooms are still being assigned to Econ 101 discussion sections. Although some sections are larger than others during registration, no section will have more than 34 students once rooms are assigned. Your section number may change after we receive confirmation about the rooms, but the time and the day of your section and lecture will not change.					
There will be three midterms for this course: Wednesday February 15, 8 - 10PM; Thursday March 16, 8 - 10PM; and Thursday April 13, 8 - 10PM. All exams must be taken on the assigned dates and times. If you cannot take these exams as scheduled, please register for an open section in another lecture of Econ 101.					
No overrides will be issued for this class.					
11277	A LEC 300 TTH	10-1130AM	140 LORCH	Dudley	
Students will be auto-enrolled in section 300 when they elect sections 301-311.					
Rooms are still being assigned to Econ 101 discussion sections. Although some sections are larger than others during registration, no section will have more than 34 students once rooms are assigned. Your section number may change after we receive confirmation about the rooms, but the time and the day of your section and lecture will not change.					
Rooms are still being assigned to Econ 101 discussion sections. Although some sections are larger than others during registration, no section will have more than 34 students once rooms are assigned. Your section number may change after we receive confirmation about the rooms, but the time and the day of your section and lecture will not change.

## History Department

### History (HISTORY) Open Sections

--IT IS CRITICAL THAT STUDENTS ATTEND CLASSES FROM THE BEGINNING OF THE TERM. EVEN THOUGH STUDENTS MAY BE REGISTERED OFFICIALLY FOR A COURSE, THE DEPARTMENT MAY GIVE AWAY PLACES IN A COURSE IF STUDENTS DO NOT ATTEND THE FIRST TWO COURSE MEETINGS.  
 --ALL STUDENTS MUST TAKE ACTION THROUGH THE REGISTRATION PROCESS TO MAKE SURE THAT THEIR OFFICIAL COURSE SCHEDULES MATCH THE COURSES THEY ARE ATTENDING.  
 --100 THRU 500 LEVEL 4 CREDIT HOUR COURSES ARE 4 CREDIT HOURS FOR UNDERGRADUATES ONLY.  
 --SURVEY AND INTRODUCTORY COURSES ARE FOR FRESHMEN AND SOPHOMORES.  
 --SURVEY COURSES REQUIRE BOTH LECTURE AND DISCUSSION SECTIONS. DISCUSSION SECTIONS DO NOT MEET UNTIL AFTER FIRST LECTURE.

## Mathematics Department

### Mathematics (MATH) Open Sections

---MATH DEPARTMENT POLICY REQUIRES THAT STUDENTS ATTEND BOTH OF THE FIRST TWO CLASS MEETINGS (OR NOTIFY THE INSTRUCTOR IN ADVANCE OF THEIR ABSENCE) OR THEY MAY BE DROPPED FROM THE CLASS.  
 ---ALL STUDENTS MUST TAKE ACTION THROUGH THE REGISTRATION SYSTEM TO MAKE SURE THAT THEIR OFFICIAL SCHEDULE OF COURSES MATCHES THE COURSES THEY ARE ATTENDING.  
 ---MATHEMATICS DEPARTMENT POLICY LIMITS STUDENTS TO A MAXIMUM OF 4 CREDITS FOR COURSES NUMBERED BELOW 112.

## Romance Languages Department

### French (FRENCH) Open Sections

--DROP POLICY: A student who misses either of the first two meetings of any course offered by the Department of Romance Languages may be dropped from the course for non-attendance.  
 --PLACEMENT TEST: Students with any previous study of French must take the French placement test before enrolling. Placement test dates are online at:  
[www.lsa.umich.edu/rll/undergraduate/languageplacement/languageplacementtests](http://www.lsa.umich.edu/rll/undergraduate/languageplacement/languageplacementtests).  
 This does not apply to students enrolling in French graduate-level courses.

Human Neuroanatomy --- This course focuses on key structural aspects of the human brain with an emphasis on function. We will make heavy use of clinical case studies largely in small working groups to uncover how and why symptoms linked to neurological disorders exist. For these case studies, 3-dimensional visualization tools and hands-on examination and limited dissections of human brains will be used to highlight the elegant anatomical relationships of sensory, motor, emotional, and cognitive systems.

Intro to Improv									
This course provides an introduction to the practice of dance improvisation. Students will develop basic skills to create movement themselves and consider how to craft images and dances in the moment both individually and in groups. Through movement exercises, explorations in space, readings, journal writings, and discussions, this class will introduce both trained and new movers that improvisation can be a fun, exciting journey full of play, innovation, and reflection.									
21712	P LAB 013	F	10-12PM	DANCE STUDIO D	Lehmker			12	Y
Intro to Mod/Cont Floor Work									
In this introductory technique class derived from Bartenieff and release inspired training, we will be looking to imagine the floor as a mobile surface to interact with. Each class will begin with a full-bodied warm-up that utilizes elements of improvisation to engage and awaken the senses. We will progress through explorations of levels and textual dynamics that establish/re-enforce the dancers' relationship to the floor. The class will steadily build in physicality and complexity towards more challenging floor phrases as the semester advances.									
22574	P LAB 014	F	2-4PM	DANCE STUDIO B	Funn			6	Y
Contact Improv									
This course is designed to allow movers from all backgrounds to engage in a physical practice that creates awareness of the self, while embarking on shared partnered experience. This class will start with the fundamental workings of Contact Improvisation (CI). With a background in martial arts, the instructor will draw from these motifs to provide platforms into shared movement works. The culmination of the work will result in a performance to share these physical conversations.

Business of Chamb. Mus.

Winter 2017: Meets 1/4, 1/11, 1/18, 1/25, 2/1, 2/15, 2/22 and 1/28 (9 am - 12 pm).

Chamber music provides vibrant and rewarding career paths for individuals and ensembles, but too often goes unexplored because musicians lack the skills and knowledge needed. This course fills this gap by exploring chamber music outside of the rehearsal room, providing students with the insights and tools needed to jumpstart sustainable career in professional chamber music. Students will learn an entrepreneurial approach to small ensemble music making, including such topics as: for-profit and non-profit business models, the importance of branding, DIY marketing, financial planning, legal pitfalls in the field, fundraising, and how to engage with audiences, managers, and granting organizations. The course will be led by clarinetist, U-M alumna, and award winning chamber musician Kari Landry, who is one of the founding members of the nationally acclaimed Akropolis Reed Quintet. She also holds a masters degree in Arts Management and serves as Marking and Programs Manager for the Ann Arbor Summer Festival, presenting 150+ concerts and events annually in the heart of Ann Arbor. Class meetings will include periodic visits from additional members of the Akropolis Reed Quintet and a weekend intensive on January 28. Coursework will include in-class activities, short presentations, and several written assignments designed to help students create personalized building blocks to construct their own professional goals. At course's end, participants will walk away with a detailed business plan, outlining their path to success as an entrepreneurial chamber musician.

Grant Writing for Artists

Grant writing can be an integral tool for performing artists to create and support their art. In this course, you will explore the kinds of grants available to performing artists, and learn how and where to look for potential funders that match your needs. You'll learn how to create a budget for an artistic project, how to inquire about funding from potential donors, how to organize and write a grant proposal, and how to assemble a proposal package with strong and pertinent supporting documents. We will look at ways to make your grant proposal stand out from the pack, and what to learn when a grant request is declined or accepted. Finally, we'll discuss how to write thank-you letters and funding reports, and how to develop long-term relationships with funders in your community, corporations, private foundations, and government agencies. In this mini course, you will develop a suite of small projects and exercises geared toward writing successful grants. Students will complete the course with a full grant proposal ready to send to a potential funder.

Inside Music&VidTech Industry

Inside the Music and Video Technology Industry explores how leading audio, music, and video technology companies, such as Sonos, Adobe, Smule, Dolby, iZotope, Universal Audio, and Avid, bring products from idea to market. We examine best practices, roles, day-to-day responsibilities, desired skill sets, and department/team function. This is an online class taught by Jay LaBoeuf (Stanford University) with support from U-M PAT faculty. Jay will visit U-M to meet with class members and participants will be assigned a U-M alumni mentor. There is a required \$50 registration fee.

After completing Careers in Media Technology, learners should...

- ? Know the leading companies involved in the media technology industry.
- ? Understand the goals, responsibilities, and daily life of a software engineer, UI/UX designer, product manager, and program manager in industry.
- ? Understand how teams collaborate to conceive, design, and commercialize new software and hardware products.

Understand what hiring managers look for in new interns and full-time hires.

Perf. Career as Teach Artist

Winter 2017: Meets 1/14 and 2/18 from 10:00 - 11:00 am in 1350 Moore (Watkins) and on 1/28 and 1/29 9:00 am - 5:00 pm in 1380 Moore (Hankinson). Orchestras, dance companies, theatres, and presenters (such as our own University Musical Society) employ musicians, actors, and dancers both full-time and part-time as teaching artists. A teaching artist is a professional performer who works in educational settings to share the power and possibilities within their art form with audiences young and old. Such work may involve partnering with K-12 teachers to inspire creativity in the classroom or working collaboratively with audiences in an immigrant community, hospice, or teen center to help individuals connect their identities to the arts. For performers, a career as a teaching artist can provide a foundation for a vibrant and artistic professional life. In this new course, student performers will work with teaching artist trainers from the New York Philharmonic to learn about the philosophy and career trajectory of teaching artists, while developing skills to succeed in this field. An activity-based intensive, this course will center on a two-day weekend workshop taking place on Saturday, January 28, and Sunday, January 29 (from 9 am ? 5 pm), preceded by a one-hour intro class and followed by a one-hour reflection class on Saturday, January 14, and Saturday, February 18 (from 10 ? 11 am). Assignments will include light reading on the philosophy and practice of teaching artistry, and students will be encouraged to lay the groundwork for their own teaching artist projects. Students must be able to attend all sessions to receive full credit. Instructors are Hilary Easton (dancer/choreographer) and Richard Mannola (clarinetist) of the New York Philharmonic Teaching Artist Faculty, with support from the University Musical Society and EXCEL. The course will include a special visit by Inon Barnatan (piano) and Anthony McGill (clarinet).

Business of Chamb. Mus. Winter 2017: Meets 1/4, 1/11, 1/18, 1/25, 2/1, 2/15, 2/22 and 1/28 from 9:00 am - 12:00 pm. Chamber music provides vibrant and rewarding career paths for individuals and ensembles, but too often goes unexplored because musicians lack the skills and knowledge needed. This course fills this gap by exploring chamber music outside of the rehearsal room, providing students with the insights and tools needed to jumpstart sustainable career in professional chamber music. Students will learn an entrepreneurial approach to small ensemble music making, including such topics as: for-profit and non-profit business models, the importance of branding, DIY marketing, financial planning, legal pitfalls in the field, fundraising, and how to engage with audiences, managers, and granting organizations. The course will be led by clarinetist, U-M alumna, and award winning chamber musician Kari Landry, who is one of the founding members of the nationally acclaimed Akropolis Reed Quintet. She also holds a masters degree in Arts Management and serves as Marketing and Programs Manager for the Ann Arbor Summer Festival, presenting 150+ concerts and events annually in the heart of Ann Arbor. Class meetings will include periodic visits from additional members of the Akropolis Reed Quintet and a weekend intensive on January 28. Coursework will include in-class activities, short presentations, and several written assignments designed to help students create personalized building blocks to construct their own professional goals. At course's end, participants will walk away with a detailed business plan, outlining their path to success as an entrepreneurial chamber musician.

Inside Music&VidTech Industry Inside the Music and Video Technology industry explores how leading audio, music, and video technology companies, such as Sonos, Adobe, Smule, Dolby, iZotope, Universal Audio, and Avid, bring products from idea to market. We examine best practices, roles, day-to-day responsibilities, desired skill sets, and department/team function. This is an online class taught by Jay LaBoeuf (Stanford University) with support from U-M PAT faculty. Jay will visit U-M to meet with class members and participants will be assigned a U-M alumni mentor. There is a required \$50 registration fee.  After completing Careers in Media Technology, learners should... ? Know the leading companies involved in the media technology industry. ? Understand the goals, responsibilities, and daily life of a software engineer, UI/UX designer, product manager, and program manager in industry. ? Understand how teams collaborate to conceive, design, and commercialize new software and hardware products. Understand what hiring managers look for in new interns and full-time hires.

Perf. Career as Teach Artist Winter 2017: Meets 1/14 and 2/18 from 10:00 - 11:00 am in 1350 Moore (Watkins) and on 1/28 and 1/29 9:00 am - 5:00 pm in 1380 Moore (Hankinson). Orchestras, dance companies, theatres, and presenters (such as our own University Musical Society) employ musicians, actors, and dancers?both full-time and part-time?as teaching artists. A teaching artist is a professional performer who works in educational settings to share the power and possibilities within their art form with audiences young and old. Such work may involve partnering with K-12 teachers to inspire creativity in the classroom or working collaboratively with audiences in an immigrant community, hospice, or teen center to help individuals connect their identities to the arts. For performers, a career as a teaching artist can provide a foundation for a vibrant and artistic professional life. In this new course, student performers will work with teaching artist trainers from the New York Philharmonic to learn about the philosophy and career trajectory of teaching artists, while developing skills to succeed in this field. An activity-based intensive, this course will center on a two-day weekend workshop taking place on Saturday, January 28, and Sunday, January 29 (from 9 am ? 5 pm), preceded by a one-hour intro class and followed by a one-hour reflection class on Saturday, January 14, and Saturday, February 18 (from 10 ? 11 am). Assignments will include light reading on the philosophy and practice of teaching artistry, and students will be encouraged to lay the groundwork for their own teaching artist projects. Students must be able to attend all sessions to receive full credit. Instructors are Hilary Easton (dancer/choreographer) and Richard Mannoia (clarinetist) of the New York Philharmonic Teaching Artist Faculty, with support from the University Musical Society and EXCEL. The course will include a special visit by Inon Barnatan (piano) and Anthony McGill (clarinet).

### Open Mic Seminar

The Open Mic stage is a brave place where amateurs become professionals, and professionals become amateurs. Seasoned and resilient performers like Prince and Louis CK have been known to return again and again to Open Mics in order to restart from zero and develop brand new material in front of new crowds. Lots of folks focus intensely on their A-plans in school, though essential Eureka! moments often happen on the side stages (during fun, or during the sudden need for a Plan B).

This class will help develop your skills as a performer (solo and accompanimental), composer/arranger, and leader/follower. Stage management skills, rehearsal skills, adaptability, interdisciplinarity, ensemble building, and audience building will all be brought into focus. Each class will be a performance/feedback session, and each participant will be expected to experiment with new creative and collaborative avenues throughout the term. Each class will be 5-6 performances (15 min each) & discussion

### Each enrollee must:

- bring a guest audience member to class on days when you perform
- perform 4 times/semester (2x solo, 2x leading a group)
- perform 4 times/semester as accompanist for someone else's performance
- do 4 stage management services (to learn to help run the show and support the scene)
- mix up performances - follow new directions each time, try different instruments, styles, etc., and be willing to learn to adapt to unexpected twists of plan

Enrollees are welcome to bring guests performers to join their performance.

Beethoven Quartets							
This seminar combines the reading of scholarly monographs and articles from the last ten years in ethnomusicology with discussions about the field that range from theoretical to pedagogical concerns. The course is directed at doctoral students with a serious interest in ethnomusicology (including specialists and those from other disciplines) and involves copious reading, analytical discussions, class presentations, and a final paper.

The Amplified Guitar							
This graduate seminar will consider the amplified guitar from a variety of perspectives. As a group and at the beginning of the term, members will cover fundamental historical and technical topics, including the instrument's history beginning with the era of acoustic recording, through the invention and commercial production of the electromagnetic pickup and amplifiers, up to today's designs; instrument manufacture, marketing, and sales; analog and digital processing and the myriad ways electric guitar signals are reshaped and augmented (electric guitarists will be encouraged to discuss their gear, solid-state and/or tube amplification provided in the classroom); key recordings, recordists, styles, and approaches; guitarists on television and in film. As the term continues, the seminar will focus on the cultural meaning of the amplified guitar, its music and players. Seminar members will be encouraged to develop innovative topics and approaches, and conduct original research. Subjects of exploration are impossible to anticipate, but might touch on matters of virtuosity, affect, fandom, virtual learning (YouTube and							

CAT#	Course Title	CR	PREREQ	LAB FEE						
Class #	CODE CMP SEC	DAYS	TIME	LOCATION	INSTRUCTOR			OPEN SEATS	WL	

online tutorials), the amplified guitar in global contexts, the material culture or iconography of the electric guitar.

Students will be expected to make regular and useful contributions to the work of the seminar and undertake original, interdisciplinary research. They may anticipate substantial reading, music-listening, and viewing assignments; two oral presentations and two papers (approx. 20 pp. each) due at midterm and the end of the semester. Should a waiting list form, the instructor reserves the right to determine admissibility.

Mus, Cult&Indigen Philippines

Music, Culture, and Indigeneity of the Philippines: This course provides a general survey on the musics of the Philippines and the diaspora, including the performance traditions of different indigenous peoples, religious and ritual music, popular music, and music in diasporic communities (mainly in the United States). Lectures, classroom, and online work will cover a variety of indigenous genres while also taking into account the intersections between maritime Southeast Asia and the West. Hands-on participation music workshops and guest presentations will engage the students in understanding the theoretical concepts when learning and performing traditional Philippine ensemble music. Prior music experience is not required.

Wellness for Performing Artist

This class is designed to introduce students in the performing arts to wellness topics and somatic practices with the aims of preventing injury, developing kinesthetic awareness and exploring the role of the expressive body as an integral component of performance. Active participation through movement and in-class performance are required.

Topics that will be addressed include performance anxiety, stress management, nutritional health, Yoga, Alexander Technique, Feldenkrais, and Laban Movement Analysis.

#### Inside Music&VidTech Industry

Inside the Music & Video Technology Industry explores how leading audio and music technology companies, such as Pandora, Adobe, Smule, Dolby, iZotope, Line 6, and Avid, bring products from idea to market. We examine best practices, roles, day-to-day responsibilities, desired skillsets, and department/team function. This online seminar is intended for all students considering full-time positions or internships in the music, audio, and video tech industry. No prior engineering background required. Topics include: software development in large organizations, UX/UI design, marketing, hardware development, product management, advanced technology and research, project management, sales, data and analytics, executive teams, and operations (HR, IP/patents). Online lectures available. Class will meet twice during 8 weeks. Online office hours include discussion and meetings with leading industry professionals.

In partnership with dozens of companies and industry mentors, we are breaking down how some of the greatest products were made, how these companies operate, and the roles and skills involved. Join us on this adventure - meet and interact with the leading companies in the music industry.

PHYSICAL SOLUTIONS IN THEATER								
This class will explore the act of original creation from multiple vantage points. We will commit to working together as an ensemble in order to devise and perform a physical theater work loosely based on texts, visual images, and conceptual ideas that are explored through abstraction, deconstruction, kinesthetic analyzes, embodied movement, special patterns, work with objects, and shape and design. The class will culminate in a public performance.

Journey Through Archetypes								
The archetypes are the essences of myths and legends from many diverse cultures. They are not fully developed characters but images, forms, voices, physicalizations and a few psychological elements or shards that will help to organize your being around a recognizable phenomena (archetype) and bring you to the starting point of full character development. In this course, we will be exploring breath and voice and its full energy potential.

Hip Hop Theatre								
This course will explore the theatrical genre known as Hip-Hop Theatre through: readings, class discussions, live performances, and devised art-making, culminating in the development and performances of Hip-Hop Theatre productions by the class. Defined as theatre that is developed using elements of Hip-Hop culture: DJ'in, Emceeing' (rapping), Breakdancing', Graffiti Art, Beatboxing' and Knowledge as the primary means of storytelling on stage. Hip-Hop takes these dynamic that have made this culture a worldwide phenomenon and fuses them with traditional theatrical devices in its attempt to reaffirm the power of the stage.

TOPSY-TURVY: THE VICTORIAN WORLD OF GILBERT AND SULLIVAN

CAT# Class #	Course Title CODE CMP SEC	DAYS	TIME	LOCATION	CR INSTRUCTOR	PREREQ	LAB FEE OPEN SEATS	WL
Created in London between 1871 and 1896, the comic operas of W. S. Gilbert (librettist) and Arthur Sullivan (composer) have been widely performed for more than a century. This course introduces students to the late nineteenth-century context of Gilbert and Sullivan's theatrical collaboration, focusing in particular on aspects of Victorian culture that they parodied through words and music.								
Each week we will read and discuss one of the 'Savoy' operas, mostly in chronological order, combining selected historical readings with analysis of literary, theatrical, and musical elements. We will also consider the award-winning film, 'Topsy-Turvy,' and attend a live performance presented by the University of Michigan Gilbert and Sullivan Society. Throughout the semester we will reflect on the critical and creative possibilities of parody.								
This course fulfills the Poetry requirement for English majors. It is open to students across all departments. Previous experience with performance is welcome, but not required. Course requirements include regular attendance and active participation in class, weekly short response papers, a longer critical essay (written in several drafts), a creative response, and a reflection on the final writing portfolio. No mid-term, no final exam.

# Public Policy

## School Of Public Policy

### Public Policy (PUBPOL) Open Sections

<b>300</b>	<b>Persuasive Policy Wr</b>	<b>3.00</b>						
32627	P R SEM 001 MW	1-230PM	1220 WEILL	Chimera		7		Y
<p>This course, structured as a seminar and writing workshop, intensively develops students' persuasive writing and critical reading skills through abundant practice and feedback. Weekly writing assignments and exercises will focus on every stage of the writing process, from brainstorming and research through drafting and revision, in three vital areas of political writing: the short opinion piece, the policy memorandum, and the polemical essay. We will read and analyze a wide variety of examples from traditional print and online media, from journalistic, government, and academic sources. We will also explore ethical considerations of policy writing, considering the ways in which our rhetorical choices—tone, word choice, even syntax—construct our subjects and frame contentious issues for target audiences.</p>								
<p>THE COURSE IS OPEN TO STUDENTS OUTSIDE THE FORD SCHOOL CONDITIONAL ON PERMISSION OF THE INSTRUCTOR AFTER SUBMISSION OF A WRITING SAMPLE. Non-Ford students should contact the instructor via email at bchimera@umich.edu to inquire.</p>

<p>Facilitating Dialogue</p> <p>This is a short introductory course module in facilitating complex and difficult dialogic moments of engagement in the social, professional and institutional spheres of the public arena. Its purpose is to provide the possibility for actual engagement with tense social issues and phenomena bedeviling complex societies. It will briefly explore the historical and theoretical contexts, which give rise to sometimes painful and traumatic moments that filter in and color what may otherwise be perceived as simplistic conversations and interactions. It will introduce students regardless of perceived color, gender, class, or ethnic identity categorization to the necessity for transcending their subject locations. In order to facilitate, mediate, and engage in trans-formative moments of learning, dialogue, leadership and communal capacity building with due regard of difference and the respect of mutuality.</p>								
32127	P R SEM 505 F	1130-1PM	1230 WEILL	Vieux		8		Y
<p>NGOs in Policy Formation</p> <p>Taught by Towsley Policymaker in Residence Hardy Vieux (Legal Director at Human Rights First)</p> <p>This class will explore the role of non-governmental organizations in formulating policy. Globally, there are currently some 3.7 million NGOs in operation. Given this proliferation and the ostensible influence of NGOs, this class will delve into what makes an NGO unique from other institutions engaged in policy formulation and how that role impacts the policy-making process. We will explore the core activities of NGOs through the lens of current policy debates, such as the global refugee crisis and the war on terror. The class seeks to make students aware of the myriad questions and nuances that beset NGOs and the array of strategies and tools available to NGOs to impact policy.</p>

CAT#	Course Title					CR	PREREQ	LAB FEE		
Class #	CODE CMP SEC	DAYS	TIME	LOCATION	INSTRUCTOR			OPEN SEATS	WL	

The workforce of the 21st century is increasingly diverse. Productive managers cannot afford to ignore this diversity, and can benefit greatly from it. Yet we are often nervous about discussing and embracing issues of diversity, equity, and inclusion and many otherwise strong leaders are blind to the ways their own biases might affect their teams. In this module, students will learn about potential blind spots such as unconscious bias and its effects on employee hiring and retention, how the desire to avoid negative emotions might get in the way of productive management, and the dangers of groupthink, as well as learning strategies to avoid or address these problems. The readings will draw on empirical research from social psychology and organizational behavior, as well as real-world examples of diversity issues in the workplace.

Policy & Mgmt in the Nonprofit										
The nonprofit sector has emerged as one of the cornerstones of American society, and yet remains very much a work in progress. The "third sector" faces unique and evolving pressures in areas such as social enterprise, philanthropy, mission focus, performance measurement, sector blur, and more. In our class we will examine how some of these broad issues intersect with the day to day operation of nonprofit organizations. By considering sector tensions from a management perspective, ultimately we will each develop our own informed view on the appropriate role and function of the nonprofit sector within society. Future policy makers and nonprofit managers alike will enhance their ability to formulate positions on policy issues that impact the sector.

Cyber Conflict										
This course will examine how cyberspace, particularly the Internet, can serve as a tool, target, and source of conflict for both state and non-state actors. Topics include: power in cyberspace, state control over cyberspace, methods of cyber conflict, laws and ethics of cyber conflict, cyber warfare, infrastructure threats and vulnerabilities, cyber deterrence and defense, and cyber conflict strategy and challenges										
31802	P R LEC 303 TTH		1-230PM	1230 WEILL		Kabo		11		Y
Comp Law & Policy										
This class provides a foundational understanding of comparative law and selected foreign legal systems. The first part of the course is devoted to understanding the different families of law. We will discuss civil law, common law, socialist law, customary law, Islamic law and others. In addition, we will explore country specific examples. In the second part of the course, we discuss ways to approach comparative law, and explore how laws are compared. Both the first and second parts of the course lead into the third where we will use our knowledge to explore practical policy applications of comparative law: How can laws successfully be transplanted one from country to another? How can law be used to further development? How do different systems address religious differences? How are legal systems rebuilt after wars?

NGOs in Policy Formation										
Taught by Towsley Policymaker in Residence Hardy Vieux (Legal Director at Human Rights First)										
This class will explore the role of non-governmental organizations in formulating policy. Globally, there are currently some 3.7 million NGOs in operation. Given this proliferation and the ostensible influence of NGOs, this class will delve into what makes an NGO unique from other institutions engaged in policy formulation and how that role impacts the policy-making process. We will explore the core activities of NGOs through the lens of current policy debates, such as the global refugee crisis and the war on terror. The class seeks to make students aware of the myriad questions and nuances that beset NGOs and the array of strategies and tools available to NGOs to impact

Courts as Policy-Makers									
This course adopts the premise that judicial decisions and the legal strategies involved in those cases create a dynamic interaction between courts, legislatures, communities, legal advocacy groups, and the media. That interaction shapes how we think about equality, liberty, rights and justice, empowers or disempowers affected communities, and affects how we define and think about social justice issues. That interaction also affects the forums in which policy issues coalesce --state or federal courts or legislatures or the court of public opinion. We will look at several issues, likely reform efforts to improve public education, LGBT rights, and the Flint water crisis. Some familiarity with the court system is helpful. There will be several guest speakers, small group discussions, and two papers.

Course Description										
Traditional cooking methods in Sub-Saharan Africa are typically inefficient. Basic, hand built cook stoves can reduce firewood use by 50% improving forest health and reducing girl chores. Eco-Explorers will meet once a week during winter term in preparation for a 3 week June Design Build trip in Tanzania. Language and cultural preparation, test stove design build and design process documentation will be completed prior to the field component. The June trip will include a study tour to major wildlife park areas of Tanzania, a project site visit to a Peace Corps Volunteer and 2 weeks living with Masai families during the design / build process. Enrollment by application / permission of instructor.
