Data Analysis for Geoscientist

An introduction to data analysis and visualization for climate and space scientists and engineers. This is an upper-level undergraduate course focusing on fundamental data science, analysis, and visualization techniques, using Python with examples from space physics and climate science. No experience with Python is required but familiarity with programming is recommended.

Notes:							
graduate or senior undergraduates with a working understanding of cell and molecular biology, or consent of instructor							
Description:							
Engineering Approaches to Cancer Biology -- The course provides an introduction to cancer biology from an engineering and systems perspective. It provides a basic understanding of cancer biology including (but not limited to) cancer genetics, signal transduction, metabolism, angiogenesis, tumor microenvironment and the metastatic cascade, and discusses how new technologies and engineering approaches improve our understanding of the tumorigenesis process and our ability to diagnose or treat cancer. The course material covers three topics: (1) biological concepts and cancer biology, (2) engineering and systems approaches to the study of these concepts, and (3) engineering solutions to cancer diagnostics and treatment.

Data Mining in Transportation						
Data Mining in Transportation						
This course covers topics in predictive data analytics where computers are enabled to learn hidden structures from data without being explicitly programmed. The focus of the course is on supervised (classification and regression) and unsupervised (clustering) learning methods. Examples are drawn from the field of transportation systems.

Engr Proc Mod & Risk Analysis
Engineering Process Modeling and Risk Analysis

Engineering systems, models and simulation. Probabilistic aspects of simulations. Data collection and selection of input distributions. Design of experiments, input and output analysis and interpretation. Random number generators, variate and process generation. Monte Carlo simulation models. Activity cycle diagrams. Cyclone-EZStrobe-Stroboscope networks. In-depth examination of discrete-event simulation systems. Variance reduction techniques. Simulation and optimization. Parametric analysis. Single system output analysis and multiple system comparison.

Hands-on practical model development using Stroboscope, EZStrobe, ProbSched, Risk-Solver-Platform, Simtools, and YASAI. Animations using Proof-Animation, Vita2D and Vitascope++.

Electrical Engr & Computer Sci

Electrical Engineering And Computer Science (EECS)

IT IS CRITICAL THAT STUDENTS ATTEND CLASSES FROM THE BEGINNING OF THE TERM. EVEN THOUGH STUDENTS MAY BE REGISTERED OFFICIALLY FOR A COURSE, THE ELECTRICAL ENGINEERING AND COMPUTER SCIENCE DEPARTMENT MAY GIVE AWAY A STUDENT'S PLACE IN A CLASS IF THEY DO NOT ATTEND THE FIRST WEEK OF LECTURES AND LABS/DISCUSSIONS (AS APPROPRIATE) FOR ANY EECS COURSES.

AT THE SAME TIME, THE EECS DEPARTMENT IS NOT OBLIGATED TO WITHDRAW STUDENTS OFFICIALLY FROM THE COURSE, EVEN THOUGH THE STUDENT HAS BEEN INFORMED THAT HIS/HER PLACE IN A COURSE HAS BEEN TAKEN AWAY. STUDENTS ARE RESPONSIBLE FOR THE ACCURACY OF THEIR SCHEDULES AND MUST BE SURE THAT ALL DROPS ARE PROCESSED THROUGH THE REGISTRATION SYSTEM DURING THE NORMAL DROP/ADD PERIOD.

Entrepreneurship (ENTR)								
390	Spec Topics Entr							
28004	A LEC 005	W	1230-130PM	AUD CHRYS				2.00-3.00
								Shtein

Intro to Entrepreneurial Des

* Students from ALL schools and colleges may take this course.

* Syllabi and workload information and other ENTR courses can be found at cfe.umich.edu/courses

* Questions as to whether this course will count toward your degree or the Entrepreneurship minor should be directed to InnovateBlue or your home department.

* YOU CANNOT DIRECTLY ENROLL IN THIS LECTURE. You must pick a lab first (ENTR 390.007 - 010).

====

Are you:

- * Designing doorknobs for a Mars colony?
- * Tired of browsing crappy university web pages?
- * Inventing the best app ever for the Nest or the Apple Watch?
- * Have ideas and want to prototype them before the next pitch to investors?
- * Wondering why you aren't going to an online college instead?

Entrepreneurial Design is a cross-disciplinary course for current and aspiring designers, hackers, and makers. This gateway entrepreneurship course allows students to build foundational knowledge of entrepreneurial design with the opportunity to apply these skills in a hands-on lab (ENTR 390.008 - 010).

Learning Objectives: Students will train in patterns of thought that help them anticipate and drive innovations in technology, business, policy; train in advanced and powerful inventing / problem identification and solving methods; learn to identify and meet customer/user needs and wants (i.e.: building stuff you and others actually want to use and buy); obtain practical ?building? skills in a specific digital, physical, or combination platform (i.e.: showing how something works is more effective than just telling stories about it).

26407	P W LAB 008	F	1-4PM	1321 DC	Alexander-Adams, Shtein
-------	-------------	---	-------	---------	-------------------------

Hardware/Coding, IoT

* Students from ALL schools and colleges may take this course.

* Syllabi and workload information and other ENTR courses can be found at cfe.umich.edu/courses

* Questions as to whether this course will count toward your degree or the Entrepreneurship minor should be directed to InnovateBlue or your home department.

* STUDENTS ARE AUTO-ENROLLED IN LECTURE WHEN THEY ELECT THIS LAB.

====

In this lab, you'll design, prototype, and make Internet of Things (IoT) devices to learn the basics of micro controllers in a hands-on way. You'll also collaborate with others across disciplines to develop your own hardware- and IoT-based entrepreneurial ideas.

Learning Objectives: Students will: develop a basic understanding of coding and electronics; utilize sketching to express, develop, and communicate design ideas; create functional prototypes through engagement in the design process; employ an iterative design approach, integrating concepts from the lecture to develop their final projects; apply a variety of methods for documenting and communicating the progress of their designs.

26408	P W LAB 009	T	1-4PM	1401 DC	O'Grady, Shtein
-------	-------------	---	-------	---------	-----------------

3D Printing/Prototyping

* Students from ALL schools and colleges may take this course.

* Syllabi and workload information and other ENTR courses can be found at cfe.umich.edu/courses

* Questions as to whether this course will count toward your degree or the Entrepreneurship minor should be directed to InnovateBlue or your home department.

* STUDENTS ARE AUTO-ENROLLED IN LECTURE WHEN THEY ELECT THIS LAB.

====

In this lab, you'll learn how to operate and design for 3D printing machines such as the PrintrBot Play and Form 2. You'll learn CAD using Autodesk Fusion 360 and how to integrate 3D scan data into your designs. You'll also learn how to use various Rapid Prototyping and Manufacturing (RP&M) applications such as slicers and inspection tools.

Learning Objectives: Students will develop the fundamental skills to operate and design for the additive manufacturing process (3d printing); learn how to operate various types of 3d printers to include the PrintrBot Play, and Form 2; learn AutoDesk Fusion 360, how to operate the Nextengine 3D Laser Scanner, and how to incorporate 3d scan data into one's design; utilize various Rapid Prototyping and Manufacturing (RP&M) applications to include slicers, and inspection tools.

26409	P W LAB 010	M	12-3PM	1401 DC	O'Malley, Shtein
-------	-------------	---	--------	---------	------------------

Virtual Reality

* Students from ALL schools and colleges may take this course.

* Syllabi and workload information and other ENTR courses can be found at cfe.umich.edu/courses

* Questions as to whether this course will count toward your degree or the Entrepreneurship minor should be directed to InnovateBlue or your home department.

* STUDENTS ARE AUTO-ENROLLED IN LECTURE WHEN THEY ELECT THIS LAB.

=====

In this lab, you'll learn how to develop virtual reality content for the Oculus Rift and MIDEEN using Unreal Engine and 3D Studio Max. You'll also be introduced to asset creation (3D modeling with 3D Studio Max) and scene assembly / functionality by bringing assets into the Unreal Engine & creating interactive experiences through Unreal's Blueprint system. At the end of the class you'll be capable of developing virtual reality experiences, simulations, and tools to address real-world problems.

Learning Objectives: Students will have an understanding of how to generate digital content for Virtual Reality platforms; be knowledgeable on versatile file formats, content pipelines, hardware platforms and industry standards; understand methods of iterative design and the creation of functional prototypes using this medium; employ what is learned in the lecture section of this course to determine what is possible, what is marketable, and what are the various distribution methods available within this platform; become familiar with documenting their design process and also pitching their ideas to others, receiving and providing quality feedback.

26413 P W LEC 011 M 6-8PM 1024 FXB Habeger

E-Commerce Entrepreneurship

* Students from ALL schools and colleges may take this course.

* Syllabi and workload information and other ENTR courses can be found at cfe.umich.edu/courses

* Questions as to whether this course will count toward your degree or the Entrepreneurship minor should be directed to InnovateBlue or your home department.

=====

In this course, you'll learn how to start your own profitable business selling consumer products online. We'll also cover the potential pitfalls to stay away from and analyze other e-commerce businesses.

Learning Objectives: Students will be able to present a turnkey business with a functioning website, product photos/videos, sourcing plan, shipping/fulfillment plan, and advertising plan.

26595 P W LEC 012 M 4-6PM B1570 BUS

Digital Product Design

* Students from ALL schools and colleges may take this course.

* Syllabi and workload information and other ENTR courses can be found at cfe.umich.edu/courses

* Questions as to whether this course will count toward your degree or the Entrepreneurship minor should be directed to InnovateBlue or your home department.

=====

In this course, you'll learn the total end-to-end process of discovering a digital product need, prototyping a digitized product and getting feedback to relentlessly improve it. In doing so, you'll be a part of creating the next generation of products that disrupts the economy and reinvents the ways we live - from how we learn and exercise, to how we socialize and get around.

Learning Objectives: Students will learn how to: use design thinking to discover problems worth solving, generate and prototype solutions, and test with real users; design own product(s) by creating wireframes, interactions, and visual designs; use typography, color, shape, space - and industry-standard tools like Sketch, Invision, etc - to build designs that are attractive, simple, and functional; solicit constructive feedback, critique design work, and substantiate criticism; discuss topics in the design world, including usability, user experience design, user interface design, and design research.

26624 PI LEC 013 T 4-6PM 1690 BEYSTER McGuire, Sick

TechLab MCity

* Students from ALL schools and colleges may take this course.

* Syllabi and workload information and other ENTR courses can be found at cfe.umich.edu/courses

* Questions as to whether this course will count toward your degree or the Entrepreneurship minor should be directed to InnovateBlue or your home department.

=====

In this course, you'll be responsible for completing an open-ended autonomous vehicle or mobility project (assigned by a company in the autonomous vehicle/mobility space), and as such gain experience in developing cutting edge technology for an early stage startup.

To apply go to <http://cfe.umich.edu/techlab-mcity/>

Learning Objectives: Students will know how to recognize ambiguity, become comfortable with it, and use project management techniques to plan for the unexpected; utilize project management tools, techniques, and skills; understand assigned company's technology and how it creates value for a customer segment; gain exposure to

entrepreneurship and its role in solving big problems; align resources for effective project implementation; appreciate organizational dynamics, communication strategies and stakeholder motivations; Identify and utilize key performance metrics for project success; learn to assume responsibility for matters of great importance to assigned company; begin to make transition from student to professional engineer; engage in collaborative learning; immerse themselves in a startup that is developing cutting edge technology for the transportation industry; lead technical and strategic discussion on steps required to achieve technical milestones; discuss a Tech Lab company's work during class discussion and how it relates in the context of class.

407	Entrepreneurship Hr					1.00		
20451	P W SEM 001	F	1230-130PM	STAMPS	Gibson, Gordon			

* Students from ALL schools and colleges may take this course.

* Syllabi and workload information and other ENTR courses can be found at cfe.umich.edu/courses

* Questions as to whether this course will count toward your degree or the Entrepreneurship minor should be directed to InnovateBlue or your home department.

====

In this course, you'll be exposed to disruptive, influential and respected entrepreneurs, venture capitalists and business leaders and learn about their personal experiences founding, financing and managing a startup venture.

This seminar series is designed to expose students to entrepreneurship through interaction with experienced entrepreneurs, business leaders, and venture capitalists as well as individuals involved in emerging business models, new venture creation, and technology commercialization. While covering a broad set of engineering disciplines, guest speakers will share their knowledge on the latest, most diverse practices on legal, financial, and other innovation issues. The lectures include leading entrepreneurs and executives, technology innovators, experts from the financial markets, and others who support the entrepreneurial infrastructure. Following these seminars, students will be able to meet the guest speakers along with other members of the entrepreneurial community.

408	Patent Law					1.00		
23593	P RW LEC 001	T	6-8PM	1024 FXB	Fidler			

* Students from ALL schools and colleges may take this course.

* Syllabi and workload information and other ENTR courses can be found at cfe.umich.edu/courses

* Questions as to whether this course will count toward your degree or the Entrepreneurship minor should be directed to InnovateBlue or your home department.

====

In this course, you'll gain an overview of intellectual property (IP) law with a focus on patent law. You'll learn the fundamentals and leave the class able to identify patentable ideas and possible infringement issues in order to create an IP strategy.

Inventors and entrepreneurs have four concerns related to patent law:

1. protecting inventions during product development
2. determining invention patentability
3. avoiding infringement
4. leveraging a patent as a business asset

This course addresses these concerns through the application of case law and business cases to an invention of a student's choice.

* Questions as to whether this course will count toward your degree or the Entrepreneurship minor should be directed to InnovateBlue or your home department.

====

In this course, you'll work in teams to learn how to: (1) identify an innovative idea, (2) evaluate whether your idea will be successful, (3) operate and run a company to bring your idea to life, and (4) persevere and dedicate yourself to your venture in good times and bad.

Learning Objectives: Students will take a team based approach, grouped together with someone who has already identified a basic idea or innovation to work on (trait 1); The instructor will provide students a framework to evaluate the idea (trait 2). Whether simulating a venture capitalist, entrepreneur, or corporate employee, this process is the first step in determining if the idea has enough merit to further pursue as a business or investment; This framework will also help you to communicate the idea (trait 3) through providing a final presentation of your findings; Owing to the compressed timeframe of this short-course, students will get a sense of the speed at which most entrepreneurs are required to operate. This intense effort will give students a sense of the dedication (trait 4) great entrepreneurs must have.

=====

In this course, you'll learn how to dramatically simplify the business creation process by radical prioritization, identifying good opportunities and learning when to walk away from a bad one, and learning that it is possible, and actually very common, to be a moderately successful non-famous entrepreneur.

It's hard to start a company, but it doesn't have to be complicated. This course dramatically improves your odds of starting a viable business by providing a framework for identifying large, attractive opportunities. Every student will leave with a viable business opportunity to pursue and a set of valuable and repeatable skills that will be an asset in any entrepreneurial setting.

In this course, you'll learn about the various types of compensation, funding, and ownership (CFO), from 100% investor-owned to 100% employee-owned. You'll look at CFO from the perspective of an employee, founder, and investor, and learn the trade offs of ownership, stock options, and valuation to know how you and others should be fairly compensated.

Learning Objectives: Students will develop the critical thinking skills and analytical frameworks necessary to grasp the trade-offs of equity and employee ownership as it pertains to both them personally and to the business. Students should also be able to select the appropriate corporate structure for a variety of ventures, negotiate and establish basic shareholder governance, calculate capitalization tables, and estimate the value of an entrepreneurial venture. Students will also learn how to make informed tactical and strategic decisions around the efficient and effective and deployment of equity, and how to best negotiate for that equity from an employee's perspective.

In this course, you'll learn intellectual property (IP) strategies for new ideas and startups, including barriers to entry for competitors and infringement risk reduction. Topics include IP procurement, technology transfer, due diligence, and preparing for and avoiding litigation. You should have your own research to apply what's learned in the class.

Learning Objectives: Students will leave this course with a solid understanding of: 1. The difference between holding IP rights and freedom to operate; 2. For the major types of IP (patents, copyrights, trademarks, and trade secrets), what rights they include, how to obtain those rights, and how to avoid unnecessarily losing those rights. 3. How to use IP to protect a competitive advantage in a target market. 4. How to identify and address risks related to IP infringement. 5. How to avoid common IP stumbling blocks for startups, including: selecting a name, securing ownership of IP from the creators; the dangers associated with past employment. 6. The basic aspects of major legal milestones for an early-stage technology venture, such as incorporation and financing. 7. How IP (and other early-stage legal decisions) align with a company's business model and strategy.

Do people sometimes or often surprise, irritate, or enrage you? Looking back over the last year, can you think of a time you ?lost control? or would like a ?do over?? By building your self awareness and Emotional Intelligence, you can gain insight, self control, and produce consistently positive results for yourself and others.

Theories of leadership will be discussed and unpacked, with the intent of more fully understanding sources of leadership power and the positive and negative aspects of various leadership styles. At the interplay of these themes is the concept of the dynamic, optimized function of a high-performing team - the creation and maintenance of which lies at the heart of most business success. Characteristics of such teams, including visionary leadership, communication, and passion will be reviewed in detail. Vital interpersonal skill sets such as questioning, providing feedback, and mentoring will be defined and developed in terms of best available research and practices. Moving beyond the initial phase of theory and interpersonal awareness, the course will also require students to apply their developed understanding to various case studies, scenarios, and projects. While not focusing explicitly on business practices and entrepreneurial activities, the entire course will be grounded in this field and will rely heavily on tying in the real world experiences of students and instructor to maximize the future applicability of what is learned.

In this course, you'll be guided through the Design Thinking process 3 times in order to develop an in-depth understanding of how to create empathy with users and create solutions that work and truly resonate. You'll also learn how to clearly communicate your ideas and give constructive feedback to each other.

Learning Objectives: The course's objectives for its students will be:

- A paradigm shift- to learn about other ways of thinking and principles that can pivot their approach to viewing and reacting to the world.

- Defining creativity- to create a working definition so that the students can achieve a clearly identified goal. ID your personal creative style via discovering what you are most enthusiastic about and what types of endeavors make you excited to create.

- Discuss methods and approaches that contribute to individual, team and organizational creativity- how you can bring down barriers to creative thinking and the importance of attitude and positive affirmations.

- Develop a skill set and program of continuing study and practice that develops creative mentors, practices and environments.

- Gain confidence in your creative talent.

- Learn the importance of consumer / audience qualitative research and understanding in the design process.

- Develop a working knowledge of the design thinking process.

- Practice problem framing and solution analysis to help with organizational design.

CAT#	Course Title					CR	PREREQ	LAB FEE
Class #	CODE CMP SEC	DAYS	TIME	LOCATION	INSTRUCTOR			

- Learn how to apply the design thinking process to build solutions and innovations.
- Expand creative ability and increase productivity and happiness by learning about obstacle removal in creative practice.

- Explore team building exercises and processes with the hope that there will be a resulting change in attitude--that our thoughts and actions are not in isolation. Partnership and community are critical to both creative living and design success.

Materials Science & Engineering

Materials Science Engineering (MATSCIE)

220	Intro Mat & Man	4.00	ENFORCED
10831	A R LEC 100 MWF	1130-1230PM	AUD CHRYS Wynarsky
Structure, properties, and processing relationships in engineering materials. This section is particularly well-suited for Aerospace and NERS students (minor added emphasis on composites and radiation effects on materials).			
10832	P R DIS 101 TH	1130-1230PM	3427 EECS
10833	P RW DIS 102 TH	1030-1130AM	1006 DOW
10834	P RW DIS 103 TH	130-230PM	1014 DOW
28044	P RW DIS 104 TH	1130-1230PM	3150 DOW
24142	P RW LEC 200 TTH	330-530PM	133 CHRYS Yalisove
This section of MSE 220 is a team based and project based version of the class where the first introduction to the material is NOT lecture, but rather annotated reading. Class time will consist of active learning activities. There will be three group projects in this class. Students will be required to purchase an electronic textbook via the Canvas site that will be live in December. The book will cost ~\$70 or ~\$55 for a rental and students will also be required to purchase a subscription to Learning Catalytics (\$12). There are no other fees for the course. Homework is graded for effort and honesty - not accuracy. Quizzes are graded by averaging a closed book, closed notes, individual effort, with an open book, open internet, group effort. You will be rewarded for hard work and honesty on homework and exams without the angst of 100% summative assessment. Do not purchase the book at this time. More information will be available on the following website: http://java.engin.umich.edu/220w18

Env Justice in Europe & US							
This seminar intends to examine communalities and differences in the perspectives on environmental justice in the U.S. and Europe. The seminar will be jointly led by Dr. Paul Mohai of the University of Michigan in Ann Arbor and Dr. Willi Haas of Alpen-Adria University in Vienna. Students and faculty from the two Universities will meet via teleconferencing (skype, etc.) for two hours, once per week, on Tuesdays starting March 7 and weekly through April 25.

Research in Sponsorship This course is an elective graduate course in sport management. The main goal of this course is to provide students with both a theoretical and an applied understanding of the values and limits to sponsorship-linked marketing. The course takes an interdisciplinary approach and treats sponsorship as a contributor to an overall communications platform. Most importantly, throughout this course, students will develop and conduct a sponsorship research that can address ongoing issues in the sponsorship industry.

Physical Education (PHYSED)

140	Beginning Swim				1.00		
13674	PD W LAB 001	MW	7-8PM	ARR	Starling		
Class will be held at CCRB in the Bell Pool. Students must register through the Kinesiology Community Programs (KCP) website (kines.umich.edu/community-programs) or in Rm 3064 CCRB and request an override. To drop/request override, contact kebwink@umich.edu . Little or no swim experience? This course is for you. You'll start with entering the pool and getting comfortable. You'll progress to front crawl, back crawl, elementary backstroke, breaststroke, sidestroke, and butterfly. And you'll learn jumping in, treading, and water safety. Goal: one length of the pool. Goggles recommended. Attendance in at least one of the first two classes is mandatory for evaluation or you may lose your spot in class to those on a waitlist. No enrollments are accepted after the class meets a third time.

141 Begin Swim II 1.00 ADVISORY

14811 PD W LAB 001 MW 8-9PM ARR Starling

Class will be held at CCRB in the Bell Pool. Students must register through the Kinesiology Community Programs (KCP) website (kines.umich.edu/community-programs) or in Rm 3064 CCRB and request an override. To drop/request override, contact kebwink@umich.edu. Beginning Swim II is for students who are already comfortable in the water and who can swim across the pool (the short way). The course works on building endurance and improving technique in freestyle, backstroke, elementary backstroke, breaststroke, sidestroke, butterfly, diving and treading water as well as water safety. Flip turns and other activities will be offered as skills advance. Goggles recommended. Attendance in at least one of the first two classes is mandatory for evaluation or you may lose your spot in class to those on a waitlist. No enrollments are accepted after the class meets a third time.

142 Intermediate Swim 1.00

13675 PD W LAB 001 TTH 7-8PM ARR Thelen

Class will be held at CCRB in the Bell Pool. Students must register through the Kinesiology Community Programs (KCP) website (kines.umich.edu/community-programs) or in Rm 3064 CCRB and request an override. To drop/request override, contact kebwink@umich.edu. Pre-req: Must have ability to swim one length (long way) each of crawl, backstroke and breaststroke. Intermediate swim focuses on refining strokes while building endurance. Each of the strokes will be taken apart and put back together better than before! Other topics covered include laps, treading water, diving and water safety. Goggles recommended. Attendance in at least one of the first two classes is mandatory for evaluation or you may lose your spot in class to those on a waitlist. No enrollments are accepted after the class meets a third time.

Surveys in the Sport Industry Students enrolled in more than five upper division SM courses will be disenrolled from one of the excess courses.								
Students will engage in active learning by working in small groups on case studies provided live by current professionals from across the sport industry. Case studies will examine challenges faced by organizations as they strive for success in the dynamic landscape of sport business. Students will apply knowledge and skills developed in other sport management coursework as they collaborate to solve real problems and present their proposals to industry executives, further strengthening problem-solving and analytic skills while also enhancing written and oral communication skills in the context of professional presentations.

Sport Mktg,Sponsorshp&Branding Students enrolled in more than five upper division SM courses will be disenrolled from one of the excess courses.								
This course involves a careful examination of marketing and sponsorship strategy in the sport industry, specifically highlighting and analyzing problems which brands, athletes, teams, leagues, and other organizations have in trying to grow their business or brand presence within or through sports.								
Emphases are on the use of established strategy and marketing frameworks learned in other courses, but on how the application, conclusion, or outcome might differ within the context of sports vs. in other industries. It is an exploratory course designed primarily for students who have already taken other business, marketing, or sport management classes. However, it also meets the general needs of students outside of a marketing or sport management concentration with an introduction into sports marketing and marketing in the sports industry. The course fulfills three SM elective credits.

Literature, Science & the Arts

NOTE--IT IS CRITICAL THAT STUDENTS ATTEND CLASSES FROM THE BEGINNING OF THE TERM. EVEN THOUGH STUDENTS MAY BE REGISTERED OFFICIALLY FOR A COURSE, DEPARTMENTS MAY GIVE AWAY STUDENT'S PLACES IN A COURSE IF THEY DO NOT ATTEND:
 ---THE FIRST MEETING OF BIOLOGY, CHEMISTRY, AND PHYSICS LABORATORIES;
 ---THE FIRST MEETINGS OF HISTORY 396 AND 397;
 ---EITHER OF THE FIRST TWO MEETINGS OF ENGLISH COURSES;
 ---EITHER OF THE FIRST TWO MEETINGS OF ANY COURSE OFFERED BY THE DEPARTMENT OF ROMANCE LANGUAGES;
 ---THE FIRST TWO MEETINGS OF COURSES IN OTHER DEPARTMENTS.

AT THE SAME TIME, DEPARTMENTS ARE NOT OBLIGATED TO WITHDRAW STUDENTS OFFICIALLY FROM THE COURSE, EVEN THOUGH THE STUDENT HAS BEEN INFORMED THAT HIS/HER PLACE IN A COURSE HAS BEEN TAKEN AWAY. STUDENTS ARE RESPONSIBLE FOR THE ACCURACY OF THEIR SCHEDULES AND MUST BE SURE THAT ALL DROPS ARE PROCESSED THROUGH THE REGISTRATION SYSTEM DURING THE NORMAL DROP/ADD PERIOD.

Chemistry Department

Chemistry (CHEM)

--A GRADE OF C- OR BETTER MUST BE OBTAINED IN ALL CHEMISTRY COURSES PREREQUISITE TO SUBSEQUENT CHEMISTRY COURSES.
 --ROOM A706 IS A WHEELCHAIR EQUIPPED LAB.
 --A STUDENT WHO DOES NOT ATTEND THE FIRST MEETING OF A BIOLOGY, CHEMISTRY, OR PHYSICS LABORATORY MAY BE DROPPED FROM THE COURSE FOR NON-ATTENDANCE. ALL STUDENTS MUST TAKE ACTION THROUGH THE REGISTRATION SYSTEM TO MAKE SURE THAT THEIR OFFICIAL SCHEDULE MATCHES THE COURSES THEY ARE ATTENDING.

This course is a research-based second-semester organic chemistry laboratory class that builds off of the skills gained in the Chem 211 lab, and the knowledge gained previously in Chem 210 and concurrently in Chem 215.								
Limited seating available- apply here: https://umich.qualtrics.com/jfe/form/SV_41qtfbngMhoxUyx

English Language Institute

English Language Institute (ELI)

ELI courses fall into three categories:

1. English for Academic Purposes courses for graduate students;
2. Language and teacher training courses for international GSIs;
3. Teacher training courses for students planning to teach ESL in local communities or abroad.

For assistance in choosing an appropriate course, please go to the ELI Academic Advising website: <http://bit.ly/eliadvising> or e-mail: eliadvisor@umich.edu to make an appointment to speak with an advisor.

Note: Students who are currently a declared creative-writing minor or English sub-concentrator will receive alternative enrollment instructions in an email. Creative-writing minors and English sub-concentrators are not required to submit a portfolio for review.

To enroll in this course, non-creative writing minors and subconcentrators need to:

1. Submit a portfolio. Portfolio requirements vary from section to section, so contact instructors directly for

their specific guidelines. Portfolios are usually between 5-15 pages of original relevant work (short stories, excerpts, poems) and should be submitted directly to the instructor of each section. For priority consideration, portfolios should be submitted no later than 5pm on Tuesday, December 5, 2017. Students should receive notification of their acceptance (or not) no later than Tuesday, December 12, 2017. Students may still submit portfolios after the priority deadline until seats are full.

2. Students are encouraged to consider a second-choice section (where available) as a potential back-up.

Note: Students who are currently a declared creative-writing minor or English sub-concentrator will receive alternative enrollment instructions in an email. Creative-writing minors and English sub-concentrators are not required to submit a portfolio for review.

To enroll in this course, non-creative writing minors and subconcentrators need to:

1. Submit a portfolio. Portfolio requirements vary from section to section, so contact instructors directly for their specific guidelines. Portfolios are usually between 5-15 pages of original relevant work (short stories, excerpts, poems) and should be submitted directly to the instructor of each section. For priority consideration, portfolios should be submitted no later than 5pm on Tuesday, December 5, 2017. Students should receive notification of their acceptance (or not) no later than Tuesday, December 12, 2017. Students may still submit portfolios after the priority deadline until seats are full.

2. Students are encouraged to consider a second-choice section (where available) as a potential back-up.
 21791 PI W SEM 002 M 4-7PM 4199 AH Palacio

History Department

History (HISTORY)

--IT IS CRITICAL THAT STUDENTS ATTEND CLASSES FROM THE BEGINNING OF THE TERM. EVEN THOUGH STUDENTS MAY BE REGISTERED OFFICIALLY FOR A COURSE, THE DEPARTMENT MAY GIVE AWAY PLACES IN A COURSE IF STUDENTS DO NOT ATTEND THE FIRST TWO COURSE MEETINGS.

--ALL STUDENTS MUST TAKE ACTION THROUGH THE REGISTRATION PROCESS TO MAKE SURE THAT THEIR OFFICIAL COURSE SCHEDULES MATCH THE COURSES THEY ARE ATTENDING.

--100 THRU 500 LEVEL 4 CREDIT HOUR COURSES ARE 4 CREDIT HOURS FOR UNDERGRADUATES ONLY.

--SURVEY AND INTRODUCTORY COURSES ARE FOR FRESHMEN AND SOPHOMORES.

--SURVEY COURSES REQUIRE BOTH LECTURE AND DISCUSSION SECTIONS. DISCUSSION SECTIONS DO NOT MEET UNTIL AFTER FIRST LECTURE.

Mathematics Department

Mathematics (MATH)

---MATH DEPARTMENT POLICY REQUIRES THAT STUDENTS ATTEND BOTH OF THE FIRST TWO CLASS MEETINGS (OR NOTIFY THE INSTRUCTOR IN ADVANCE OF THEIR ABSENCE) OR THEY MAY BE DROPPED FROM THE CLASS.
 ---ALL STUDENTS MUST TAKE ACTION THROUGH THE REGISTRATION SYSTEM TO MAKE SURE THAT THEIR OFFICIAL SCHEDULE OF COURSES MATCHES THE COURSES THEY ARE ATTENDING.

---MATHEMATICS DEPARTMENT POLICY LIMITS STUDENTS TO A MAXIMUM OF 4 CREDITS FOR COURSES NUMBERED BELOW 112.

Statistics Department

Statistics (STATS)

---IT IS CRITICAL THAT STUDENTS ATTEND CLASSES FROM THE BEGINNING OF THE TERM. EVEN THOUGH STUDENTS MAY BE REGISTERED OFFICIALLY FOR A COURSE, THE DEPARTMENT MAY GIVE AWAY PLACES IN A COURSE IF STUDENTS DO NOT ATTEND THE FIRST TWO COURSE MEETINGS.

---ALL STUDENTS MUST TAKE ACTION THROUGH THE REGISTRATION SYSTEM TO MAKE SURE THAT THEIR OFFICIAL SCHEDULE OF COURSES MATCHES THE COURSES THEY ARE ATTENDING.

This lab is a CSP lab. CSP sections are scheduled for more hours per week than a routine section of the same course. Some of that time is devoted to workshop activities, e.g., problem solving, practice tests, review of assignments and instruction in learning skills. There is also provision for more individual instruction in the form of additional office hours, instructor conferences, appointments with a Course Assistant, etc.

Human Neuroanatomy --- This course focuses on key structural aspects of the human brain with an emphasis on function. We will make heavy use of clinical case studies largely in small working groups to uncover how and why symptoms linked to neurological disorders exist. For these case studies, 3-dimensional visualization tools and hands-on examination and limited dissections of human brains will be used to highlight the elegant anatomical relationships of sensory, motor, emotional, and cognitive systems.

21091	P W LAB 004	MW	10-1130AM	DANCE STUDIO D	Torijano	
Modern Dance with Latino Influ						
Bienvenidos! (Welcome)! Start your week on Monday (and Wednesday) at 10:10 dancing to the sounds of Latin American music such as Mambo, Merengue, Bolero, and Salsa; mixed with contemporary dance styles. Learn about the origins of these rich musical styles, broaden your knowledge and find new ways to identify with Central and South American music, poetry, literature and the visual arts.						
21092	P W LAB 005	MW	11-12PM	DANCE STUDIO A	Evangelista	
Intro to Performance						
The gaining of presence, awareness, and concentration are taught in a supportive exploration to establish individual best practices. Develop basic dance and performance skills that explore projection and the relationship between audience and performer. This class offers an introduction to the fundamentals of performance and the performer's tools onstage and off.						
21093	P W LAB 006	MW	4-5PM	DANCE STUDIO B	Schiff	
Modern						
In this class, students will begin with warm-up choreographies rooted in somatic techniques that support increased flexibility, strengthening, injury prevention, and efficient movement patterns. These will lead into standing exercises, movement that flies across the floor, and choreographed combinations that explore rhythm, spatial awareness, and musicality. Students will also explore their unique improvisational voices and choreograph their own dances for their final project. Students will attend a live dance concert and write a reflection paper as well as complete a few short assignments on dance history.						
21094	P W LAB 007	MW	5-6PM	DANCE STUDIO A	Schiff	
Brazilian Zouk						
Brazilian Zouk is a beautiful and fun partnered social dance originally based on Lambada and adapted to fit the Caribbean Zouk rhythm. Since the 1990s, it has drawn on other Brazilian social dance forms (Samba de Gafieira, Forro), concert dance traditions (Ballet, Jazz, Hip Hop) and other elements and tools it picked up as it became a global phenomenon with local communities and international festivals all over the world. It is most identifiable by its luxurious and sometimes dramatic head movements, flowing footwork, and prioritization of connection and community both on the dance floor and off. In this class, we will learn the fundamental movements of both Traditional/Rio Style Zouk and Zouk-Lambada, head movement, dance floor etiquette, development of personal style, history and Brazilian culture, as well as a fun choreographed routine introducing students to advanced movements. Students will be required to attend at least one local community event (free and open to the public) and write a reflection paper in addition to attending Dance Department classes to gain field experience. At the end of the term, students will have all the tools they need to attend a Brazilian Zouk social dance party anywhere in the world.						
21095	P W LAB 008	MW	5-6PM	DANCE STUDIO B	Hirina	
Ballet						
21096	P W LAB 009	MW	6-7PM	DANCE STUDIO A	Hirina	
Yoga						
Yoga class is a sequence of asanas (postures) performed in a flow. Though we will be moving through postures, there will also be time for detailed alignment instructions. This information will be helpful in your future yoga practice at yoga studios. This class offers both a sense of physical challenge, but also restorative effect allowing the body to open and soften while the mind gets a chance to escape the stress of school requirements. The yoga space offers you the chance to focus on yourself for 50 minutes, tuning into your emotional, physical, and mental states, while learning tools to find relief from daily stressors. Though the main portion of the class is a physical experience, it is also a practice that unites one's body, mind and spirit by quieting the mind and creating a sense of peace through physical movement. The class will always end with a short meditation. Due to its experiential form, regular attendance is required.						
21097	P W LAB 010	TTH	9-10AM	DANCE STUDIO A	Bascom	
Jazz						
21098	P W LAB 011	TTH	9-10AM	DANCE STUDIO B	Reehorst

Intro to Pilates

Pilates is a physical training practice created by Joseph Pilates in the 1920s that is designed to develop balanced strength and flexibility while maintaining a focus on postural alignment and body awareness. This course will be an introduction to the exercises of the Pilates Method and will also involve elements of basic anatomy and kinesiology. Designed specifically for students, course content will include exercises that will serve the studying-body with a special focus on strengthening spinal extensors and lengthening the body's back-line. Great for student-athletes and artists looking for a course to balance a training regimen, this course will help students identify personal practice methods to take with them beyond the semester. Most importantly, this class is a practice, a tune into one's own body and develop greater kinesthetic awareness within the Pilates method.

Creative Entrepreneurship is a comprehensive journey that begins with developing one's entrepreneurial mindset (conceiving, vetting and formulating an idea) and then implementing those ideas into successful, sustainable creative ventures. Students explore entrepreneurship through the prism of their own disciplinary specialization. Required texts, coupled with class lectures, collaborative projects and engaged discussions are designed to help develop the core skill sets necessary to awaken and develop young creative entrepreneurs. As an overall philosophy, this course demystifies entrepreneurship and illustrates how an authentic passion and commitment to creativity and learning serve as key pillars for a successful, fulfilling life. The final Capstone Project ties together the material covered in all modules, showcasing each student's ability to formulate and make the case for a creative venture.

Learn to play the dynamic, subtle, transcendent music of the Javanese Gamelan! These classes are for people who want to experience a musical tradition totally different from western folk, rock or classical music. The gamelan is an ensemble of gongs, metallophones, drums, xylophone, a few stringed instruments, and singers. No previous knowledge of Indonesia or of music is expected. These courses are open to all students, undergraduate and graduate in all departments of the university. For information contact Megan Hill (hillmeg@umich.edu)

Beginning Guitar Guitar 111 is a course is for beginners - those who have never played guitar. If you do not own a guitar one will be provided for you to use during the semester. Students with more than a year of playing experience should not register for the course.							
The purpose of GUITAR 111 is to help students develop their guitar skills, with a primary focus on using the guitar as an accompaniment instrument. Right Hand skills covered will include finger picking, flat picking, and a variety of strumming patterns. Left Hand skills will include open chords, barre chords, melody chords, and basic scale patterns. Introduction to reading of standard music notation, guitar tablature, and chord symbols will be covered. Other topics that will be presented include improvisation, playing by ear, and using the capo for transposition.

Engaging Performance

This course connects undergraduate students directly to the touring, world-class artists who perform music, theater, and dance on the U-M campus. Students will attend live performances, talk with the artists and the arts administrators who help get them here, and explore how the performing arts are an integral part of our lives and the world at large. Class will include lectures (including some by guests and visiting artists), weekly discussion sections, required attendance at evening performances, interactive classroom activities, weekly readings, reaction papers about the performances, and group presentations and/or performances from students in class.

Students will attend live performances of:

Urban Bush Women?s Hair & Other Stories

Underground Railroad Game, a daring new theatre work about race in the United States.

singer-songwriter Gabriel Kahane?s new song cycle Book of Travelers

an opera in concert production of the Gershwins' Porgy and Bess

Company Wang Ramirez?s Borderline, a contemporary dance work fusing cultures and styles

a concert at the Michigan Theater capturing the blues tradition in the Piedmont region of the United States

the dance-theatre work of Nederlands Dans Theater

legendary jazz pianist Chick Corea with the Lincoln Center Orchestra

These performances constitute the course?s primary ?textbook,? and the full package of tickets is available to students enrolled in the course for the dramatically reduced rate of \$120. Engaging Performance is made possible through a grant from the Andrew W. Mellon Foundation and a partnership between the University of Michigan and the University Musical Society (UMS)

Wellness for Performing Artist

This class is designed to introduce students in the performing arts to wellness topics and somatic practices with the aims of preventing injury, developing kinesthetic awareness and exploring the role of the expressive body as an integral component of performance. Active participation through movement and in-class performance are required.

Topics that will be addressed include performance anxiety, stress management, nutritional health, Yoga, Alexander Technique, Feldenkrais, and Laban Movement Analysis.

CAT# Class #	Course Title CODE CMP SEC	DAYS	TIME	LOCATION	CR INSTRUCTOR	PREREQ	LAB FEE
25819	P W LEC 003	TTH	430-6PM	378 SM	Edwards		
Entrepren. thru Technology The course will provide a basic introduction to audio and video recording, notation software, and website design, with a goal of developing online an online presence to facilitate entrepreneurship for artists.							
27613	P W LEC 007	MW	2-330PM	376 SM	Granzow		
Digital Fab. for Acoustics This course explores digital fabrication applied to acoustics and instrument design. Students learn 3D printing and laser cutting, conduct sound-based experiments with materials, and design custom musical objects. Acoustic principles are applied in computer-aided design and verified through simulation and making. Readings in musical acoustics, contemporary organology and critical making support class discussion and critique.							
31692	P LEC 008	TTH	230-4PM	506 BMT	Burns		
Electronic Mus&Social Justice This course investigates artistic responses to and interventions in struggles for social justice made by electronic musicians from the 1970s to the present day. Students learn specific artistic and technological techniques which inform music concerned with representation, protest, and activism, and develop critical perspectives on this repertoire.

Music of the Beatles How does music affect our perception of political film? How does music manipulate our feelings for or against the subject matter? In this course we will survey some of the major films in this genre, beginning with Battle of the Somme (1916), and ending with Songs of War (2012) as well as more recent political films. In addition to readings on the political/historical topic, we will learn basic terminology and analytical techniques for film music.

Analyzing Mozart's Operas 25811 P R LEC 003 MW 230-4PM 2044 SM Mukherji							
MT Indian Classical The course is about the classical music traditions of North India, also known as Hindustani music. The first half of the course focuses on acquiring mastery over the basic musical materials of this idiom through singing, improvisation, and transcription exercises. The second half of the course builds on these skills to theorize about and analyze aspects of North Indian classical pitch (i.e. raga) and rhythmic (i.e. tala) structure, form, performance practice, and their connection to other musical idioms, including the classical music of South India, and the classical and popular musical traditions of the West.

The second half of the course builds on these skills to theorize about and analyze aspects of North Indian classical pitch (i.e. raga) and rhythmic (i.e. tala) structure, form, performance practice, and their connection to other musical idioms, including the classical music of South India, and the classical and popular musical traditions of the West.

Vict World of Gilbert&Sullivan							
MEETS W/ENGLISH 346.001							
TOPSY-TURVY: THE VICTORIAN WORLD OF GILBERT AND SULLIVAN							
Created in London between 1871 and 1896, the comic operas of W. S. Gilbert (librettist) and Arthur Sullivan (composer) have been widely performed for more than a century. This course introduces students to the late nineteenth-century context of Gilbert and Sullivan's theatrical collaboration, focusing in particular on aspects of Victorian culture that they parodied through words and music.							
Each week we will read and discuss one of the 'Savoy' operas, mostly in chronological order, combining selected historical readings with analysis of literary, theatrical, and musical elements. We will also consider the award-winning film, 'Topsy-Turvy,' and attend a live performance presented by the University of Michigan Gilbert and Sullivan Society. Throughout the semester we will reflect on the critical and creative possibilities of parody.							
This course fulfills the Poetry requirement for English majors. It is open to students across all departments. Previous experience with performance is welcome, but not required. Course requirements include regular attendance and active participation in class, weekly short response papers, a longer critical essay (written in several drafts), a creative response, and a reflection on the final writing portfolio. No mid-term, no final exam.

Stories of successful business ventures from PharmD and PhD graduates of the College of Pharmacy abound! This new short course will engage graduate and professional students in team-based learning to understand the basics of starting or operating a successful new business in any pharmacy discipline, including ventures based on new drugs, new delivery systems, community pharmacy, and/or pharmacy healthcare. Topics will include business fundamentals, intellectual property, marketing, regulatory issues, and more.

300	Persuasive Policy Wr	3.00
29025	P RW SEM 001 TTH 1-230PM 1230 WEILL	Chimera

This course, structured as a seminar and writing workshop, intensively develops students' persuasive writing and critical reading skills through abundant practice and feedback. Weekly writing assignments and exercises will focus on every stage of the writing process, from brainstorming and research through drafting and revision, in three vital areas of political writing: the short opinion piece, the policy memorandum, and the polemical essay. We will read and analyze a wide variety of examples from traditional print and online media, from journalistic, government, and academic sources. We will also explore ethical considerations of policy writing, considering the ways in which our rhetorical choices?tone, word choice, even syntax?construct our subjects and frame contentious issues for target audiences.

THE COURSE IS OPEN TO STUDENTS OUTSIDE THE FORD SCHOOL CONDITIONAL ON PERMISSION OF THE INSTRUCTOR AFTER SUBMISSION OF A WRITING SAMPLE. Non-Ford students should contact the instructor via email at bchimera@umich.edu to inquire.

NGOs in Policy Formation

Taught by Towsley Policymaker in Residence Hardy Vieux (Legal Director at Human Rights First)

This class will explore the role of non-governmental organizations in formulating policy. Globally, there are currently some 3.7 million NGOs in operation. Given this proliferation and the ostensible influence of NGOs, this class will delve into what makes an NGO unique from other institutions engaged in policy formulation and how that role impacts the policy-making process. We will explore the core activities of NGOs through the lens of current policy debates, such as the global refugee crisis and the war on terror. The class seeks to make students aware of the myriad questions and nuances that beset NGOs and the array of strategies and tools available to NGOs to impact policy.

Soc Justice & Poli Conflicts

Fulfills the BA in Public Policy Values & Ethics requirement.

This is a course for students interested in social justice and equality, social justice movements, anti-democratic movements and the intersections of public leadership, public policy, and the rule of law in the context of the temporal evolution of the democratic state. It will seek to provide a comparative and global understanding of how social movements have shaped understandings and discourses of human rights over time. It will address the role of civic movements and leaders in transforming social understandings and meanings of the concepts human rights (social, political, economic and environmental rights) over the last two centuries. It will explore the relations between individual action, collective processes and outcomes as these affect and are shaped by the contexts of system, institution, law and public policy. It will address how inherent and intersecting relations of power, systems and structures of dominance are related to the experience of peace, violence, oppression and social resistance. As these are often textured into the context of politics, economics and the environment. It will explore the relationship between public policy, the law, institutional structure, social norms, social

conditioning, ideologies, strategic communicative interaction, group engagement and imperial behaviors in the public spheres. It will pay special attention to the consequences social movements, social actors and leaders produce for politics, the economy, the environment, justice, equality, human rights and human lives. This course will introduce students to the intellectual and technical rigors of democratic, non-violent and effective leadership in the spheres of policy, the law and society. It will explore the social and political endeavors of such leaders and movements to address the difficult questions facing our world today. In this way it will provide an overview of how such leaders negotiate, manage and resolve conflicts in organizational and intra-organizational settings. Importantly it will provide students with a theoretical understanding of how trans-generational and social trauma comes to bear on successful institutional, systemic, and programmatic intervention at the nexus of social justice work and public policy.

Comparative Law & Policy
Fulfills the BA in Public Policy Values & Ethics requirement.

This class provides a foundational understanding of comparative law and selected foreign legal systems. The first part of the course is devoted to understanding the different families of law. We will discuss civil law, common law, socialist law, customary law, Islamic law and others. In addition, we will explore country specific examples. In the second part of the course, we discuss ways to approach comparative law, and explore how laws are compared. Both the first and second parts of the course lead into the third where we will use our knowledge to explore practical policy applications of comparative law: How can laws successfully be transplanted one from country to another? How can law be used to further development? How do different systems address religious differences? How are legal systems rebuilt after wars?

Immigration Policy

Fulfills the BA in Public Policy Values & Ethics requirement.

Immigration is a phenomenon that touches upon every aspect of American society, from economic growth to neighborhood institutions to national culture. This seminar provides an overview of the effects of immigration on the United States and of the United States on immigrants, with particular emphasis on policies that govern the flow of immigration and that seek to regulate its impact. Topics include immigration law and its development; attitudes toward immigration and immigrants; unauthorized migration; return migration and transnational communities; labor market issues; economic mobility and economic and social niches; political inclusion, organization and co-optation; Americanization and assimilation; generational change; language controversies; ethnic and pan-ethnic identities; and the commercialization of immigrant cultures.

Facilitating Dialogue

This is a short introductory course module in facilitating complex and difficult dialogic moments of engagement in the social, professional and institutional spheres of the public arena. Its purpose is to provide the possibility for actual engagement with tense social issues and phenomena bedeviling complex societies. It will briefly explore the historical and theoretical contexts, which give rise to sometimes painful and traumatic moments that filter in and color what may otherwise be perceived as simplistic conversations and interactions. It will introduce students regardless of perceived color, gender, class, or ethnic identity categorization to the necessity for transcending their subject locations. In order to facilitate, mediate, and engage in trans-formative moments of learning, dialogue, leadership and communal capacity building with due regard of difference and the respect of mutuality.

Great Depression to Great Rec

Since the 2008 financial crisis, developed countries have suffered high unemployment and slow growth. What are options for policymakers in this environment? This course will analyze central issues in macroeconomic policymaking through the lens of history. Students will apply analytical tools to understand the consequences of monetary, fiscal and financial market policy in the Great Depression, in Japan after 1990, and in the current Great Recession.

Philanthropic Foundations

PUBPOL 495 (Policy Seminar) is for students currently enrolled in the Public Policy Undergraduate Program only, no exceptions. Enrollment is by permission only.

Private philanthropic foundations in the U.S. are fundamentally private organizations that operate within the public arena, and have long played central roles in advancing social change and shaping public priorities, yet exist as autonomous institutions that are unconstrained by democratic accountability mechanisms. While this autonomy allows foundations to achieve effective outcomes by taking risks, innovating with new programs, and moving with more agility than the bureaucratically constrained state, it may also result in amplifying elite voices outside of democratic processes, leading to normative concerns about power and control by the wealthy within the public realm. The core framework of the course will engage with these questions by utilizing an experiential approach, wherein students will participate in a hands-on process of making actual grants to nonprofit organizations. The Once Upon A Time Foundation has provided a grant of \$50,000 that the class will allocate as a course-long project, directly applying the concepts discussed during class through a practical lens. Students will determine the mission and objective of the funding based on students' values; the organization(s) to which funding will be allocated; the number of and size of the gift(s) that will be made; how the gift(s) will be awarded; and how the impact of the gift(s) will be evaluated and assessed.

Global Financial Markets

PUBPOL 495 (Policy Seminar) is for students currently enrolled in the Public Policy Undergraduate Program only, no

exceptions. Enrollment is by permission only.

Global financial markets provide both opportunities and risks for macroeconomic policymakers. In this course we will explore the role of financial markets in economic development, the causes and consequences of financial crises, whether and how policies and institutions can be used to stabilize markets and help countries recover from crises, and what lessons we can learn from recent experiences which might help prevent future crises. The final paper will be an assessment of the causes and consequences of a financial crisis in a (student-selected) specific country.

31969 PDR SEM 003 MW 1130-1PM 1220 WEILL Mills
 Energy & Environ Policy
 PUBPOL 495 (Policy Seminar) is for students currently enrolled in the Public Policy Undergraduate Program only, no exceptions. Enrollment is by permission only.

The course aims to actively engage students in environmental policy research, broadly defined to include not just conventional issues such as air and water pollution, but also—and especially—ever-evolving energy and climate policy. In this hands-on course, students will gain a deeper understanding of contemporary environmental policy research, as well as develop personal expertise with a specific aspect of this policy arena. They will also acquire research skills applicable to both public policy and the social sciences, and hone their written and verbal communication abilities.

The course begins by introducing students to policy research techniques, with readings and class discussion largely drawing from the specific environmental policy interests of the students in the class. Students will then spend the remainder of the term researching a topic of their choosing on energy or environmental policy. These may include the student's own environmental policy passion, or a topic that complements ongoing research in the Center for Local, State, and Urban Policy (CLOSUP) Energy and Environmental Policy Initiative, including the National Surveys on Energy and the Environment. Suitable research projects may address some aspect of the allocation of regulatory authority between national, state, and local government; the inclusion or omission of particular policy levers within the overall regulatory framework; or constituencies of support or opposition for a particular policy option.

Survey Design					
This is a core course restricted to only Ford School students					

Part of successful management is knowing how employees, managers, citizens, and other stakeholders think and feel about organizations in general, about particular policies, and about new initiatives and programs. It's also often important to know whether interventions are working: For example, if a manager has tried to change employee behavior in some way, are employees actually making the desired changes? How can managers get honest feedback about employee morale? When measuring public opinion on a complicated issue, how can you be sure that the responses you get are truly answering the questions you were trying to ask? When you are asking people to self-report about their behaviors, when can you trust their responses? In this module, students will be taught best practices for how to design and implement surveys to assess issues like employee morale, public opinion, and program success. Students will not only review and assess existing survey research, but will gain hands-on experience in designing survey questions, collecting survey responses, and in interpreting survey data.

Working in Diverse Orgs This is a core course restricted to only Ford School students				
The workforce of the 21st century is increasingly diverse. Productive managers cannot afford to ignore this diversity, and can benefit greatly from it. Yet we are often nervous about discussing and embracing issues of diversity, equity, and inclusion and many otherwise strong leaders are blind to the ways their own biases might affect their teams. In this module, students will learn about potential blind spots such as unconscious bias and its effects on employee hiring and retention, how the desire to avoid negative emotions might get in the way of productive management, and the dangers of groupthink, as well as learning strategies to avoid or address these problems. The readings will draw on empirical research from social psychology and organizational behavior, as well as real-world examples of diversity issues in the workplace.

Policy & Mgmt in the Nonprofit This is a core course restricted to only Ford School students				
The nonprofit sector has emerged as one of the cornerstones of American society, and yet remains very much a work in progress. The "third sector" faces unique and evolving pressures in areas such as social enterprise, philanthropy, mission focus, performance measurement, sector blur, and more. In our class we will examine how some of these broad issues intersect with the day to day operation of nonprofit organizations. By considering sector tensions from a management perspective, ultimately we will each develop our own informed view on the appropriate role and function of the nonprofit sector within society. Future policy makers and nonprofit managers alike will enhance their ability to formulate positions on policy issues that impact the sector.

Leadership in Diversity at Uni This is a core course restricted to only Ford School students				
The focus of this graduate seminar in public management is leadership and policy issues related to diversity and inclusion efforts in higher education, with a particular focus on public universities in the United States. A number of current issues related to strategic and policy approaches to diversity in higher education will be explored through the lens of leadership. The course will cover leadership models, the role of vision and mission in organizations, and leadership skills such as strategic planning, change management, organizational culture, values conflict, stakeholder management and resource allocation. Policy topics will include: affirmative action in student recruiting/financial aid and in faculty hiring; law and institutional policy regarding speech and expression; bias reporting systems; and polemics regarding campus statues and named buildings/schools. Students will perform case study analyses of a number of current controversies on campuses and in legislatures. In addition, students will assist the leadership of the University of Michigan by analyzing current campus policies and making recommendations.

NGOs in Policy Formation							
Taught by Towsley Policymaker in Residence Hardy Vieux (Legal Director at Human Rights First)							
This class will explore the role of non-governmental organizations in formulating policy. Globally, there are currently some 3.7 million NGOs in operation. Given this proliferation and the ostensible influence of NGOs, this class will delve into what makes an NGO unique from other institutions engaged in policy formulation and how that role impacts the policy-making process. We will explore the core activities of NGOs through the lens of current policy debates, such as the global refugee crisis and the war on terror. The class seeks to make students aware of the myriad questions and nuances that beset NGOs and the array of strategies and tools available to NGOs to impact policy.

Comparative Law & Policy							
This class provides a foundational understanding of comparative law and selected foreign legal systems. The first part of the course is devoted to understanding the different families of law. We will discuss civil law, common law, socialist law, customary law, Islamic law and others. In addition, we will explore country specific examples. In the second part of the course, we discuss ways to approach comparative law, and explore how laws are compared. Both the first and second parts of the course lead into the third where we will use our knowledge to explore practical policy applications of comparative law: How can laws successfully be transplanted one from country to another? How can law be used to further development? How do different systems address religious differences? How are legal systems rebuilt after wars?

Facilitating Dialogue							
This is a short introductory course module in facilitating complex and difficult dialogic moments of engagement in the social, professional and institutional spheres of the public arena. Its purpose is to provide the possibility for actual engagement with tense social issues and phenomena bedeviling complex societies. It will briefly explore the historical and theoretical contexts, which give rise to sometimes painful and traumatic moments that filter in and color what may otherwise be perceived as simplistic conversations and interactions. It will introduce students regardless of perceived color, gender, class, or ethnic identity categorization?to the necessity for transcending their subject locations. In order to facilitate, mediate, and engage in trans-formative moments of learning, dialogue, leadership and communal capacity building with due regard of difference and the respect of mutuality.

Storytelling in Policy Writing

This new half-semester course takes its inspiration from Ta-Nehisi Coates' "The Case for Reparations." In his essay, Coates employs a mix of writing modes—the statistical and the anecdotal, as well as the journalistic and even the biblical—in order to argue for a policy idea that might be otherwise all too quickly dismissed. In our course, students will choose a policy topic they care deeply about and make a case for it. To steal a line from Luke Schaefer, students will write the paper they came to grad school to write.

28024 P RW LEC 507 TTH 10-1130AM 1220 WEILL Hausman

Great Depression to Great Recession

Since the 2008 financial crisis, developed countries have suffered high unemployment and slow growth. What are options for policymakers in this environment? This course will analyze central issues in macroeconomic policymaking through the lens of history. Students will apply analytical tools to understand the consequences of monetary, fiscal and financial market policy in the Great Depression, in Japan after 1990, and in the current Great Recession.

31991 P RW LEC 509 M 4-7PM 1230 WEILL Udow-Phillips

Health Insurance Reform in U.S

This course will explore the history, structure and politics around health insurance in the U.S. The course will include policy analysis of health insurance with a focus on the underlying policy, political and philosophical issues related surrounding the financing reform debate in private health insurance, Medicaid and Medicare. In addition, the course will provide an overview of the basic features of private health insurance: from rating and underwriting practices, to operational challenges and requirements, to cost and quality controls. Some comparison will also be provided to international systems as a means for better understanding the unique aspects of the American system.

311	Eco Explorers Prep					1.00		
22674	PDR LAB 001 F		1-1AM	ARR	Trumpey			

Course Description

Traditional cooking methods in Sub-Saharan Africa are typically inefficient. Basic, hand built cook stoves can reduce firewood use by 50% improving forest health and reducing girl chores. Eco-Explorers will meet once a week during winter term in preparation for a 3 week June Design Build trip in Tanzania. Language and cultural preparation, test stove design build and design process documentation will be completed prior to the field component. The June trip will include a study tour to major wildlife park areas of Tanzania, a project site visit to a Peace Corps Volunteer and 2 weeks living with Masai families during the design / build process. Enrollment by application / permission of instructor.

Art for Social Change: Japan

Course Description

This course will explore the nature and perception of physical and mental disability in our society and the role that art can play in improving the lives of individuals. We will examine numerous issues through classroom lectures and workshops, and will gain greater understanding of work and education opportunities for people with disabilities through fieldtrips (Detroit, Ann Arbor Center for Independent Living, Work Skills Corporation). The early part of this course during the winter term in Ann Arbor will lay the groundwork for the second part of the course, a one-month trip to Japan for field studies.

Course Description							
Through intensive studio sessions, this course focuses on drawing from the live model, both clothed and unclothed. Students investigate ways the figure is used and referenced in the work of contemporary artists and explore strategies for using the figure in drawings that are creative and expressive in nature. The goals of this course include gaining a better understanding of the figure and its significant role in the history of art, improving figure drawing skills, and pursuing unique methods of personal expression through the use of the figure in drawing.
